[Docket No. G-610]

TENNESSEE GAS AND TRANSMISSION CO.

NOTICE OF AMENDMENT TO APPLICATION

MARCH 20, 1946.

Notice is hereby given that Tennessee Gas and Transmission Company (hereinafter referred to as the "Applicant" or "Tennessee Company"), a Tennessee corporation with its principal place of business at Houston, Texas, filed on March 14, 1946, an amendment to its application, filed November 5, 1946, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authorization to operate its existing facilities for the delivery of natural gas to the Taylor-Green Gas Company of its natural-gas requirements.

In its application of November 5, 1945, the Tennessee Company requested a certificate of public convenience and necessity to authorize its operation of facilities and sale of up to 1000 Mcf of natural gas per day to Taylor-Green Gas Company during the period of October 1, 1945, to March 31, 1946, to obviate, according to the application, a serious gas shortage developing on the system of the Taylor-Green Gas Company, which company serves, as stated, straight natural gas in the communities of Campbellsville and Greensburg, Kentucky, with a total population of approximately 3,600.

Applicant stated, in its application of November 5, 1945, that it is able to deliver the above quantities of natural gas without in any way interfering with or impairing its ability to serve its other existing customers, namely, Hope Natural Gas Company, United Fuel Gas Company, Louisville Gas and Electric Company, with the quantities of natural gas covered by its agreements with those companies.

The Tennessee Company, in its amendment of March 14, 1946, says it appears that Taylor-Green Gas Company's need for an additional supply of natural gas to alleviate the gas shortage on its system will exist in the future as well as during the current winter, and therefore asks leave to amend its application of November 5, 1945, to request the issuance of a permanent certificate of public convenience and necessity authorizing the operation of facilities for the sale of natural gas to Taylor-Green Gas Company in the amount of its daily requirements from and after March 31, 1946.

Any interested State commission is requested to notify the Federal Power Commission whether it considers the application, as amended, one which should be considered under the cooperative provisions of part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application, as amended, of the Tennessee Company, should, on or before the 5th day of April, 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

AMERICAN WATER WORKS AND ELECTRIC CO., INC., ET AL.

NOTICE OF FILING, NOTICE OF AND ORDER FOR HEARING, AND ORDER CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of March A. D. 1946.

In the matters of American Water Works and Electric Company, Incorporated, American Communities Company, Community Water Service Company, Ohio Cities Water Corporation, West Penn Railways Company, The West Penn Electric Company (Applicants), File No. 54–142; American Water Works and Electric Company, Incorporated and subsidiary companies (Respondents), File No. 59–84.

I. Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by American Water Works and Electric Company, Incorporated ("American"), a registered holding company. Five subsidiary companies of American have joined in the filing, namely, American Communities Company ("Waterworks Holding Company"), a direct subsidiary of American, Community Water Service Company ("Community"), a direct subsidiary of Waterworks Holding Company, Ohio Cities Water Corporation ("Ohio Cities"), a direct subsidiary of Community, The West Penn Electric Company ("West Penn Electric"), a registered holding company and a direct subsidiary of American, and West Penn Railways Company ("Railways"), a registered holding company and a direct subsidiary of West Penn Electric. This filing seeks approval, pursuant to section 11 (e) and other sections of the act, of two plans which have been designated as Plan I

and Plan II. The filing states that: "Plans I and II do not provide for such action as will be necessary in order to conform to the provisions of section 11 of the act the holding company system of West Penn Electric, which company controls the electric, gas, transportation and other businesses of the American system. American proposes to develop at a later date an additional Plan or additional Plans to provide for such action".

All interested persons are referred to said documents which are on file in the office of this Commission for a statement of the transactions therein proposed which may be summarized as follows:

American presently controls electric, gas, transportation, ice, land, coal and water companies operating in twenty-one states of the United States.

Through its interests in West Penn Electric, American controls electric, gas, transportation, ice, land, coal and water companies servicing sections of five states. West Penn Electric, among other things, owns all of the voting securities of Railways which company owns certain transportation properties, approximately twenty-five per cent of the common stock of one of West Penn Electric's principal electric utility subsidiaries (West Penn Power Company), and 53 shares of the common stock of American.

In addition American also controls seventy water companies servicing communities in twenty-one states, of which thirty-two companies are controlled directly by American; three are controlled indirectly through two intermediate holding companies (i. e., Huntington Water Corporation, also an operating water company, and Commonwealth Water and Light Company); and thirty-five (including two direct subsidiaries of Ohio Cities) are controlled indirectly through Waterworks Holding Company and Community.

The following table shows as at October 31, 1945, the outstanding securities of American, Waterworks Holding Company, Community and Ohio Cities:

[1] Liquidation value $500,000 plus accrued dividends aggregating $156,667 (i. e., $31.33 per share).
[2] American owns 4,471 shares and Waterworks Holding Co. owns 22,223 shares.

Under Plan I, the waterworks business of the American system (except the water properties controlled through West Penn Electric) will be segregated from the electric, gas, transportation and other businesses. This will be effected by placing the control over all of the waterworks companies (except subsidiaries of West Penn Electric) in Waterworks Holding Company. The common stockholders of American will be afforded the opportunity to continue their interests in the waterworks business through the exercise of subscription warrants entitling them to purchase shares of common stock of Waterworks Holding Company. Plan I also provides for the liquidation into Waterworks Holding Company of Community and Ohio Cities, which companies are intermediate holding companies in the Waterworks Holding Company system. The public preferred stockholders of Community and Ohio Cities will be given the privilege of exchanging their shares for shares of common stock of Waterworks Holding Company and those not making the exchange will be entitled to receive cash as provided in Plan I. Additional funds required for the purposes of the Plan will be obtained through the sale by Waterworks Holding Company of its collateral trust bonds and the sale to underwriters or others of the shares of common stock of Waterworks Holding Company not issued upon exercise of the subscription warrants delivered to the common stockholders of American or in exchange for shares of preferred stock of Community and Ohio Cities. Upon consummation of Plan I, American claims that the Waterworks Holding Company system will not be subject to the requirements of the act.

Under Plan II, American will be dissolved and liquidated. As part of such liquidation, American will pay its debts, will retire its outstanding preferred stock by paying to the holders thereof in cash the liquidation price thereof, namely, $100 per share plus an amount equal to the accrued and unpaid dividends thereon, and will distribute to West Penn Electric any remaining assets owned by it other than common stock of West Penn Electric. After the liabilities of American have been determined and liquidated or otherwise provided for, American will complete its liquidation by distributing to its common-stock holders all shares of common stock of West Penn Electric then held by American.

II. The following steps are proposed in the Plans:

Plan I. *Segregation of Waterworks Business.* 1. American will purchase from Railways the 53 shares of common stock of American owned by that company. Such purchase will eliminate all holdings of American common stock by subsidiary companies in the American system and will result in American having outstanding 2,343,105 shares of common stock.

2. American will make a capital contribution to Waterworks Holding Company of all of the 5,000 shares of preferred stock of that company and of the $175,000 principal amount of open account indebtedness owing by that company to American. Waterworks Holding Company will retire such shares of preferred stock and will reduce its capital by $100,000, the stated value thereof.

3. Waterworks Holding Company will amend its charter so as to provide for an authorized capital stock consisting of 5,000,000 shares of common stock of the par value of $5 per share, convert its present 6,000 shares of common stock without par value (all of which are owned by American) into the same number of shares of common stock of the par value of $5 per share, and change the name of the corporation to such name as shall be determined by its Board of Directors.

4. Waterworks Holding Company will issue and sell privately for cash $15,000,000 principal amount of ten-year 3% collateral trust bonds at their principal amount.

5. Waterworks Holding Company will pay off at its principal amount and accrued interest its present bank loan of $160,000.

6. American will transfer to Waterworks Holding Company American's interest in the waterworks properties owned directly by it, including its interests in Huntington Water Corporation and Commonwealth Water and Light Company, and the 4,471 shares of preferred stock of Community now owned by American.

In consideration therefor Waterworks Holding Company will:

Pay to American an amount in cash to be specified in an amendment to the Plan. The amount of cash so paid will be such as will enable Waterworks Holding Company, out of funds available to it after the making of such payment, (i) to provide for the payment of the publicly held debentures of Community as provided in Step 11 of Plan I, (ii) to provide for the cash payments to the holders of the publicly held preferred stocks of Community and Ohio Cities as set forth in Steps 12 and 14 of Plan I, and (iii) to retain adequate cash working capital.

Issue to American transferable subscription warrants entitling the holders to purchase from Waterworks Holding Company a total of 2,343,105 shares of common stock of Waterworks Holding Company. The price at which shares of such common stock may be purchased upon exercise of the warrants will be specified in an amendment to the Plan.

Assume the liabilities of American related to the assets being transferred to Waterworks Holding Company (exclusive of income tax liabilities).

7. American will distribute to its common stockholders (without the surrender of their shares) the subscription warrants received from Waterworks Holding Company to purchase shares of common stock of that company. Upon such distribution each common stockholder of American will receive a warrant entitling him to purchase one share of common stock of Waterworks Holding Company with respect to each share of common stock of American held by him.

8. Waterworks Holding Company will offer to the public preferred stockholders of Community the privilege of exchanging their shares for shares of common stock of Waterworks Holding Company having a market value at the time such offer is made substantially equal to the cash ($135 per share of Community preferred stock) which such public preferred stockholders of Community would otherwise be entitled to receive upon the liquidation of Community as provided in Step 12 of Plan I. The number of shares of common stock of Waterworks Holding Company so to be offered in exchange for each share of preferred stock of Community will be specified in an amendment to the Plan.

9. Waterworks Holding Company will offer to the public preferred stockholders of Ohio Cities the privilege of exchanging their shares for shares of common stock of Waterworks Holding Company having a market value at the time such offer is made substantially equal to the cash ($120 per share of Ohio Cities preferred stock) which such public preferred stockholders of Ohio Cities would otherwise be entitled to receive upon the liquidation of Ohio Cities as provided in Step 14 of Plan I. The number of shares of common stock of Waterworks Holding Company so to be offered in exchange for each share of preferred stock of Ohio Cities will be specified in an amendment to the Plan.

10. Waterworks Holding Company will issue the aggregate number of shares of its common stock offered to the common stockholders of American on subscription warrants and to holders of publicly held preferred stocks of Community and Ohio Cities in exchange for their holdings. One or more of such offerings may be underwritten and the shares not issued under such warrants or exchange offers will be sold to underwriters or otherwise disposed of.

11. Waterworks Holding Company will deliver to Community, in return for Community's promissory notes, the $169,500 principal amount of debentures of Community held by Waterworks Holding Company and cash in an amount sufficient, together with available funds of Community, to redeem, at their principal amount and accrued interest, all of the remaining $2,586,500 principal amount of debentures of Community and to provide for the payments to the public preferred stockholders of Community as set forth in Step 12 of Plan I. Community will retire all of its debentures.

12. Community will be dissolved and liquidated. Upon such liquidation (i) the public preferred stockholders of Community who have not exchanged their shares as provided in Step 8 of Plan I will receive, with respect to each share of preferred stock held by them, the sum of $135 in cash, (ii) Waterworks Holding Company will receive, with respect to all indebtedness and shares of preferred stock of Community held by it, all of the assets of Community other than the cash required to make the payments to its public preferred stockholders, and will assume any remaining obligations and liabilities of Community, and (iii) nothing will be available for distribution to the common stockholders of Community.

13. Community, or Waterworks Holding Company, will deliver to Ohio Cities, in return for Ohio Cities' promissory notes, cash in an amount sufficient, together with available funds of Ohio Cities, to provide for the payments to the public preferred stockholders of Ohio Cities as set forth in Step 14 of Plan I.

14. Ohio Cities will be dissolved and liquidated. Upon such liquidation (i) the public preferred stockholders of Ohio Cities who have not exchanged their shares as provided in Step 9 of Plan I will receive, with respect to each share of preferred stock held by them, the sum of $120 in cash, and (ii) Community, or Waterworks Holding Company, will receive, with respect to all indebtedness and stock of Ohio Cities held by it, all of the assets of Ohio Cities other than the cash required to make the payments to the public preferred stockholders of Ohio Cities, and will assume any remaining obligations and liabilities of Ohio Cities. The assets of Ohio Cities so acquired by Community or Waterworks Holding Company will consist principally of the outstanding common stocks of The Marion Water Company and The Ohio Cities Water Company.

Plan II. *Liquidation of American.* 1. Upon the consummation of Plan I, American will be dissolved and will proceed to liquidate its affairs in accordance with Steps 2 through 6 below.

2. American will pay and retire, at their principal amounts and accrued interest, its bank loans which are now outstanding in the aggregate principal amount of $10,000,000.

3. American will retire all of its preferred stock, of which 199,868 shares are now outstanding with the public, by paying to the holders thereof, in full satisfaction of their rights, the liquidation price thereof, namely, $100 per share plus an amount equal to the accrued and unpaid dividends thereon to the date such payment is made available to the holders of its preferred stock.

4. American will sell in such manner and at such price as its Board of Directors shall determine, all of the 6,000 shares of common stock of Waterworks Holding Company owned by American.

5. American will lend to West Penn Electric such amount of cash held by American as its Board of Directors shall determine from time to time to be in excess of the amounts required to effect the liquidation of American, including the retirement of the debt and preferred stock of American as provided in Steps 2 and 3 of Plan II. Prior to its final liquidation, American will make a capital contribution to West Penn Electric of any cash then held by American, all indebtedness of West Penn Electric owed by it to American and all shares of stock of West Penn Electric (other than common stock) then held by American; and West Penn Electric will assume all remaining liabilities of American up to the amount of the capital contribution so made. The term West Penn Electric as used in this Plan II includes any corporation resulting from a reorganization of West Penn Electric.

6. Within a reasonable time after Steps 2 through 5 of Plan II have been carried out and the liabilities of American have been determined and liquidated or otherwise provided for, American will complete its dissolution and liquidation by distributing to its common stockholders, in final liquidation and in accordance with their respective shares, all shares of common stock of West Penn Electric then held by American. This distribution, however, may not be made until such action has been taken as will be necessary in order to conform the holding company system of West Penn Electric to the provisions of Section 11 of the Act.

The Plans provide that the manner and method of carrying them out shall be determined by American; that any step of either Plan may be carried out without regard to the consummation of any other step of such Plan or of the other Plan; and that the effectuation of the Plans shall be dependent upon the satisfaction of certain conditions, including approval by the Commission, enforcement by a Court (if requested by American), recitals pursuant to the Internal Revenue Code, as amended, in the Commission's order, to the extent required by American, a ruling satisfactory to American by the United States Treasury Department regarding the tax consequences of the transactions proposed, and consummation on a basis satisfactory to counsel to American of all necessary corporate acts to effect the proposed transactions.

The effectuation of Plan I is further subject to the requirement that all conditions to the effectuation of Plan II shall have been met, except to the extent waived by American, and the effectuation of Plan II is further subject to the condition that Plan I shall have been consummated.

III. The Commission having examined the corporate structure of American and its subsidiary companies, the relationships among these companies in the holding company system of American, the character of the interests thereof and nature of the properties owned or controlled thereby, and having examined the files and records of the Commission relating thereto, and said examination having disclosed data establishing or tending to establish the following:

1. American, organized under the laws of the State of Virginia in 1914 and re-

incorporated under the laws of the State of Delaware in 1927, presently controls electric, gas, transportation, ice, land, coal and water companies operating in 21 States. Attached hereto as Exhibits 1 and 2, respectively,[1] are a list of the companies in the American system showing for each company the State of its incorporation and the type of business conducted, and a chart indicating the principal corporate relationships existing in the American system at the present time.

2. West Penn Electric, organized in 1925 under the laws of the State of Maryland, controls through stock ownership all of the electric, gas, transportation, coal, land and ice properties, as well as some minor water properties, of the American system. The operations of the companies controlled by West Penn Electric are located in Pennsylvania, Maryland, Virginia, West Virginia and Ohio. The principal operating subsidiaries of West Penn Electric are West Penn Power Company, The Potomac Edison Company, Monongahela Power Company and Railways. West Penn Power Company and The Potomac Edison Company are registered holding companies and public utility companies. Monongahela Power Company is an exempt holding company and a public utility company. Railways is a registered holding company, but has been declared not to be a holding company within the meaning and for the purpose of section 11 (b) (2) of the act.

3. Waterworks Holding Company, whose capital stock is all owned by American, was organized in 1936 under the laws of the State of Delaware. At the present time Waterworks Holding Company's principal assets consist of its holdings of securities of Community (approximately 80% of the common stock and approximately 57% of the preferred stock of Community). The only security of Waterworks Holding Company not now held by American is a bank note of $160,000.

4. Community was organized in 1925 under the laws of the State of Delaware and presently controls, directly and indirectly through three intermediate companies 35 water companies servicing communities in Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, Maryland, West Virginia, Ohio, Kentucky and Illinois, and two land companies. Among the subsidiary companies of Community is Ohio Cities.

5. Ohio Cities was organized in 1928 under the laws of the State of Delaware and presently owns all of the common stock of The Marion Water Company and The Ohio Cities Water Company, water companies operating respectively in the Cities of Marion and Tiffin, Ohio.

6. In addition to the water companies controlled through Waterworks Holding Company and Community, and through West Penn Electric, American owns directly the voting securities of thirty-two water companies, and through one of them and another intermediate company controls indirectly three water companies. The thirty-five water companies so controlled by American, serve communities in Connecticut, New Jersey, Pennsylvania, Delaware, Virginia, West Virginia, Alabama, Tennessee, Ohio, Indiana, Illinois, Wisconsin, Iowa, Kansas, Missouri and Arkansas.

The Commission, by order dated March 8, 1946, having, among other things, granted said application subject to the terms and conditions prescribed in Rule U-24 and subject to the following further conditions:

(1) That Central New York obtain from the Public Service Commission of the State of New York a final order expressly authorizing the issue and sale of said preferred stock;

(2) That the proposed issue and sale of said preferred stock shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate; and

The Commission in said order having reserved jurisdiction over the payment of all legal fees and expenses of counsel in connection with the proposed transactions; and

Central New York having filed an amendment to its application herein setting forth the action taken to comply with the requirements of Rule U-50 and showing that pursuant to the invitation for competitive bids, bids for said 200,000 shares of preferred stock were submitted by two groups of underwriters headed by Morgan, Stanley & Co. and Harriman, Ripley & Co., Inc., respectively, as follows:

	Price to company per share	Dividend rate	Annual cost to company
Underwriting group:		*Percent*	*Percent*
Morgan, Stanley & Co.	$100.15	3.40	3.394
Harriman Ripley & Co., Inc.	100.086	3.40	3.397

Said amendment having further stated that Central New York has accepted the bid of Morgan, Stanley & Co. for the preferred stock, as set out above, and that the securities will be offered for sale to the public at a price of $101.50 per share resulting in an underwriters' spread of $1.35 per share; and

Said amendment also setting forth that Central New York has obtained from the Public Service Commission of the State of New York a final order expressly authorizing the issue and sale of said preferred stock; and

The Commission having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be paid to the company, the dividend rate on the preferred stock, the redemption price therefor and the proposed underwriters' spread; and

It appearing to the Commission that the legal fees incurred by the company and by the underwriters, as set out above, are not unreasonable and that jurisdiction over them should now be released;

CENTRAL MAINE POWER CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of March 1946.

Notice is hereby given that an application and declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Central Maine Power Company ("Central Maine"), a public utility subsidiary of New England Public Service Company, a registered holding company.

All interested persons are referred to said document which is on file in the office of this Commission for a statement of the transactions therein proposed which is summarized below. Central Maine proposes to:

1. Issue and sell $13,000,000 principal amount of First and General Mortgage Bonds of a new series, to be designated as Series N, under its First and General Mortgage, as supplemented.

2. Redeem and retire the entire outstanding $13,314,000 principal amount of First and General Mortgage Bonds, Series H, 3½% due 1966, at 104½%, and $4,186,000 principal amount (of the $4,449,000 to be outstanding after sinking fund redemptions already provided for) of First and General Mortgage Bonds, Series J, 3½% due 1968, at 105%.

3. Redeem and retire the entire outstanding $1,500,000 principal amount of 2¾% serial notes due serially to December 1, 1948, and the entire outstanding $2,000,000 principal amount of 3% serial notes due serially to December 1, 1952, in each case at their principal amount.

4. Increase the authorized amount of preferred stock, $100 par value per share, from $19,835,100 aggregate par amount to $30,000,000 aggregate par amount and cancel the authorized $1,575,900 aggregate par amount of $50 preferred stock. Central Maine will issue 220,000 shares of $100 par preferred stock which will be offered to the holders of 111,231 shares of $100 par 7% preferred stock, 79,191 shares of $100 par preferred stock $6 dividend series and 21,518 shares of $50 preferred stock 5% dividend series, on the basis of an equality of par value with a cash payment equal to the difference between the respective redemption prices of the presently outstanding preferred stock and the initial public offering price of the new preferred stock, together with an amount equal to dividends accrued on such shares of presently outstanding preferred stock to the redemption date (adjusted to reflect dividends on the new preferred stock from the date of issue). The proposed exchange offer is not extended to the company's presently outstanding 5,713 shares of non-callable 6% preferred stock, $100 par value per share.

5. Redeem all of the shares of presently outstanding preferred stock not exchanged for the shares of new preferred stock, at the redemption prices of $120 for the 7% preferred stock, $107.50 for the preferred stock, 6% dividend series, and $53 for the $50 preferred stock, 5% dividend series.

6. Increase the authorized amount of common stock, $10 par value per share, from $15,000,000 aggregate par amount to $25,000,000 aggregate par amount. Central Maine will issue and sell as much additional common stock as may be required to provide it with funds of approximately $10,000,000 at a price per share not less than the par value thereof. Such shares are to be offered to the holders of the company's outstanding 6% preferred stock and common stock (other than New England Public Service Company) in accordance with their preemptive rights.

7. Make the following charges to earned surplus: (a) $1,805,119, being the balance at December 31, 1945 of the account, Intangibles Being Amortized; and (b) $1,554,364.12, being the balance at December 31, 1945 of the account, Unamortized Debt Discount and Expense. It is stated that the company will also charge to earned surplus all premium and expense incurred in connection with the call of the presently outstanding preferred stock and the issue and sale of the new preferred and common stocks, and the net cost of calling the presently outstanding bonds and issuing the new bonds. Any premiums which may be received from the sale of the new preferred stock or common stock will be credited to the account, Premium on Capital Stock.

The net proceeds from the sale of the bonds, preferred stock and common stock, together with treasury funds of the company, are to be used by Central Maine to (a) redeem and retire its Series H bonds and redeem and retire some of its Series J bonds as specified above; (b) redeem and retire $3,500,000 principal amount of serial notes without premium; (c) effect the retirement of its presently outstanding preferred stock by exchange and by call for redemption; and (d) pay the expenses incurred in connection with the foregoing transactions.

Central Maine proposes to complete the preferred stock exchange prior to inviting bids for the purchase of the bonds, the unexchanged shares of new preferred stock and the common stock.

Central Maine requests an exemption from the competitive bidding requirements of Rule U-50 with respect to the preferred stock exchange offer, and proposes that exchanges be solicited in the State of Maine by members of the National Association of Security Dealers, Inc., in that State, in connection with which a reasonable dealer-manager fee and reasonable commissions will be paid. The name of the dealer-manager to be employed, the terms and conditions of the contract and the commissions to be paid for the services rendered will be furnished by an amendment to the application and declaration.

It is proposed that the Series N bonds, the new preferred stock (not exchanged) and the additional common stock (subject to the preemptive offer) will be sold at competitive bidding pursuant to Rule U-50. The interest rate of the bonds, the dividend rate of the new preferred stock, the redemption prices of the bonds and the new preferred stock, the public offering price of the bonds, the new preferred stock and the new common stock, the number of shares of common stock to be issued, and the amount of commissions to be paid to the underwriters in each case will be determined by competitive bidding and will be supplied by amendment. The invitation for bids will specify that the dividend rate on the new preferred stock shall be not less than 3.4% and the price to be paid to the company shall be not less than par value nor more than $103.50, and the exchange offer will so state.

In connection with the proposed transactions, Central Maine also requests that the dividend restrictions with regard to the company contained in conditions (2) and (3) of the Commission's order of November 4, 1942 (Holding Company Act Release No. 3883) be rescinded.

The applicant-declarant has designated sections 6 (b), 7 and 12 (c) of the act and Rules U-42, U-43 and U-50 promulgated thereunder as applicable to the proposed transactions and state that the issuance, exchange and sale of the new securities are subject to the approval of the Public Utilities Commission of Maine.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the said application and declaration and that the application and declaration shall not be granted or permitted to become effective except pursuant to further order of the Commission;

It is ordered, That a hearing on the application and declaration under the applicable provisions of the act and the rules and regulations of the Commission promulgated thereunder be held on April 9, 1946 at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why such application and declaration should be granted and permitted to become effective, respectively.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before April 8, 1946, his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said application and declaration, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the securities proposed to be issued and sold by Central Maine are solely for the purpose of financing the business in which it is engaged;

4. Whether the proposed accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound accounting principles;

5. Whether the fees, commissions or other remuneration to be paid directly or indirectly in connection with the proposed transactions are reasonable; and

6. Generally, whether the proposed transactions comply with all the applicable provisions and requirements of the act and rules and regulations promulgated thereunder and whether it is necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of any of the provisions of the act or rules, regulations or orders thereunder to impose terms and conditions in connection with any of the proposed transactions.

It is further ordered, That the Secretary of the Commission shall serve, by registered mail, a copy of this notice on Central Maine Power Company and on the Public Utilities Commission of the State of Maine, and that notice of said hearing be given to all other persons by publication of this notice and order in the FEDERAL REGISTER.

[Order 53 Under 19a]

REFINED CORN SUGAR IN BULK

ADJUSTMENT OF MAXIMUM PRICES

Petitions have been filed requesting increases in the price which the General Maximum Price Regulation established for refined corn sugar in bulk having a dextrose content of over 90%. It is the contention of the petitioners that they are unable to manufacture this commodity under existing price structures.

It is the opinion of the Administrator that these petitions require further consideration; that authority to use adjustable pricing for sales of this product, pending final action on the requests for increases in the maximum prices, is necessary to allow unhampered production and distribution; and that the granting of such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599 and 9697. Therefore, in accordance with § 1499.19a of the General Maximum Price Regulation, *It is ordered*, That:

(a) Pending final action of the Office of Price Administration respecting requests for increasing the price of Refined Corn Sugar in bulk having a dextrose content of over 90%, sellers subject to the General Maximum Price Regulation may sell and deliver this product at a price to be adjustable to that resulting from final action of the Office of Price Administration. Denial of the requests now pending before this Office or issuance of a regulation or amendment for increasing the maximum price of this product constitutes final action for the purposes of this order. Prior to such final action, no price shall be paid in excess of the price prevailing on the date of delivery.

(b) As used in this order, the term:

(1) Refined corn sugar means all commercial types of purified and crystallized corn sugar having a dextrose content of over 90%.

(2) Bulk or "in bulk" means in any original container larger in capacity than 10 pounds.

(c) This order shall be automatically revoked upon the effective date of a price regulation or amendment issued by the Office of Price Administration increasing maximum prices for bulk sales of refined corn sugar. It may be revoked or amended by the Price Administrator at any time.

This order shall become effective March 21, 1946.

Issued this 21st day of March 1946.

PAUL A. PORTER,
Administrator.

Approved: March 20, 1946.

J. B. HUTSON,
Acting Secretary of Agriculture.

See sec. 1 (a), act February 3, 1944 (58 Stat. 8; 38 U. S. C., Sup. IV, 691a).

(b) *To whom not payable.* No mustering-out payment shall be made to:

A person entitled to receive the first installment of the mustering-out payment at the time of discharge for the purpose of enlistment, reenlistment, or appointment in the Regular Army shall, at his election, receive the whole of such payment in one lump sum, rather than installments. See sec. 2 (b), act February 3, 1944 (58 Stat. 9; 38 U.S.C., Sup. IV, 691b), as amended by sec. 7, act 6 October 1945 (Public Law 190—79th Cong.).

(d) *Payments to personnel discharged or relieved from active service prior to February 3, 1944.* Any member of the armed forces entitled to mustering-out payment who shall have been discharged or relieved from active service under honorable conditions before the effective date of this act shall, if application therefor is made within 2 years after the date of enactment of this act, be paid such mustering-out payment by the War Department beginning within 1 month after application has been received and approved by such department: *Provided*, That no member of the armed forces shall receive mustering-out payment under this act more than once, and such payment shall accrue and the amount thereof shall be computed as of the time of discharge for the purpose of effecting a permanent separation from the service or of ultimate relief from active service, or, at the option of such member, for the purpose of enlistment, reenlistment, or appointment in the Regular Army. See sec. 3, act February 3, 1944 (58 Stat. 9; 38 U.S.C. Sup. IV, 691c), as amended by sec. 7, act 6 October 1945 (Public Law 190—79th Cong.).

(e) *Payments to survivors.* If any member of the armed forces, after his discharge or relief from active service, shall die before receiving any portion of or the full amount of his mustering-out payment, the balance of the amount due him shall be payable, on appropriate application therefor, to his surviving spouse, if any; and if he shall leave no surviving spouse, then in equal shares to his child or children, if any; and if he shall leave no surviving spouse or child or children, then in equal shares to his surviving parents, if any: *Provided*, That no payments under this act shall be made to any other person. See sec. 4, act February 3, 1944 (58 Stat. 9; 38 U.S.C., Sup. IV, 691d).

(f) *Exemption from taxation and claims of creditors.* Mustering-out payments due or to become due under this act shall not be assignable and any payments made to or on account of a veteran hereunder shall be exempt from taxation, shall be exempt from the claims of creditors, including any claim of the United States, and shall not be subject to attachment, levy, or seizure by or under any legal or equitable process whatever either before or after receipt by the payee. See sec. 5 (a), February 1944 (58 Stat. 10; 38 U.S.C., Sup. IV, 691e (a)).

(g) *Issuance of regulations.* The Secretary of War shall make such regulations not inconsistent with this act as may be necessary effectively to carry out the provisions thereof, and the decisions of the Secretary of War shall be final and not subject to review by any court or other government official. See sec. 5 (b), act February 3, 1944 (58 Stat. 10; 38 U.S.C., Sup. IV, 691e (b)).

(h) *Payments on behalf of survivors and mentally disabled veterans.* The Secretary of War, or such subordinate officer as he may designate, is authorized to make direct payment to survivors over 17 years of age, and to select a proper person or persons to whom mustering-out payments may be made for the use and benefit of former active members of the armed forces, or survivors thereof, as defined in paragraph (e) of this section without the necessity of appointment by judicial proceedings of a legal representative of any such former member or such survivors when, in the opinion of the Secretary or his designees, the interests of the persons under 17 years of age so justify, or where the former active member or his survivor is suffering from a mental disability sufficient to make direct payment not in the best interests of such person or persons. Payments made under the provisions of this paragraph shall constitute a complete discharge of the obligation of the United States as provided in this act; and the selection of a proper person or persons, as provided herein, and the correctness of the amount due and paid to such person or persons shall have the same finality as that accorded decisions made pursuant to paragraph (g) of this section: *Provided*, That the provisions of this paragraph shall not apply where a legal guardian or committee has been judicially appointed, except as to any payments made hereunder prior to the receipt of notice of appointment. See sec. 5 (c), act February 3, 1944 (58 Stat. 10, added by act December 16, 1944) (58 Stat. 812; 38 U.S.C., Sup. IV, 691e (c)).

(i) *Statutory definitions.* (1) The term "member of the armed forces" means any member of the Army or Navy

of the United States, the United States Marine Corps, the United States Coast Guard, or any of their respective components, and any member of the Women's Army Auxiliary Corps who was discharged under honorable conditions on account of disability.

(2) The term "spouse" means a lawful wife or husband.

(3) The term "child" includes:

(i) A legitimate child;

(iii) A stepchild, if, at the time of death of the member of the armed forces, such stepchild was a member of the deceased's household.

(4) The term "parent" includes father and mother, stepfather and stepmother, and father and mother through adoption. See sec. 6, act February 3, 1944 (58 Stat. 10; 38 U. S. C., Sup. IV, 691f).

§ 306.76 *Payments on behalf of persons discharged on account of mental disability who are not competent to sign commercial papers*—(a) *By whom made.* Mustering-out payments on behalf of persons discharged on account of mental disability who are not mentally competent to sign commercial papers will be made only by Finance Officer, U. S. Army, Washington 25, D. C.

(b) *To whom payable.* Mustering-out payments on behalf of personnel discharged on account of mental disability may be made only to the following:

(1) Legally appointed guardian or committee of the veteran when he is not mentally competent to sign commercial vouchers, or

(2) Discharged veteran, provided a guardian or committee has not been legally appointed and such an appointment is not contemplated, if a written, dated, and signed statement by a registered practicing physician is furnished to the effect that the veteran is, in the opinion of the examining physician, mentally competent to handle his own personal affairs. (The term "registered practicing physician" includes staff physicians at Government hospitals.)

(3) Where no legal guardian or committee has been appointed, and where payment cannot be made to the veteran under subparagraph (2) of this paragraph, payment is authorized to be made for the use and benefit of the mentally disabled veteran to a person selected under the provisions of § 306.75 (h).

(i) Where a veteran is hospitalized in a Veterans' Administration hospital, or is temporarily absent therefrom for convalescent purposes, the person selected to receive the payment for the use and benefit of the veteran will be the manager of such a hospital unless, in the opinion of the selecting officer, selection of some other person is warranted by the facts in a given case. If a hospital manager applies for payment on behalf of the mentally disabled veteran under his jurisdiction but, prior to the receipt of any one of the checks covering complete payment, the veteran is discharged from the facility, checks received after the veteran's departure from the facility will be returned to the Finance Officer, U. S. Army, 801 Channing Place, NE, Washington 25, D. C., accompanied by so much of the following information as is pertinent to the case of the individual concerned:

(a) A statement concerning the mental condition of the veteran at the time of discharge from the hospital, i. e., whether considered mentally competent to handle his own personal affairs. Statements indicating that the veteran was mentally competent to handle his own personal affairs at time of discharge from the hospital will be executed by a physician in accordance with subparagraph (2) of this paragraph.

(b) The name and address of the person in whose custody the veteran was discharged from the hospital; or

(c) The address of the veteran if discharged from the hospital in his own custody.

(ii) Where a veteran has been discharged from the Army directly to the custody of a person other than the manager of a Veterans' Administration hospital, the person selected to receive payment for the use and benefit of the veteran will be a person who, in the opinion of the selecting officer, will act in the best interests of the veteran. Selection under the provisions of this subdivision will ordinarily be made in the following order of precedence; spouse; parent; adult child; and any other properly qualified person. This order of precedence may be varied, in the discretion of the selecting officer, where the facts in a given case warrant.

(c) *Evidence required for payment.* No mustering-out payments shall be made to the persons named in paragraph (b) of this section.

(1) The discharge certificate, certificate in lieu of a lost discharge certificate, or statement of service issued in the name of the person on whose account payment is to be made, or similar evidence in the case of commissioned personnel, and

(2) Where payment is to be made to the legally appointed guardian or committee of the veteran, a copy of the instrument of appointment certified as a copy by the clerk of the court from which issued, or

(3) Where payment is to be made to the discharged veteran, a physician's statement as prescribed in paragraph (b) (2) of this section or

(4) Where payment is to be made under the provisions of paragraph (b) (3) of this section, a written and signed statement executed by the person selected to receive the payment for the use and benefit of the veteran containing a statement that the proceeds of the payment will be used for the exclusive benefit of the veteran and such other recitals and supported by such additional evidence as the selecting officer may require.

(5) Additional and/or substitute evidence is authorized, and may be required in appropriate cases in the discretion of the Finance Officer, U. S. Army, Washington 25, D. C.

(d) *Method of payment.* All mustering-out payments made under the provisions of this section will be by check. When payment is made to the legally appointed guardian or committee of the incompetent, the check issued in payment thereof will name the payee as follows: "Richard Roe, Guardian for John Doe, 12345678," or "Richard Roe, Committee for John Doe, 12345678," as appropriate. When payment is made to a person selected to receive the payment for the use and benefit of the veteran, the check issued will name the payee as follows: "Manager, Veterans' Administration Hospital, Washington 7, D. C., for use and benefit of John Doe, 12345678," or "Richard Roe, for use and benefit of John Doe 12345678," as appropriate.

§ 306.77 *Payments to survivors*—(a) *General*—(1) *By whom made.* All mustering-out payments to survivors will be made by the Finance Officer, U. S. Army, Washington 25, D. C.

(2) *Necessity for application.* No mustering-out payment shall be made to any survivor without an appropriate written application therefor.

(3) *Definition of "balance of amount due."* The words, "balance of amount due," contained in § 306.75 (e) shall be construed to mean the full sum remaining unpaid to the veteran at the time of his death, and such sum shall be payable to a qualified survivor in a lump sum and not on an installment basis. For example if a veteran entitled to a mustering-out payment of $300 shall die after receipt of the initial installment of $100, the sum of $200 shall be payable immediately to the qualified survivor.

(4) *Payments to personal representatives not authorized.* No mustering-out payment shall be made to the executor, administrator, or other person representing the veteran or any survivor, except as provided in subparagraph (6) of this paragraph.

(5) *Payments to survivors 17 years of age and over.* Direct mustering-out payments may be made to qualified survivors 17 years of age and over without the necessity of appointment by judicial proceedings of a legal representative of any such survivor except as provided in subparagraph (7) of this paragraph.

(6) *Payments to guardians and committees of survivors.* Where a survivor otherwise entitled to mustering-out payment is prevented from applying for and/or receiving such payment because of minority or mental incompetency, an application may be received from and payment made to the guardian or committee of such survivor. In such case, the check covering the payment will name the payee thereof as follows: "Richard Roe, Guardian for (name of survivor)," or "Richard Roe, Committee for (name of survivor)," as appropriate. All mustering-out payments to the guardians and committees of survivors will be made by the Finance Officer, U. S. Army, Washington 25, D. C.

(7) *Payments to selected persons for the use and benefit of mentally incompetent or minor survivors.* Where no legal guardian or committee has been appointed, and where payment cannot be made to a survivor under subparagraph (5) of this paragraph, payment is authorized to be made for the use and benefit of mentally disabled survivors who are otherwise qualified, or survivors under 17 years of age who are otherwise qualified, to a person selected under the provisions of § 306.75 (h). Such payments will not be made without a written and signed statement executed by the person selected to receive the payment for the use and benefit of the survivor and such other recitals and supported by such additional evidence as the selecting officer may require. In such cases, the check covering the payment will name the payee thereof as follows: "Richard Roe, for the use and benefit of (name of survivor)."

(b) *Payments to a spouse.* Mustering-out payment shall be made to the spouse of a deceased veteran who is otherwise entitled thereto, only if such spouse:

(1) Shall have survived the veteran, and

(2) Has submitted an appropriate application therefor.

(c) *Payments to a child or children.* Mustering-out payment shall be made to the child (or children) of a deceased veteran who is otherwise entitled thereto, only if such child (or children):

(1) Shall have survived the veteran,

(2) Have submitted an appropriate application therefor, and

(3) The veteran shall not have been survived by a spouse.

Where payments to two or more children are to be made, separate checks will be drawn in favor of each child, or the guardian or committee of such child, if appropriate.

(d) *Payments to a parent or parents.* (1) The word "parents" as used in § 306.75 (e) shall be construed to mean either the sole surviving parent or the surviving parents of the deceased veteran. Mustering-out payment shall be made to the parent (or parents) of a deceased veteran who is otherwise entitled thereto, only if such parent (or parents):

(i) Shall have survived the veteran,

(ii) Have submitted an appropriate application therefor,

(iii) The veteran shall not have been survived by a spouse, and

(iv) The veteran shall not have been survived by a child (or children). Natural parents of the veteran are not entitled to mustering-out payment where the veteran had been legally adopted prior to his death. Payments may be made to stepparents where natural parents are deceased, and to adoptive parents even though natural parents may be living, if otherwise entitled thereto. Persons who stood in loco parentis to the deceased veteran are not entitled to mustering-out payment. Where payments to two parents are to be made, separate checks will be drawn in favor of each parent, or the guardian or committee of such parent, if appropriate.

(2) Where both natural parents survive the veteran, and are otherwise entitled to mustering-out payment, each parent shall be entitled to one-half of the amount payable irrespective of his or her marital status.

(3) Where only one natural parent survives the veteran, and is otherwise entitled to mustering-out payment, that parent shall be entitled to the full amount payable irrespective of his or her marital status and irrespective of the survivorship of possible stepparents.

(4) Where both natural parents predecease the veteran, and stepparents survive the veteran, if the relationship of stepparent has not been terminated by divorce or remarriage, and if they are otherwise entitled to mustering-out payments, they shall be entitled to share equally in the amount payable, except that where only one stepparent survives the veteran, he or she shall be entitled to the full amount payable.

[RMPR 341, Amdt. 14]

MAXIMUM PRICES FOR USED COMMERCIAL MOTOR VEHICLES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 341 is amended in the following respects:

1. Paragraph (a) (2) of section 6 is amended to read as follows:

(2) A transportation allowance determined in accordance with paragraph (d) of this section; and

2. Paragraph (a) (3) of section 6 is amended to read as follows:

(3) The "value when new" of any extras, determined in accordance with paragraph (e) of this section.

3. Paragraph (c) (3) of section 6 is amended to read as follows:

(3) *What "value when new" covers.* "Value when new" covers all parts and other equipment present on the vehicle at the time it is sold to the War Department, Department of the Navy, Marine

Corps or Coast Guard. When either the Procurement Division, Treasury Department; the Department of Commerce; Reconstruction Finance Corporation; War Assets Corporation; or any other agency of the United States Government sells a vehicle less a part or other equipment that was on the vehicle when sold new to the War Department, Department of the Navy, Marine Corps or Coast Guard, it shall deduct from the "value when new" of the vehicle the retail list price for each missing part or piece of removed equipment when new. If the retail list price of a missing part or piece of equipment when new is not ascertainable, deduct from the "value when new" of the vehicle an amount which is a reasonable estimate of the retail price of such part or equipment when new. A reseller of a vehicle from which a part or piece of equipment is missing must make the same deductions in determining the maximum price for such a vehicle.

4. Paragraph (c) under section 18 is amended to read as follows:

(c) "Extra" means any accessory or equipment designed for attachment to the used vehicle when new which is not provided for in the price of such vehicle when new. The term "extra" includes such items as oversized or special tires, special springs, special transmissions, special brakes, optional wheelbase or body frames, heaters, radios, power-take-off winches and other power-take-off equipment. The term "extra" does not include such equipment or any other equipment if it should be present on a vehicle (sold when new to the War Department, Department of the Navy, Marine Corps or Coast Guard) at the time it is sold used by the Procurement Division, Treasury Department; Department of Commerce; Reconstruction Finance Corporation; War Assets Corporation; or any other agency of the United States Government. Nor does the term "extra" include special equipment such as mixers, cranes, scoops, shovels, welding machines, compressors, and winches with independent power, or other equipment having a use not dependent on its attachment to the vehicle.

5. Appendix B is amended to read as follows:

PART 1499—COMMODITIES AND SERVICES

[SR 14A,[1] Amdt. 23]

MILK AND MILK SUPPLIES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register. Section 1499.73a (a) (1) (vii) is amended to read as follows:

(vii) *Maximum prices for approved fluid milk sold and delivered in the Dallas Regional area.* This subdivision (vii) of Supplementary Regulation No. 14A establishes maximum prices for approved fluid milk delivered within the geographical boundaries of Region V, including the states of Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas. Specific maximum prices are established for out-of-store sales, home-delivery and all other sales in containers of one gallon or less. Prices are stated for six types of areas in Region V. These areas are geographically defined in the Appendix. Specific maximum prices are also stated for approved milk in containers larger than one gallon sold to stores, hotels, restaurants, and institutions, also for retail out-of-store sales and home-deliveries. Prices are also provided for sales of approved milk by restaurants, hotels, and similar eating establishments for off-the-premises consumption, when not a part of a meal.

A formula is provided by which persons who sold premium milk during December 1942 may determine a premium to be added to the prices set out, provided they file a required report. No other person, except sellers of Homogenized Vitamin D Milk and sellers who have been licensed to sell under the Jersey Creamline or Golden Guernsey Label may add any premium for such milk unless he first obtains a price from the Dallas Regional Office of the Office of Price Administration. There is also a special method of determining maximum prices for deliveries of approved milk to the Army and Navy.

This subdivision takes the place of the seller's former ceiling prices as determined under the General Maximum Price Regulation, Maximum Price Regulation No. 280, relating to bulk sales of fluid milk to stores, hotels, restaurants and institutions, and supplementary and adjustment orders issued by the Office of Price Administration pertaining to the sale and delivery of approved milk in Region V for all deliveries of approved fluid milk in the Dallas Regional area for which specific prices or for which pricing formulae are provided by this subdivision of Supplementary Regulation No. 14A. The listed maximum prices apply only to fluid sweet milk. They are not applicable to buttermilk and chocolate or other flavored milk, maximum prices for which remain as determined under § 1499.2, General Provisions of the General Maximum Price Regulation.

(a) *Maximum prices.* The maximum prices set forth below are the maximum prices for "approved fluid milk" delivered to the buyer in the respective size containers set forth below, in the respective areas set out in the appendix, regardless of the quantities sold or delivered, the seller's classification of purchasers, or the material from which the container was made.

(1) *Table of prices.* (On sales in containers larger than one gallon the price stated is per gallon. In all other instances the price stated is determined by the container used assuming that the container is full. Maximum prices for sales to the Army and Navy are set forth in subparagraph (5) below).

(i) *Containers of one gallon or smaller—(a) Retail out-of-store sales or home deliveries, and when sold by restaurants, hotels, and other eating establishments as a separate item for consumption off the premises and not as part of a meal.*

Size of container	Area A	Area 1A	Area 1	Area 2A	Area 2	Area 3
	Cents	Cents	Cents	Cents	Cents	Cents

Pint	8½	8	8	7½	7½	7
¼ quart	6½	6½	6	5½	5½	5½
½ Pint	5½	5½	5	5	5	5

(b) *Sales to stores and all other sales not specifically treated (except Army or Navy).*

Size of container	Area A	Area 1A	Area 1	Area 2A	Area 2	Area 3
	Cents	Cents	Cents	Cents	Cents	Cents
Gallon	52	50	48	46	44	42
½ gallon	27	26	25	24	23	22
Quart	13½	13	12½	12	11½	11
Pint	7	6¾	6½	6¼	6	5¾
¼ quart	5	4⅞	4⅝	4½	4⅜	4
½ pint	4	3⅞	3¾	3½	3⅜	3¼

(ii) *Containers larger than one gallon.* (a) The maximum prices for sales to stores, hotels, restaurants and institutions and retail out-of-store sales and home-deliveries in containers larger than one gallon (except Army or Navy sales) are:

Size of container	Area A	Area 1A	Area 1	Area 2A	Area 2	Area 3
	Cents	Cents	Cents	Cents	Cents	Cents
Per gallon	50	48	46	44	42	40

(iii) *Sales of milk by restaurants, hotels, and other eating establishments.* The maximum prices for sales at retail by eating or drinking establishments (as defined in Restaurant Maximum Price Regulation No. 2) of "approved fluid milk," as a separate item and not as part of a meal, for consumption off the premises, are the maximum prices set forth in the retail out-of-store schedule in paragraph (a) (1) (i) (a) above. Maximum prices for sales at retail by eating or drinking establishments of "approved fluid milk," for consumption on the premises, or a part of a meal for consumption off the premises, are determined under Restaurant Maximum Price Regulation No. 2.

(2) *Premium milk.* (i) A person who sold premium milk during December, 1942, shall determine the maximum prices for such milk as follows:

Take the highest price (before all discounts or quantity differentials have been deducted) at which he sold each different kind, grade, quality, or quantity of premium milk during December 1942, at wholesale, out-of-store or delivered-to-the-home, respectively.

Next, subtract from each of these prices the highest price (before discounts or quantity differentials have been deducted) at which he sold other approved fluid milk during December 1942 in containers of the same size at wholesale, out-of-store, or delivered-to-the-home. The differentials thus obtained shall be the premium for each size container and type of sale. These premiums may be added to the specific maximum prices for standard non-premium milk fixed by this area adjustment; *Provided*, That the seller, on or before April 10, 1943, shall file a report with the Regional Office of the Office of Price Administration, Dallas, Texas, showing:

(a) The total quantity, expressed in quarts, of approved fluid milk sold by such seller during December, 1942;

(b) The types of premium milk sold by such seller during December, 1942;

(c) The differential at which he sold each type of such milk during December, 1942; and

(d) The total quantity, expressed in quarts, of each type of premium milk which he sold during December, 1942.

The Regional Office of Price Administration, Dallas, Texas, may correct the prices so reported and may revise any such prices if the differential reported is higher than that generally prevailing during December, 1942, in the local market area or an adjoining area.

(ii) A seller of approved fluid milk who did not sell premium milk, or who sold only premium milk during December, 1942, may not add any premium to the maximum prices established under this area adjustment unless he first files an application in writing in duplicate with the Regional Office of the Office of Price Administration, Dallas, Texas, for permission to sell such premium milk at prices requested, and has been granted a price at which to sell such premium milk under an appropriate order issued by such Regional Office; *Provided*, That on and after March 30, 1946, any seller may sell Homogenized milk fortified with Vitamin D and Jersey Creamline and

Any application filed pursuant to the foregoing subdivision (ii) shall contain the following:

(*1*) A description of the different types of premium milk sold in the area in which the applicant desires to establish maximum prices for premium milk. If no premium milk is sold in the area served by the seller, the application shall so state.

(2) The maximum prices of such premium milk established pursuant to paragraph (2) by other sellers of premium milk in the area served by the applicant;

(3) A specific description of the kind, grade and quality of the premium milk or milks concerning which the application is made.

(5) The amount of premium differential requested.

(3) *Certain sales in adjoining areas where higher maximum prices are established within Region V.* A seller who distributes 50 percent or more of the total volume of approved fluid milk handled by him in any area for which the listed specific maximum prices for containers of one gallon or less for a particular type of sale are higher than that for another area into which he delivers less than 50 percent of his milk may charge the maximum prices applicable to the higher priced area: *Provided*, That the milk is approved for sale for human consumption under the sanitary, health and other local requirements of the area into which more than 50 percent of his total sales occur:

Provided, further, That such seller shall within 30 days after the effective date of this Regulation file with the Regional Office of the Office of Price Administration, Region V, Dallas, Texas, a report giving the location of such seller's plant or establishment, a statement showing that he does sell 50 percent or more of his approved fluid milk in such area, and a list of all cities, towns, or communities outside of such area into which he delivers such milk.

A seller who purchases approved fluid milk in containers of one gallon or less in one area for which the applicable listed maximum prices are higher than for another area in which he makes deliveries may charge purchasers of such milk the maximum resale prices applicable to the area from which he receives his supply. The seller shall file the name and address of his supplier and the names of each city, town or community in which he resells.

Any retailer purchasing such milk for resale may likewise use the maximum price established for the area where the supplier sell 50 percent or more of his approved fluid milk.

(4) *Maximum prices for sales in West Memphis, Arkansas, and Marion, Arkansas.* The maximum prices for the sale of approved fluid milk in West Memphis, Arkansas, and Marion, Arkansas shall be the maximum prices established by any regulation or order of the Office of Price Administration for any comparable seller of approved fluid milk in the City of Memphis, Tennessee.[1]

(5) *Sales to Army and Navy.* Unless the seller has entered into a contract prior to March 13, 1943,[2] and commenced deliveries under such contract prior to that date, the maximum price for sales or deliveries to the Army or Navy in the Dallas Regional area shall be:

(i) *Where the seller is located within the Dallas Regional Area.* The maximum price shall be the foregoing listed maximum price for a particular size container applicable to sales to stores in the area wherein such plant is situated, plus a premium of ½ cent per quart, or a proportionate amount for a part of a quart, or, at the election of such seller, the actual transportation costs from such plant to destination not to exceed lowest common carrier rates. In the event the seller elects to add the transportation costs in lieu of the ½ cent premium he shall, within 10 days after entering into any contract with the Army or Navy, or the making of the first delivery to a camp, post, or other Army or Navy destination, where no contract is entered into, file with the Regional Office of the Office of Price Administration, Dallas, Texas, a statement showing the transportation charges which he proposes to add, together with the method of computing them, the location of the plant, and the destination of such milk.

(ii) *Where the plant of the seller is located outside of the Dallas Regional area.* The maximum price shall be the maximum wholesale price for sales to stores, hotels, restaurants, and institutions established for the particular seller by an applicable regulation or order issued by the Office of Price Administration, plus ½ cent per quart or, at the election of such seller, such wholesale price plus the actual transportation cost from the seller's plant to destination not to exceed the lowest common carrier rates. In the event the seller elects to use such wholesale price plus transportation costs, he shall, within 10 days after entering into any Army or Navy contract or making the first delivery to a particular camp, post, or other Army or Navy destination, where no contract is entered into, file with the Regional Office of the Office of Price Administration, Dallas, Texas, a statement showing such wholesale price, and the transportation charges which he proposes to add to such price, together with the method of computing them, the location of his plant, and the destination of such milk.

(iii) The ½ cent per quart premium provided for Army or Navy sales shall apply to any type of container in which the "approved fluid milk" is delivered.

(iv) The Regional Office of the Office of Price Administration, Dallas, Texas, may correct any price so determined.

(6) *Fractional cents.* On sales of one unit, wherein the price specified in this subparagraph of Supplementary Regulation No. 14A, contains a fractional cent, the seller may adjust the price upward to the nearest cent. On sales of more than one unit, where the unit price is expressed in a fraction of a cent, the exact price established by this subparagraph shall be multiplied by the number of units. If such computations result in a fractional cent, the total shall be adjusted up or down to the nearest cent; and in such adjustment a half-cent may be adjusted upward to the nearest cent. "Home deliveries" shall be considered multiple unit sales unless separate collections are made for single units delivered.

(b) *Definitions.* (1) "Approved fluid milk" means fluid cow's milk, whether raw or pasteurized, meeting the minimum butterfat content, sanitary and health requirements for fluid milk for human consumption in the particular area wherein it is delivered, including standards set by the Army or Navy Purchasing Officer making purchases for the Armed Forces of the United States.

(2) "Premium milk" means any of the following: Certified milk; Homogenized milk whose Vitamin D content has been artificially increased; any other approved fluid milk for which the particular seller customarily charged a premium during December 1942 in excess of such seller's established maximum price for his standard and approved fluid milk; any other milk which has been classified as a premium milk, prior to the date of sale, by an order issued by the Dallas Regional Office of the Office of Price Administration; or Jersey Creamline milk and Golden Guernsey milk when sold under the terms of a currently valid license.

(3) "Sales to the Army and Navy" shall include deliveries in the Dallas Regional area to the Armed Forces of the United States, including deliveries to Post Exchanges, Officers' Messes and Ship stores.

(4) "Dallas Regional Area" means the territory lying within the geographical boundaries of the following states: Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas.

(5) "City, town, county, parish and township" means all of and only the territory lying with the geographical boundaries of a named city, town, county, parish or township, as the case may be.

[1] *Sales in Memphis, Tennessee.* Maximum prices for sales in the City of Memphis, Tennessee, are not provided for in this *subdivision of Supplementary Regulation No. 14A.*

[2] *Sales and deliveries to Army or Navy under contract entered into prior to March 13, 1943.* Maximum prices for deliveries under such contracts are not affected by this subdivision.

"City, town" shall include incorporated and unincorporated cities, towns, and villages.

(6) "Area", unless the context manifestly requires, means the territory lying within the geographical boundaries of any city, town, or other community listed in the appendix. However, where in the appendix the phrase "all other localities" appears, it shall embrace all sellers in such localities whether or not they are actually located in an incorporated or unincorporated city, town or village.

(c) *Exemptions.* The maximum prices set by this subdivision do not apply to buttermilk and chocolate or other flavored milk. The listed maximum prices are applicable only to fluid sweet milk.

(d) *Adjustment of established maximum prices.* The Regional Office of Region V of the Office of Price Administration, Dallas, Texas, may also, upon application of any seller or group of sellers, or on its own motion, adjust any maximum price established under this subdivision (vii) of Supplementary Regulation No. 14A, in accordance with the adjustment provisions of § 1499.75 (a) (9) of Supplementary Regulation No. 15 to the General Maximum Price Regulation and § 1351.807 of Maximum Price Regulation No. 280.

Supp., 900.1 et seq., 10 F.R. 11791), notice is hereby given of a hearing to be held at Jefferson Memorial Auditorium, South Agriculture Building, United States Department of Agriculture, Washington, D. C., beginning at 10 a. m., e. s. t., April 1, 1946.

Such hearing to be held at the time and place indicated is for the purpose of receiving evidence with respect to the economic or marketing conditions relating to the proposed amendments as hereinafter set forth to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Washington, D. C., milk marketing area. These amendments have not received the approval of the Secretary of Agriculture.

The proposed amendments are:

I. *Proposed by Maryland and Virginia Milk Producers' Association, Inc.* a. Amend paragraph (a) § 945.7 to read as follows:

§ 945.7 *Minimum prices*—(a) *Class prices.* Each handler shall pay not less than the following prices per hundredweight of 4 percent milk, subject to (b), (c), (d), (e), and (f) of § 945.10 for milk received from producers and associations of producers at a producer milk plant.

(1) *Class I.* The price for Class I milk shall be $4.60 and if Federal subsidies to producers are discontinued plus $ .62 or the amount computed pursuant to (4) of this paragraph.

(2) *Class II.* The price for Class II milk shall be $3.55 and if Federal subsidies to producers are discontinued plus $ .62 or the amount computed pursuant to (4) of this paragraph.

(3) (No change in Class III.)

(4) If dairy production subsidies are continued, but at rates lower than the rates paid in 1945, the Class I and Class II prices shall be increased by the amount per hundredweight by which Federal subsidy payments to producers in any delivery period are less than the Federal subsidy, including drought payments, paid in the corresponding delivery period of the calendar year 1945.

b. Amend subparagraph (2) paragraph (c) of § 945.10 by adding the following to the sentence: *"Provided*, That no deduction shall be made if numerical farm scores are not assigned such producers by the Maryland Health authorities."

NOTE: This proposal could be accomplished by appropriate amendment of § 945.10 (d), and this alternative may be considered at the hearing.

II. *Proposed by W. H. Fulks, a producer.* Eliminate § 945.10 (g) which provides for the deduction of 30 cents per hundredweight from producers' payments in April, May and June for the purpose of establishing a seasonal adjustment fund that is paid out to producers on the basis of their deliveries in September, October, and November.

III. *General proposal by Dairy Branch, Production and Marketing Administration.* Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the tentatively approved marketing agreement, as amended, and of the order, as amended, now in effect may be procured from the Market Administrator, 1731 Eye Street NW., Washington, D. C., or may be there inspected.

Interested parties may file exceptions to this report with the Hearing Clerk, Office of the Solicitor, Room 1331, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The public hearing, on the record of which the proposed amendments were formulated, was initiated by the Production and Marketing Administration, United States Department of Agriculture, following receipt of petitions filed by the Pure Milk Producers' Association of Greater Kansas City, the Leavenworth Cooperative Pure Milk Association, and the Bates County Milk Producers' Association, and was held at Kansas City, Missouri, January 16, 1946, following a notice of hearing, dated January 8, 1946.

The issues developed at the hearing were concerned with (1) inclusion in the order of seasonal price adjustments price whereby a deduction is made in the computation of the uniform price in the months of heavy production, and the amount deducted and withheld is then paid to producers during the months of short production and (2) with deletion of the "base-rating plan" from the order.

The conclusions reached with respect to these issues, together with some of the supporting reasons for such conclusions, are set forth below:

1. A provision should be included in the order with respect to a plan of seasonal price adjustments whereby a deduction is made in the computation of the uniform price in the months of heavy production and the amount deducted is paid to producers during the months of short production.

2. The provisions of the order with respect to the "base-rating plan" should be deleted from the order. These provisions of the order have been in suspension for the past few years and probably could not be made effective again without additional amendments to the order.

The purpose of the plan is to encourage producers to shift part of their production from the spring to the fall months. The record indicates that there has been, during the last four years, a great deterioration in the seasonal production pattern on the Kansas City market, and virtually all of the increased supply of milk since 1941 has been produced during the spring months, while the increase in demand for milk on the market, has been virtually uniform throughout the year. Accordingly, at the present time this market is extremely short of milk during the fall and winter months, yet has a sizeable surplus during the late spring and early summer.

The proposed plan has been advanced as the means most likely to accomplish the desired shift in production as it would result in a financial incentive for fall and winter production. It was indicated that payment directly by the market administrator would make the plan more effective than would payment through the handler in the form of a higher uniform price and that the receipt of two checks would serve to emphasize the higher price producers were receiving for fall milk and would result in more producers shifting over to fall production.

The following proposed amendments are recommended as the detailed means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because the proposed amendments applicable to it would be the same as those set forth below with respect to the order, as amended, and recommended to be amended.

1. Delete § 913.3 (a) (7) and renumber (8), (9), and (10) respectively as (7), (8), and (9).

2. Delete § 913.5 (a) (2) and renumber (3), (4), (5), (6), (7), and (8) respectively as (2), (3), (4), (5), (6), and (7).

3. Delete § 913.10 and renumber §§ 913.11, 913.12, 913.13, 913.14, and 913.15 respectively as §§ 913.10, 913.11, 913.12, 913.13 and 913.14.

4. Delete in § 913.4 (c) (2) "913.13" and substitute therefor the following: "913.12."

5. Delete in § 913.4 (c) (4) "913.11" and substitute therefor the following: "913.10."

6. Delete in § 913.5 (d) (3) "913.11" and substitute therefor the following: "913.10."

7. Delete in § 913.7 (a) "913.11" and substitute therefor the following: "913.10."

8. Delete in § 913.8 (a) "913.12, and 913.13" and substitute therefor the following: "and 913.12."

9. Delete in § 913.9 (a) (5) "913.11" and substitute therefor the following: "913.10."

10. Amend § 913.9 (b) to read as follows:

(b) *Computation and announcement of the uniform price.* The market administrator shall compute and announce the uniform price per hundredweight of milk received during each delivery period in the following manner:

(1) Combine into one total the net pool obligations computed pursuant to (a) of this section of all handlers who made the reports prescribed by § 913.5 and who made the payments prescribed by § 913.10 for the previous delivery period;

(2) Add the amount of the location differentials applicable pursuant to § 913.10 (d);

(3) For each of the delivery periods of May, June, and July, subtract an amount, equal to 20 cents per hundredweight of the total amount of milk received by handlers from producers and included in these computations, to be retained in the producer-settlement fund for the purpose specified in § 913.10 (h) (2);

(4) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(5) Divide by a figure equal to the total hundredweight of milk received by handlers from producers and included in these computations;

(6) Subtract from the figures computed pursuant to (5) of this paragraph not less than 4 cents nor more than 5 cents for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. This result shall be known as the uniform price for such delivery period for the milk of producers containing 3.8 percent butterfat; and

(7) On or before the 10th day after the end of such delivery period, mail to all handlers (i) such of these computations as do not disclose information confidential pursuant to the act; (ii) the uniform price per hundredweight computed pursuant to (6) of this paragraph; (iii) the prices for Class I milk, Class II milk, and Class III milk; and the butterfat differentials computed pursuant to § 913.7 (c) and § 913.10 (c).

11. Amend § 913.10 (a) to read as follows:

(a) *Time and method of payment.* On or before the 12th day after the end of each delivery period, each handler, after deducting the amount of the payment made pursuant to (b) of this section, and subject to the differentials set forth in (c) and (d), respectively, of this section, shall make payment to producers at the uniform price per hundredweight computed pursuant to § 913.9 (b) for the total quantity of milk received from such producers.

12. Amend § 913.10 (d) to read as follows:

(d) *Location differentials.* For milk received from producers at plants approved by any applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located outside the marketing area but more than 30 miles by the shortest highway route from such handler's plant approved by an applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located within the marketing area, each handler, in making payments pursuant to (a) of this section shall deduct, with respect to all milk received from such producers, the amount per hundred weight specified for the distance of such plant located outside the marketing area from such handler's plant located within the marketing area, as follows: not more than 45 miles, 17 cents per hundred weight; for each additional 10 miles or fraction thereof up to 75 miles, an additional 1½ cents per hundredweight; and for each additional 10 miles or fraction thereof beyond 75 miles, an additional ½ cent per hundredweight.

13. Amend the last sentence in § 913.10 (f) to read as follows:

Immediately after computing the uniform price for each delivery period, the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the sum required to be paid producers pursuant to this section by such handler, and shall enter such amount on such handler's account as such handler's pool debit or credit, as the case may be, and render such handler a transcript of his account.

14. Amend § 913.10 (h) by inserting the figure "(1)" after the heading of such paragraph, and adding as subparagraph (2) the following:

(2) On or before the 15th day after the end of each of the delivery periods of October, November, and December, the market administrator shall pay out of the producer-settlement fund to each producer an amount computed as follows: divide one-third of the total amount held pursuant to § 913.9 (b) (3) by the hundredweight of milk delivered by producers during the delivery period involved (October, November, or December, as above) and apply the resulting amount per hundredweight to the milk of each producer for such delivery period: *Provided*, That payments under this subparagraph due any producer who has given authority to a cooperative association which is qualified pursuant to § 913.11 (b), to receive payment for his milk shall be distributed to such cooperative association if the cooperative association requests receipt of such payment.

15. Delete in § 913.11 (a) "913.11 (a) (1) and (a) (2)" and substitute therefor the following: "913.10 (a)."

16. Delete in § 913.11 (b) "913.11 (a) (1) and (a) (2)" and substitute therefor the following: "913.10 (a)."

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 13 of Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum prices for the Capitol Brass Works, Division of Bohn Aluminum and Brass Corporation, Detroit, Michigan.* (1) The above-mentioned manufacturer may determine his maximum prices for his line of radiator valves, radiator return elbows, sill faucets, boiler drains, stop, stop and waste valves by increasing by 16 percent his prices on these items in effect on October 1, 1941, to each class of purchaser, rounded to the nearest cent.

(a) *Manufacturer's ceiling prices.* Welbilt Stove Company, Inc., 57-18 Flushing Avenue, Maspeth, L. I., New York, may compute its adjusted ceiling prices for all articles of the line of gas ranges which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 13.7 per cent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the ceiling price (exclusive of all permitted increases or adjustment charges) hereafter properly determined or established in accordance with sections 3, 7, or 8 of Maximum Price Regulation No. 64, increased by 13.7 per cent; or the ceiling price determined in accordance with section 5 of Maximum Price Regulation No. 64 which price may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Wholesalers' ceiling prices.* Wholesalers' ceiling prices in the zones listed below for sales to retailers of the models of gas ranges listed below manufactured by the Welbilt Stove Company, Inc., are as follows:

CEILING PRICES FOR SALES BY WHOLESALERS TO RETAILERS

Model	Zone 3	Zone 4	Zone 5

G 65	51.81	53.06	55.40
G 365	60.94	62.31	64.50

The above ceiling prices may not be increased under this order or under the provisions of section 11a of Maximum Price Regulation No. 64. These ceiling prices are f. o. b. wholesaler's city and include the Federal excise tax. In all other respects they are subject to each wholesaler's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

(c) *Retailers ceiling prices.* For sales in each zone by retailers other than mail order houses to ultimate consumers of the models listed below the ceiling prices including the Federal excise tax but not including any state or local taxes imposed at the point of sale are as follows:

CEILING PRICES FOR SALES TO ULTIMATE CONSUMERS

G 365	83.25	85.50	96.25	98.25	101.95

The above ceiling prices include delivery and installation. If the retailer does not provide installation he shall compute his ceiling price by subtracting $6.00 from his ceiling price as shown above for sales on an installed basis. In all other respects these prices are subject to each retail seller's customary terms, discounts, allowances, and other price differentials in effect on sales of similar articles.

(d) *Notification.* At the time of, or prior to the first invoice to each purchaser for resale at wholesale after the effective date of this order, the manufacturer shall notify the purchaser in writing of the ceiling prices and conditions set by this order for resales by the purchaser. This notice may be given in any convenient form.

(e) *Labelling.* The manufacturer shall, before delivering any range covered by this order, after the effective date thereof, attach securely to the inside oven door panel a label which plainly states the OPA retail ceiling prices established by this order for sales of the range to ultimate consumers in each zone and the states included in each zone. The label shall also state that the retail prices shown thereon include the Federal excise tax, delivery and installation, and that if the seller does not provide installation, the ceiling price is $6.00 less than the price shown on the label. There shall also be a statement that the label may not be removed until after range is sold to an ultimate consumer.

[MPR 594, Order 17]

NASH-KELVINATOR CORP.

AUTHORIZATION OF MAXIMUM PRICES

The Nash-Kelvinator Corporation has applied to the Office of Price Administration for increases in its maximum reconversion prices for new passenger automobiles to reflect recent wage increases. The Office of Price Administration now has that application under consideration, and expects to make a determination thereon very shortly.

The company has requested that it be granted an adjustable pricing order under section 18, Maximum Price Regulation 594 to permit it to charge the maximum prices now in effect with the understanding that they may be adjusted upwards in accordance with any action taken by the Office of Price Administration subsequent to the deliveries of the new passenger automobiles.

It appears to the Administrator that until the effective date of the action he takes on Nash-Kelvinator Corporation's request for increases in maximum prices to compensate for recent increases in wages, adjustable pricing should be authorized under section 18, Maximum Price Regulation 594 to promote the production and distribution of new passenger automobiles manufactured by the Nash-Kelvinator Corporation. Furthermore, the Administrator is of the opinion that this adjustable pricing authority should extend to sales by resellers of all automobiles distributed by the Nash-Kelvinator Corporation from March 21, 1946, until the effective date of the action taken by the Administrator on the Nash-Kelvinator Corporation's request for increases in maximum prices to compensate for increases in wages.

In these circumstances, and pursuant to section 18 of Maximum Price Regulation 594, *It is ordered:*

(a) With respect to Nash new passenger automobiles having maximum reconversion prices under Order 11 to Maximum Price Regulation 594 which the Nash-Kelvinator Corporation delivers from March 21, 1946, to the effective date of the Administrator's action on its request for an increase in maximum prices to compensate for recent increases it has given in wages, the Nash-Kelvinator Corporation is authorized to charge maximum prices established in Order 11 to be adjusted upwards after deliveries by the amount of the increases which the Administrator may authorize in such prices.

(b) Resellers which have franchise agreements with the Nash-Kelvinator Corporation and zones or distributors of the Nash-Kelvinator Corporation for resale of Nash new passenger automobiles may sell, during the period from March 21, 1946, to the effective date of the Administrator's action on the Nash-Kelvinator Corporation's request for an increase of maximum prices to compensate for recent increases it has given in wages, such of those automobiles as are invoiced to the reseller at adjustable maximum prices in accordance with paragraph (a) above at applicable resale maximum prices authorized in Order 11 to Maximum Price Regulation 594 to be adjusted upwards by the amounts of increases that the Administrator may authorize in such prices subsequent to the deliveries of the automobiles to purchasers.

(c) This adjustable pricing order shall not have any force or effect on and after the effective date of the action taken by the Price Administrator on Nash-Kelvinator Corporation's request for increases in maximum prices authorized under section 9b of Maximum Price Regulation 594 to compensate for recent increases the company has given in wages.

(d) This order may be amended or revoked by the Price Administrator at any time.

This Order No. 17 shall become effective as of March 21, 1946.

Issued this 22d day of March 1946.

Regional and District Office Orders.

[Region IV Order G-6 Under Gen. Order 68]

SOFTWOOD PLYWOOD IN VIRGINIA, NORTH CAROLINA, SOUTH CAROLINA, TENNESSEE, GEORGIA, AND FLORIDA

Order No. G-6 issued pursuant to General Order No. 68. Maximum prices for retail sales of softwood plywood in the area hereinafter described, Docket No. IV-GO 68-6.

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the provisions of General Order 68, *It is ordered:*

SECTION 1. *What this order covers.* This order covers all retail sales by the type sellers of softwood plywood specified in Tables I-A, I-B, II-A, and II-B delivered to a purchaser in the area hereinafter more specifically described: That portion of Region IV to which the carload freight rate from Seattle, Washington, is 94½¢ per CWT., i. e.: the State of Virginia, the State of North Carolina, the State of South Carolina; that portion of the State of Tennessee lying east of, but not including, Campbell, Union, Knox, Loudon, McMinn and Bradley counties; that portion of the State of Georgia lying east of, but not including, Murray, Gilmer, Dawson, Forsyth, Gwinnett, Rockdale, Henry, Spalding, Meriweather, Talbot, Marion, Webster, Terrell, Calhoun, Baker and Decatur counties; that portion of the State of Florida lying east of, but not including, Jackson, Calhoun and Gulf counties.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means any sale to an ultimate user, including, among others, commercial users, industrial users, and contractors, except where the sale is made by a plywood

manufacturer, or a distribution plant which in 1941 received more than 20% of its dollar income from the sales of plywood or veneer of any kind. These latter types of sales remain subject to the provisions of 3d Revised Maximum Price Regulation 13.

SEC. 3. *Description of types of sellers covered by this order.* This order covers two types of sellers at retail, viz:

(a) *Class I retailers.* Class I retailers are those who, since June 20, 1945, purchased or purchase at least one carload of softwood plywood on direct-mill shipment. (Any shipment which comes directly from the mill without becoming an integral part of the stock of a distribution plant or retail yard is a direct-mill shipment, no matter who the seller is.)

(b) *Class II retailers.* Class II retailers are all other retail sellers, principally those who buy their plywood from distribution plants.

SEC. 4. *Description of plywood covered by this order.* For the purpose of this order all items of plywood priced under the provisions of 3d Revised Maximum Price Regulation 13 are covered by this order. (Sales of hardwood plywood, also all species of softwood plywoods not priced under 3d Revised Maximum Price Regulation 13, are not covered by this order. Such species continue to be subject to pricing under the applicable regulations for the species.)

SEC. 5. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of 3d Revised Maximum Price Regulation 13 shall apply to sales covered by this order.

SEC. 6. *Maximum prices.* The maximum prices for softwood plywood covered by this order are set forth in Tables I–A, I–B, II–A and II–B which are annexed to and made a part of this order.

SEC. 7. *Additions for delivery.* If the buyer requests delivery in a free delivery zone which the seller recognized during March 1942, the seller may not charge for making the delivery. No deduction need be made, however, if the purchaser elects to make his own delivery within the free delivery zone. If, on the other hand, delivery is made outside this free delivery zone, the seller may add for delivery as prescribed in sections 4 and 5 of 3d Revised Maximum Price Regulation 13, viz: the amount computed by multiplying the estimated weights set forth in section 22 by the applicable freight rate.

SEC. 8. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Tables I–A, I–B, II–A and II–B which list maximum prices fixed by this order in each of his places of business in the above designated area in a manner plainly visible to all purchasers.

SEC. 9. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least six months after delivery a duplicate copy of each sales slip delivered by him pursuant to this section.

For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of the buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This Order No. G–6 shall become effective February 28, 1946.

Issued this 15th day of February 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-84, as Amended Mar. 22, 1946]

MANILA (ABACA) AND AGAVE FIBER AND CORDAGE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of manila and agave and products made from them for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3290.221 *Conservation Order M-84—*
(a) *Restrictions on processing of fiber or yarn into rope.* (1) No processor may put into process manila fiber or manila yarn to manufacture rope except for an end use allowed in Schedule A.

(2) [Deleted Feb. 5, 1946]

(b) *Restriction on processing fiber or yarn into other products.* No processor may put into process any manila or agave, or yarns made from those fibers, to manufacture any product (other than rope) except products permitted in Schedule B, and binder twine and baler twine as specifically authorized or directed in writing by the Civilian Production Administration.

(c) *Further restrictions on processing.* (1) The Civilian Production Administration may issue specific directions to processors who have received manila or agave, by allocation under this order or any other Civilian Production Administration order or by delivery from any United States Government agency, as to the extension of more critical fibers by mixture with less critical ones (i. e. use of "extenders") in the manufacture of any product permitted in paragraphs (a) and (b) above.

(2) The Civilian Production Administration may from time to time issue specific instructions regarding the percentage of extender to be used in the manufacture of agave sisalana rope.

(d) *Restrictions on delivery of rope and twine.* (1) No processor or dealer may sell, deliver, or accept delivery of new rope or new twine, produced in the United States in whole or in part from manila or agave fiber or yarn, for end uses for which the product may not be manufactured under this order.

(2) No person may sell or deliver new binder or new baler twine if he knows or has reason to believe that:

(i) The binder twine will not be used with mechanical harvesting equipment or in the growing, harvesting or delivering of agricultural crops, or that the binder twine will be converted into rope or any other product.

(ii) The baler twine will not be used in a self-tying machine for baling hay, straw or other fodder crops.

(3) No person may use new binder or new baler twine to manufacture rope for sale.

(4) [Deleted Feb. 5, 1946]

(e) [Deleted Mar. 22, 1946.]

(f) *Allocation of fiber.* (1) No processor shall make or accept delivery of any manila or agave fiber contrary to directions which from time to time the Civilian Production Administration may issue. The Civilian Production Administration may from time to time allocate to processors the available supplies of manila and agave fiber and specifically direct the time, manner, and quantities in which deliveries to processors shall be made or withheld.

(2) In general allocations of fiber for rope and products permitted in Schedule B to individual processors will be made upon the following basis: the aggregate allocation of manila and agave fibers to each processor will be in proportion to his average monthly sales of both types of rope during the period January 1, 1939 through December 31, 1941; the manila fiber allocated to each processor for rope will be in proportion to his average monthly sales of manila rope during the period January 1 through December 31, 1939; and the agave fiber allocated to each processor will be in proportion to his aggregate allocation for both fibers, less that for manila. A manufacturer who was not in the hard fiber cordage business during 1939-40-41 may apply to the Civilian Production Administration, Textile Division, Washington 25, D. C., for an allocation. The application should be filed by letter stating the quantity of fiber desired, and should include a statement of the facilities available for the manufacture of cordage products, as permitted under Order M-84, the maximum poundage of fiber which can be processed with his facilities on the basis of a 40-hour week, and the minimum poundage of fiber needed for economical operation during a three-month period. Applications from new manufacturers will be considered on an equitable basis in view of the allocations given to other manufacturers.

(3) Allocations of agave fiber for binder twine and baler twine will be prorated among processors on the basis of information previously filed with the War Production Board and Civilian Production Administration as to productive capacity, method and rate of operation.

(g) *End use information.* No person may sell or deliver any product controlled by this order to any person who he knows or has reason to believe will use the product in a manner which this order does not permit. He should satisfy himself as to this in some reasonable manner before delivering. He may, but need not, require a statement in writing showing the specific purpose or use for which the item is ordered.

(h) *Restrictions on the use of damaged material.* Any processor or dealer who has in his possession damaged or defective manila or agave fiber or cordage, may report by letter the extent of the damage and state to the Civilian Production Administration the percentage not suitable for the manufacture of products or for use permitted by this order. He may then upon receipt of acknowledgment, without objection from the Civilian Production Administration, use or dispose of any portion unsuitable for the manufacture of products permitted by this order, free from its restrictions.

(i) *Reports.* (1) Processors of manila and agave fiber shall report monthly on CPA-2901, Sections 1 and 2.

(2) The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Imports.* The importation of material or products covered by this order shall be made in conformity with the provisions of General Imports Order M-63, as amended from time to time.

(k) *Definitions.* In this order:

(1) "Manila" means fiber, spinnable over machinery which is commonly known in the trade by this term and also known as abaca or Manila hemp, wherever grown (either stripped or decorticated), but does not mean the fiber grades of T2 and T3, O or Y, or equivalent, as established by the Insular Government of the Philippine Islands, processor's mill waste or bagasse.

(2) "Agave" means fiber, spinnable over machinery of the species agave sisalana, agave fourcroydes, and agave cantala, of all grades and qualities including tow and fiber under 20" in length, commonly known in the trade as sisal, henequen, cantala, and maguey, and sometimes preceded by an adjective designating the country or district of origin, but does not include processor's mill waste or bagasse.

(3) "Rope" means any rope or cable, treated or untreated, composed of three or more strands each strand composed of two or more yarns, but does not include strings and twines of whatever construction which are commonly used for tying, sewing, baling or other commercial packaging use.

(4) "Twine" means any single or plied yarn or roving, including marlin, for use as a tying material, for sewing or for any similar purpose, but does not include any product falling within the definition of "rope", "binder twine" or "baler twine."

(5) "Binder twine" means a single yarn twine usually containing agave, but sometimes containing manila, istle, jute, coir, hemp, cotton or paper, suitable for use in a harvesting machine and of the type customarily heretofore manufactured. It is put up in balls of approximately five to eight pounds, packed six to ten to the bale. It measures five hundred feet to the pound with a plus or minus tolerance of five per cent, and contains a lubricant of at least ten per cent of the weight of the twine and an insect repellant. It is also known as binding twine.

(6) "Baler twine" means a single yarn usually made of agave fiber and used in a self-tying machine for baling hay, straw or other fodder crops.

(7) [Deleted Feb. 5, 1946]

(8) [Deleted Feb. 5, 1946]

(9) "Processor" means any person (other than a United States Government agency) who spins, twists or otherwise uses any fiber or yarn in the manufacture of rope or twine, or who uses manila or agave fiber in the manufacture of any other product.

(10) [Deleted Mar. 22, 1946.]

(l) *Appeals.* Any appeal from the provisions of this order should be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(m) *Applicability of regulations.* Except as specifically otherwise provided this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the Civilian Production Administration as amended from time to time.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Civilian Production Administration.

(o) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Textile Division, Civilian Production Administration, Washington 25, D. C., Ref.: M-84.

(p) *Effective date of amendment.* This order as amended March 22, 1946 is effective April 1, 1946. Order M-84, as amended February 5, 1946, remains effective until April 1, 1946.

Issued this 22d day of March, 1946.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 1]

GENERAL RESTRICTIONS ON CONSTRUCTION AND REPAIRS

The Veterans' Emergency Housing Program, set forth February 7, 1946, by the Housing Expediter in his report to the President, calls for the construction of an unprecedented number of moderate and low-cost housing accommodations to meet the needs of returning veterans. The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials and facilities required for construction, for defense, for private account and for export. It will be impossible to carry out the Veterans' Emergency Housing Program without diverting critical materials from deferrable or less essential construction. The following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 4700.1 *Veterans' Housing Program Order 1*—(a) *What this order does.* In order to carry out the Veterans' Emergency Housing Program, this order forbids the beginning of construction and repair work on buildings and certain other structures without specific authorization under paragraph (h) of this section, with the exception of certain small jobs and other work covered by paragraphs (d), (e) and (f). The restrictions of the order apply whether or not the materials needed are on hand or are available without priorities assistance.

(b) *Structures and work covered by this order*—(1) *Kind of structures.* The restrictions of this order apply to certain kinds of work on structures. As used in the order, "structure" means any building, arena, stadium, grandstand, pier, moving picture set or billboard, whether of a permanent or temporary nature (however, the erection of stands or other structures which have been used before and are being erected only for a temporary purpose and are to be taken down after the temporary purpose is served is not covered by the order). The term "structure" does not include roads, streets, sidewalks, railroad or street or interurban or plant railway tracks or operating facilities (other than buildings), fences, silos, trailers (except when demounted and installed on a foundation), bridges, tunnels, subways, pipe lines, utility facilities (except buildings) providing for electric, gas, sewerage, water, central steam heating or telephone or telegraph communication services including power or utility lines and sewers, surface or underground mines, wells, dams, canals or drainage or irrigation ditches. The term "structure" also does not include anything that is not attached to the land or to a structure as defined above, or any kind of equipment installed outside of and not attached to a building or other structure.

(2) *Kinds of work.* The restrictions of this order apply to constructing, repairing, making additions or alterations (including alterations incidental to installing any kind of equipment), improving or converting structures, or installing or relocating fixtures or mechanical equipment in structures. These terms include any kind of work on a structure which involves the putting up or putting together of processed materials, products, fixtures or mechanical equipment, if the processed materials, products, fixtures or mechanical equipment are attached to the land, or are attached to a structure and used as a functional part of the structure, or are attached so firmly to the land or structure that removal would injure the material, product, fixture or mechanical equipment or the structure. The laying of asphalt or other tile or linoleum cemented or otherwise attached to the structure is covered by the order. However, repainting, repapering and sanding floors and greasing, overhauling, repairing or installing repair or replacement parts in existing mechanical equipment in all types of structures, where no change in the structure is made, are not covered by the order.

(3) *Fixtures and mechanical equipment.* The term "fixture" means any article attached to a building or structure and used as a part of the building or structure. The term "mechanical equipment" means any equipment which is used to operate a building or other structure. The following items are included within the phrase "fixtures and mechanical equipment" if they are attached to the building or structure in any of the ways indicated later in this paragraph: plumbing, heating, ventilating and lighting equipment, panelling, bookcases, bars, soda fountains, show cases, booths, wood or metal partitions, counters, and the like. These articles are considered to be attached to a building or structure if they are attached by nails or screws to the building, if they are connected to the plumbing or other piping system of the building, if they are connected to the lighting system of the building (except by connection to an existing outlet), or if a base or foundation is built for the item, or if the item is cemented to the building or structure. The phrase "fixtures and mechanical equipment" does not include the following: machine tools, blast furnaces, conveyors, elevators, process piping, control or testing equipment used for industrial or utility purposes or in a laboratory, power generating or transmitting equipment, such as boilers, generators, transformers, and the like (however, where the purpose of boilers, transformers and similar equipment is primarily to provide electricity or steam for lighting or heating the building in which they are installed they would be mechanical equipment), medical equipment in a hospital, washing machines or dryers in a commercial laundry, compressors or cooling equipment in a cold storage warehouse or frozen food locker plant, gasoline pumps and hydraulic lifts in a garage or service station, and stoves, refrigerators (other than refrigerators constructed as an integral part of a building), food-warming equipment and dish-washing equipment in a restaurant.

(c) *Prohibited construction.* (1) No person shall begin to construct, to repair, to make additions or alterations to, to improve, to convert from one purpose to another, or to install or to relocate fixtures or mechanical equipment, in any structure, public or private, in the forty-eight states, the District of Columbia, Puerto Rico or the Virgin Islands, except to the extent permitted under paragraphs (d), (e) and (f), or when and to the extent specifically authorized under paragraph (h). No person shall carry on or participate in any construction, repair work, addition, improvement, conversion, alteration, installation or relocation of fixtures or mechanical equipment prohibited by this order. The prohibitions of this paragraph apply to a person who does his own construction work, to a person who gets a contractor to do the work, to contractors, sub-contractors, architects and engineers working on a job which is being carried on in violation of this order or getting others to work on it or to supply materials for it.

(2) This order forbids the beginning of certain kinds of work. To "begin" work on a structure means to incorporate into a structure on the site materials which are to be an integral part of the structure in question. Demolition, excavation and similar site preparation do not constitute beginning construction. The order does not apply to work which was begun before March 26, 1946, and which was being carried on on that date and which is carried on normally after that date. However, this rule only applies to the particular building or other structure begun before March 26, 1946. It does not apply to any other building or structure which had not itself been begun by that date even though the two are closely related.

(d) *Exemption for small jobs.* (1) This order does not restrict a construction, repair, alteration or installation job, the cost of which does not exceed the allowance given below for the particular kind of structure involved:

(i) $400 for a house or other structure (such as a garage) on residential property designed for occupancy by five families or less. This allowance also applies to farmhouses and other housing accommodations on farms, except bunkhouses and other accommodations for transitory farm laborers.

(ii) $1,000 for a hotel, resort, apartment house, or other residential building designated for occupancy by more than five families.

(iii) $1,000 for a building used primarily for one or more commercial or service establishments such as offices, banks, stores, laundries, garages, restaurants, night clubs, theaters, repair shops, warehouses, frozen food locker plants and radio stations.

(iv) $1,000 for a farm, excluding farm houses which are covered by paragraph (d) (1) (i) above. A farm means a place used primarily for raising crops, livestock, dairy products or poultry for the market.

(v) $1,000 for a church, hospital, school, college or a publicly owned building used for public purposes, or for an orphanage or other building used exclusively for charitable purposes.

(vi) $15,000 for a factory, plant or other industrial structure which is used for the manufacturing, processing, or assembling of any goods or materials, for a logging and lumber camp, for a pier (other than a pier designed for amusement, entertainment or other commercial purposes), for a structure used for or in connection with a railroad or street railway, or a commercial airport, for a bus terminal, for a truck terminal operated by a common or contract carrier by truck, or for a research laboratory or pilot plant or for a motion picture set. This allowance is applicable to structures used for oil, gas, or petroleum producing, refining, or distributing (except service stations and garages which are covered by paragraphs (d) (1) (iii) above). It is also applicable to utility structures (public or private) providing for electric, gas, sewerage, water, central steam heating, or telephone or telegraph communication services.

(vii) $200 for a structure covered by this order which does not fall within one of the classes listed above.

(2) For the purpose of determining whether a particular job is exempted from this order by paragraph (d), the "cost" of a job means the cost of the entire construction job as estimated at the time of beginning construction. This includes the cost of paid labor engaged in the construction work, regardless of who pays for it, the cost or value of new fixtures, mechanical equipment and materials incorporated in the structure, whether or not obtained without paying for them, and the amount paid for contractors' fees. It does not include the cost or value of previously used fixtures, mechanical equipment and materials, the value of unpaid labor, or the cost or value of machinery and equipment (other than mechanical equipment) or the cost of labor engaged in assembling and installing the machinery and equipment.

(3) For the purpose of this exemption, a related series of operations which are performed at or about the same time or as part of a single plan or program constitute a single job. No job which would ordinarily be done as a single piece of work may be sub-divided for the purpose of coming within this exemption. When a building or part of a building is converted from one purpose to another, all work incidental to and done in connection with the conversion must be counted as one job. So also if a building is being renovated, improved or modernized over an extended period, all work done in connection with the modernization (other than work done before March 26, 1946) must be considered as part of one job, even though separate contracts are let for the different parts of the work. The definition of a job given in this paragraph may not be used in determining whether construction has started prior to the issuance of the order under paragraph (c) (2).

(4) If a structure is used for more than one purpose and might therefore fall within more than one of the classes indicated, the use to which the greatest part of the structure will be put (computed on the basis of the floor area where applicable) determines the allowance. If a structure is being converted from one purpose to another, the allowance applicable to the structure after the conversion is the maximum allowance for the conversion. The allowances given for jobs on a structure apply to all subordinate or related structures situated near and used in connection with the structure.

(e) *Exemption for repair and maintenance work in industrial utility and transportation buildings and structures.* The prohibitions of this order do not apply to maintenance and repair work in structures covered by paragraph (d) (1) (vi) of this order. For the purpose of the exemption given by this paragraph, "maintenance" means the minimum upkeep necessary to keep a structure in sound working condition and "repair" means the restoration of a structure to sound working condition when the structure has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like. However, neither maintenance nor repair includes the improvement of any structure by replacing material which is still usable with material of a better kind, quality or design. No maintenance or repair work which is capitalized by the person doing the maintenance or repair work may be performed under this exemption. Alterations to a building or other structure covered by paragraph (d) (1) (vi), including alterations incidental to installation of equipment, are not exempted by this paragraph, even though they are not capitalized, and may only be done when and to the extent permitted under paragraph (d) or when specifically authorized.

(f) *Other exemptions*—(1) *Disasters.* (i) The prohibitions of this order do not apply to the minimum work necessary to prevent more damage to a building or structure (or its contents) which has been damaged by flood, fire, tornado, or similar disaster. This does not include the restoration of the structure to its former condition.

(ii) The prohibitions of this order do not apply to the repair, rebuilding or reconstruction of any house (including a farmhouse) or any farm building which was destroyed or damaged by fire, flood, tornado or similar disaster, if the total cost of the repairs, rebuilding or reconstruction does not exceed $6,000 and if the reconstruction is started within sixty days of the occurrence of the disaster.

(2) *Military construction.* The prohibitions of this order do not apply to work by or for the account of the U. S. Army or Navy.

(3) *Veterans' Administration.* The prohibitions of this order do not apply to work on construction projects of the Veterans' Administration, including projects being built by the Corps of Engineers for the Veterans' Administration, or to the remodelling of a building or any part of a building which has been leased to the Veterans' Administration or to Public Buildings Administration for occupancy or use by the Veterans' Administration.

(g) *Prohibited deliveries.* No person shall accept an order for, sell, deliver or cause to be delivered materials which he knows or has reason to believe will be used in work prohibited by this order.

(h) *Authorizations.* Persons who wish to begin work which is prohibited by this order may apply for authorization. If the application covers housing accommodations under Priorities Regulation 33 (including farm dwellings), it should be made on Form CPA-4386. Applications for non-farm housing accommodations should be filed with the local office of the Federal Housing Administration. Applications covering housing accommodations on a farm should be filed with the appropriate County Agricultural Conservation Committee. The assignment of ratings for or approval of housing accommodations under Priorities Regulation 33, whether before or after the issuance of this order, constitutes an authorization under this order to do the work for which priority assistance or approval was given under that regulation. If the application covers work on a farm (other than farm dwellings), the application should be made on Form CPA-4423 and should be filed with the appropriate County Agricultural Conservation Committee. If work on any other kind of structure is involved, the application should be filed on Form CPA-4423 with the appropriate Construction Field Office of the Civilian Production Administration. Applications will be reviewed to see whether and how much the proposed construction would interfere with the Veterans' Emergency Housing Program. In addition, the essentiality of the proposed work in relation to the Veterans' Emergency Housing Program, to the elimination of a bottleneck to the reconversion of the national economy from a wartime to a peacetime basis, to the public health and safety of the community, or to eliminate an unusual and extreme hardship will be taken into consideration in determining whether the application should be approved. In case of emergency, a request for authorization may be made by telegram to the appropriate Civilian Production Administration Construction Field Office. The telegram should state the nature of the emergency (fire, flood, etc.), the use to which the building will be put, the type of construction, the estimated cost of construction and the reasons why immediate reconstruction is necessary.

(i) *Construction under authorizations.* When a person is specifically authorized, either by approval of Form CPA-4423 or Form CPA-4386 or otherwise, to do work restricted by this order, he must observe the restrictions imposed on him by the authorization, and in doing the authorized work, he must not do any work of the kinds covered by the order unless it is specifically covered by the authorization. He may not, in connection with a job which has been specifically authorized, do additional work under the exemption given by paragraph (d). When an application on Form CPA-4423 has been approved a placard will be sent to the applicant stating that the construction has been approved under this order. The applicant must place in the placard the project serial

number and must set up the placard in front of the project site in a conspicuous location within five days after construction has been started and he must keep the placard there until completion of the work.

(j) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control, and may be deprived of priorities assistance.

(k) *Communications.* All communications concerning this order should be addressed to the Civilian Production Administration, Washington 25, D. C., Ref.: VHP–1.

(l) *Reports.* All persons affected by this regulation shall file such reports as may be requested by the Civilian Production Administration, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of March 1946.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[Limitation Order L-99, as Amended Mar. 22, 1946]

OPERATION OF LOOMS FOR COTTON BROAD WOVEN FABRIC PRODUCTION

The fulfillment of requirements for the defense of the United States has created a shortage in the production of cotton broad woven fabrics and materials for making cotton broad woven fabrics for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.46 *Limitation Order L–99—(a) Operation of looms for cotton broad woven fabric production—(1) Purpose.* This order controls the operation of looms for the production of cotton woven fabrics of more than 12" in width.

(2) No person shall, regardless of the presentation of rated orders, operate looms contrary to the provisions in the schedules of this order.

(3) No person shall operate looms formerly operated in the production of cotton broad woven fabrics and which were acquired by him after June 30, 1944, except as specifically authorized in writing by the Civilian Production Administration. The term "acquired" refers not only to the direct purchase of looms but also to obtaining operating control over looms by obtaining control of the corporation which owns them. Application for authorization may be made by letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L–99, stating all facts, including the type of fabric he wishes to produce, the name of the person who formerly owned or controlled the looms, and the fabric formerly produced on them.

(b) *Minimum quantities to be produced.* Each person in the business of producing in any calendar quarter after March 31, 1946 any broad woven cotton fabric item marked with an asterisk on Schedule A, or any item in the "May Produce Only" column of Schedule B, must produce in that quarter at least as much yardage of the items within the same group as the greater of the following:

(1) Ninety percent of the linear yardage of such items which he produced in the second quarter of 1944, increased or decreased in inverse proportion to any change in pick he has made since then, or

(2) The linear yardage which can be produced by operating each loom producing such items for at least as many hours as any other loom in his mill is operated.

(c) *Exemptions.* (1) *Special looms.* Jacquard and box looms, and looms which were Dobby head looms on March 8, 1946, are exempt from the provisions of paragraphs (a) and (b) of this order and from Schedules A and B.

(2) *Temporary exemption in certain cases pending appeal action.* Any person who files an appeal for exemption from changing over any looms to produce any item required by Schedule B, may postpone production of the required Schedule B item on these looms until he receives notice by telegram or letter from the Civilian Production Administration of the action taken on his appeal. This temporary exemption applies only to appeals filed on or before April 6, 1946 by registered mail with return receipt requested or by telegraph, and does not apply to any reappeal from action taken on the initial appeal.

(d) *Reports and records.* All persons operating looms for the production of cotton textiles of any kind shall file with the Civilian Production Administration at the times specified in the reporting forms, reports on Forms CPA–658–A, B, and C giving the information therein required. All persons affected by this order shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories, production and sales. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(e) *Appeals.* (1) Any appeal from the provisions of this order shall be made by filing a letter in triplicate addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L–99, referring to the particular provisions appealed from and stating fully the grounds of the appeal. However, in order to qualify under paragraph (c) (2) above for exemption pending appeal from Schedule B requirements, the appeal must be filed on or before April 6, 1946 by registered mail with return receipt requested or by telegraph. Any person who wishes to produce Schedule B items but is not permitted to do so under the terms of Schedules A or B, peed specify only the number of looms, the constructions currently produced on them, and the number of looms proposed to be transferred to each different Schedule B construction.

(2) All appeals granted under this order before March 8, 1946 are revoked effective April 6, 1946.

(3) In cases of appeal for suspension of the requirements of paragraphs (a) or (b) on the ground that compliance will result in production at a loss, an application for price relief on that ground must first be filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy filed with the CPA appeal. If the CPA appeal is granted, the requirement of these paragraphs for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(g) *Violations.* Any person who wilfully violated any provision of this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Communications to the Civilian Production Administration.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L–99.

Issued this 22d day of March 1946.

(b) *General provisions.* (1) The total rubber hydrocarbon (designated total RHC in this appendix) is the sum total of natural rubber, synthetic rubber and the rubber hydrocarbon value of reclaimed rubber. The rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference, or indirect" method.

(2) References to Army, Navy, Federal, Railroad, etc., specifications by number mean the latest issue or amendment of the particular specifications.

PART 1410—WOOL

[MPR 163,[1] Amdt. 19]

WOOLEN AND WORSTED CIVILIAN APPAREL FABRICS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 1410.102 (d) (1) and (2) of Maximum Price Regulation 163 is amended to read as follows:

(d) *New woolen or worsted apparel fabrics.* (1) The maximum price for a woolen or worsted apparel fabric for which a maximum price cannot be determined pursuant to paragraphs (a), (b), (c), or (i) of this § 1410.102 shall be computed by multiplying the sum of (i) the cost of the raw materials[2] used in the fabric and (ii) the manufacturing cost thereof, by the 1941[3] ratio of the manufacturer's weighted average selling price to his weighted average manufacturing cost of all woolen or worsted apparel fabrics, but excluding, in computing such ratio, pre-shrunk fabrics sold to retail stores in lengths of 30 yards or less at a price higher than the manufacturer's prevailing price for sales of such fabrics to jobbers or cutters.

(2) For the purposes of this paragraph (d):

(i) The cost of raw material and the manufacturing cost shall be calculated in accordance with either one of the following methods:

(*a*) The cost of raw materials[2] shall be calculated at the cost at the time of filing Form No. 666–533b (formerly Form No. 1163.2) with the Office of Price Administration not to exceed the cost which the manufacturer incurred for raw materials[4] for delivery during March 1942, and the manufacturing cost shall be calculated at the cost at the time of filing Form No. 666–533b (formerly Form No. 1163.2) with the Office of Price Administration not to exceed the costs determined in accordance with the customary accounting practice of the manufacturer, which the manufacturer incurred (or which he would have incurred) in the manufacture of the fabric during March 1942.

(*b*) The cost of raw materials[2] shall be calculated at the highest cost which the manufacturer incurred for raw material[2] purchased during March 1942 and the manufacturing costs shall be the costs determined in accordance with the customary accounting practice of the manufacturer, incurred (or which he would have incurred) in the manufacture of the fabric during such month;

(ii) The weighted average selling price shall be determined by dividing the total gross dollar amount invoiced by the manufacturer in 1941[3] (less returns, allowances, and term discounts in excess of 1%) for the sale of woolen and worsted apparel fabrics by the total number of yards thereof invoiced during 1941, excluding, in making such determination, the amount received from and the yardage of pre-shrunk fabrics sold to retail stores in lengths of 30 yards or less at a price higher than the manufacturer's prevailing price for sales of such fabrics to jobbers or cutters;

(iii) The weighted average manufacturing cost shall be determined by dividing the total manufacturing costs, including the cost of raw materials, of all woolen or worsted apparel fabrics either (*a*) manufactured during 1941[3] by the total number of yards thereof manufactured during 1941, or (*b*) invoiced during 1941 by the total number of yards thereof invoiced during 1941: *Provided*, That a manufacturer who prior to March 26, 1946, reported to the Office of Price Administration a ratio computed by one of the foregoing methods shall not be permitted to file or use a ratio computed on the other. In making such determination, the manufacturing costs and the yardage of preshrunk fabrics sold to retail stores in lengths of 30 yards or less at a price higher than the manufacturer's prevailing price for sales of such fabrics to jobbers or cutters are to be excluded.

(iv) (*a*) After April 1, 1946, a manufacturer who delivers a fabric whose price has already been reported to the Office of Price Administration and redetermines such price pursuant to subparagraph (2) (i) (*b*), shall file within 10 days of that redetermination with the Office of Price Administration, Washington 25, D. C., a revised report on Form No. 666–533b furnished by the Office of Price Administration, substituting the highest cost[4] of raw material purchased in March 1942 for the delivery cost of raw material in item 11 of the form and the cost of manufacturing in March 1942 for the manufacturing cost in item 14 of the form. Furthermore, a manufacturer who determines a price for a fabric pursuant to subparagraph (2) (i) (*b*) shall substitute the highest cost of raw material purchased in March 1942 for the delivery cost of raw material in item 11 of the form and the cost of manufacturing in March 1942 for the manufacturing cost in item 14 of the form.

(*b*) If a manufacturer (*1*) has reported his 1941[3] ratio on a fiscal year basis to the Office of Price Administration prior to April 1, 1946, and (2) delivers a fabric subsequent thereto but (3) has not determined his ratio on a fiscal year the majority of whose months are in 1941 or, in the case of a mill whose fiscal year ended on June 30, 1942, he shall re-determine items 16 and 17 in the Form No. 666–533b pursuant to footnote 3 of this subparagraph (2), and file a revised report on that form within 10 days of delivery of that fabric with the Office of Price Administration, Washington 25, D. C.

(*c*) If a manufacturer determines his 1941[3] ratio to reflect the cost of goods sold rather than the cost of goods manufactured, he shall substitute the weighted average manufacturing cost of all apparel fabrics invoiced during 1941 for the weighted average manufacturing cost of all apparel fabrics manufactured during 1941 in item 17 of the Form No. 666–533b in all reports to be filed pursuant to § 1410.111 (a) (2).

This amendment shall become effective April 1, 1946.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of March 1946.

Administrator.

[1] 8 F.R. 3972, 4396; 10 F.R. 12261, 13546.

[2] Raw materials here means whatever materials the mill purchases for processing. For example, in the case of some mills these materials are wool, supplemented in some cases by purchased tops; in the case of other mills these materials are either raw wool, tops, or yarn, or all three. In the instance where a mill purchases wool and combs its own tops, wool rather than tops is the raw material.

[3] For determining the weighted average selling price and the weighted average manufacturing cost under this § 1410.102 (d), "1941" shall mean the calendar year 1941, except as follows:

For a mill which (1) keeps its records on a fiscal year basis and (2) either has reported its ratio to the Office of Price Administration on a fiscal year basis prior to April 1, 1946, or, in the case of mills reporting thereafter, cannot compute its ratio on a calendar year basis, "1941" shall mean the fiscal year the majority of whose months are in 1941 or, in the case of a mill whose fiscal year ended on June 30, 1941, the period July 1, 1940 to June 30, 1942.

[4] If a mill did not buy for delivery in March 1942 the type of raw material it intends to use at present, it shall use the price which it would have had to pay its customary source of supply for such material for delivery during March 1942.

[4] If a mill did not buy in March 1942 the type of raw material it intends to use at present, it shall use March 1942 ceilings for such raw material or, if there are no March 1942 ceilings, the highest price which it would have had to pay its customary source of supply for such material during March 1942.

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 373, Amdt. 76]

NEW PASSENGER AUTOMOBILES IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 373 is amended by adding a new section 72 to read as follows:

SEC. 72. *Maximum prices for new passenger automobiles*—(a) *Applicability of this section.* This section applies to all sales at wholesale and retail in the Territory of Hawaii of new passenger automobiles and their extra, special or optional equipment.

(1) *Definition of new passenger automobiles.* A new passenger automobile (called "new automobile" in this section) means any 1945 or subsequent model year automobile, including standard equipment, manufactured in the United States, having a seating capacity of less than eleven persons which:

(i) Has not been used; or

(ii) Is a demonstrator; or

(iii) Is a dealer company owned or dealer executive car.

(b) *Prohibition against dealing in new automobiles at prices above the maximum.* (1) No person shall sell or deliver any new automobile at a price higher than the maximum price permitted by this section.

(2) No person in the course of trade or business shall buy or receive a new automobile at a price higher than the maximum price permitted by this section, but if he, the purchaser, has received from the seller a written statement that the price charged is not in excess of the maximum price, and he has no knowledge to the contrary, he shall be deemed to have complied with this paragraph.

(3) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited in subparagraphs (1) and (2) of this paragraph.

(c) *Less than maximum prices.* Nothing in this section prevents the charging, offering, or paying of prices lower than the maximum prices permitted by this section.

(d) *Maximum prices for sales at retail and wholesale*—(1) *Maximum retail prices.* Your maximum price for the sale at retail of any new automobile shall be computed as follows:

(i) Determine your net landed cost under paragraph (e) of this section.

(ii) Determine the applicable discount as established under the provisions of Maximum Price Regulation 594 for the particular make and model of automobile to be sold. Convert this discount into a percentage markup by subtracting your net cost, f. o. b. factory, from the established retail list price, and then dividing that amount by your net cost, f. o. b. factory.

(iii) Multiply your net landed cost by the percentage markup so obtained.

(iv) Add an amount equal to the expense charged to or incurred by you in the course of the purchase and sale of the new automobile for:

(*a*) Federal excise taxes.

(*b*) Territorial taxes.

(*c*) Gasoline and oil put into automobile.

(*d*) Charge for preparing and conditioning the automobile for delivery not to exceed the applicable charge listed in Appendix A.

(*e*) Factory charge for handling and delivery when permitted by orders issued under Maximum Price Regulation 594.

(*f*) An advertising charge when permitted by orders issued under Maximum Price Regulation 594.

(2) *Maximum wholesale prices.* Your maximum price for the sale at wholesale of any new automobile shall be the maximum retail price, established under subparagraph (1) above, for such new automobile, less your customary discount as of November 1, 1941, for sales to the same class of purchaser. If you are unable to establish your maximum wholesale price under this paragraph you must apply to the Office of Price Administration, Iolani Palace, Honolulu 2, T. H., for approval of a maximum wholesale price in line with the level of maximum prices otherwise established by this section.

(3) *Filing of maximum prices.* Prior to your first sale of any new automobile you must compute your maximum price in accordance with the provisions of this paragraph. You must file a statement with the Office of Price Administration, Iolani Palace, Honolulu 2, T. H., showing your maximum price and how you computed such price. Upon approval by the Office of Price Administration the price filed by you, computed to the nearest dollar, shall become your maximum price for all subsequent sales of that particular model automobile. The filed price shall be considered approved ten (10) days after mailing the statement required (or any additional information which may have been requested) unless within that time the Office of Price Administration notifies you that your filed price has been disapproved.

(4) *Sales involving inter-island transportation.* On any sale involving inter-island trans-shipment you may add to your maximum price, established in accordance with the provisions of this paragraph, any additional amounts charged to or incurred by you for inter-island freight, insurance, Territorial tolls and wharfage, landing and terminal operations.

(e) *Landed cost.* Landed cost shall include only the following items which have been actually charged to or incurred by you in the course of the purchase and sale of any new automobile:

(1) Your net cost, f. o. b. factory, for the new passenger automobile and any extra, special or optional equipment. Any advertising or promotional charge made by the manufacturer or any charges for Federal taxes shall not be included in the net cost f. o. b. factory.

(2) Export expenses permitted under section 4 (b) of the Second Revised Export Regulation, including any boxing and crating expenses and exchange charges.

(3) The cost of transportation, not to exceed the actual rail freight charge by the most direct route, for the transportation of the new automobile and extra, special or optional equipment from the factory to the port of shipment f. a. s. steamer.

(4) Marine and war risk insurance.

(5) Landing, wharfage and terminal operations.

(6) Ocean freight.

(f) *When less than a complete automobile is sold.* Maximum prices under this section for sales at wholesale and retail are for new automobiles that are equipped at least with the customary functional and nonfunctional parts, and with the standard equipment filed with the Office of Price Administration by the manufacturers. If any customary functional or nonfunctional part or standard equipment is missing its retail price shall be deducted from the retail list price for the automobile with standard equipment that is included in the maximum price.

(g) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price at the time of delivery.

In addition, a person may deliver or agree to deliver at prices to be adjusted upward after delivery in accordance with action taken by the Office of Price Administration if the Office of Price Administration gives him an authorization to do so. This authorization may be given when a request for a maximum price under paragraph (d) is pending, and if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

The authorization may be given by the Administrator or by any other official of the Office of Price Administration having authority to act upon the pending request for a maximum price. This authorization will be given by order.

(h) *Notice to be posted.* Every dealer who sells new automobiles at retail shall post in a conspicuous place on his premises where new passenger automobiles are offered for sale, a notice not less than 18 inches by 24 inches in size, legibly stating all the following facts:

(1) The make and model of each new automobile offered for sale;

(2) The maximum price of each of the new automobiles as filed and approved by the Office of Price Administration.

(i) *Records and reports*—(1) *Records.* Every person subject to this section shall keep and make available for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records showing:

(i) The make and model of each new automobile offered for sale.

(ii) The net cost, f. o. b. factory.

(iii) All other charges included in the computation of the landed cost.

(iv) Charge for Federal Excise taxes.

(v) Charge for Territorial taxes.

(vi) Gasoline and oil put into automobile.

(vii) Charge for preparing and conditioning for delivery.

(viii) A list of extra, special and optional equipment supplied by the seller and the maximum prices for each.

(4) Marine and war risk insurance.

(5) Landing, wharfage and terminal operations.

(6) Ocean freight.

(f) *When less than a complete automobile is sold.* Maximum prices under this section for sales at wholesale and retail are for new automobiles that are equipped at least with the customary functional and nonfunctional parts, and with the standard equipment filed with the Office of Price Administration by the manufacturers. If any customary functional or nonfunctional part or standard equipment is missing its retail price shall be deducted from the retail list price for the automobile with standard equipment that is included in the maximum price.

(g) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price at the time of delivery.

In addition, a person may deliver or agree to deliver at prices to be adjusted upward after delivery in accordance with action taken by the Office of Price Administration if the Office of Price Administration gives him an authorization to do so. This authorization may be given when a request for a maximum price under paragraph (d) is pending, and if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

The authorization may be given by the Administrator or by any other official of the Office of Price Administration having authority to act upon the pending request for a maximum price. This authorization will be given by order.

(h) *Notice to be posted.* Every dealer who sells new automobiles at retail shall post in a conspicuous place on his premises where new passenger automobiles are offered for sale, a notice not less than 18 inches by 24 inches in size, legibly stating all the following facts:

(1) The make and model of each new automobile offered for sale;

(2) The maximum price of each of the new automobiles as filed and approved by the Office of Price Administration.

(i) *Records and reports*—(1) *Records.* Every person subject to this section shall keep and make available for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records showing:

(i) The make and model of each new automobile offered for sale.

(ii) The net cost, f. o. b. factory.

(iii) All other charges included in the computation of the landed cost.

(iv) Charge for Federal Excise taxes.

(v) Charge for Territorial taxes.

(vi) Gasoline and oil put into automobile.

(vii) Charge for preparing and conditioning for delivery.

(viii) A list of extra, special and optional equipment supplied by the seller and the maximum prices for each.

(2) *Shop records.* The shop records showing repairs and replacements made in each used car traded in and the charges at retail under applicable maximum price regulations for such repairs and replacements.

(3) *Invoices.* Every person subject to this section shall furnish each purchaser with an invoice or receipt showing the name and address of the buyer and seller, the date of sale, the make and model of the automobile and the price charged or received.

(4) *Additional or substituted records and reports.* Every person subject to this section shall keep such records and submit such reports, including periodic financial statements, as the Office of Price Administration may from time to time require in writing, either in addition to or in substitution for records and reports required by this section, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this section. A seller's license may be suspended for violations of the license or one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of the suspension, make any sale for which his license has been suspended.

(k) *Evasion.* It shall be a violation of this section to charge a price above the applicable maximum price in connection with any sale of a new automobile, either alone or in conjunction with any other consideration even though the price increase appears only indirectly.

The following is an illustrative list of the things a reseller is not permitted to do. A reseller is not permitted to require the purchaser, as a condition of the sale or transfer of the new automobile, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts, or services so as to increase the total compensation above the new automobile maximum price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other vehicle, product or commodity. When there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the reseller to give the purchaser an allowance for the vehicle, product or commodity exchanged, transferred or traded in, which is less than its reasonable value.

Furthermore, the reseller is prohibited from providing for the purchase of the new automobile by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable maximum price at the time the rental contract is entered into, and from making the terms and conditions of sale more onerous to purchasers than they customarily have been except to the extent allowed by this section. However, the Office of Price Administration upon written request may grant permission to any dealer subject to this section to change his credit terms, where such change is necessitated by orders issued by, or at the request of, the U. S. Government.

It shall also be a violation for any person to charge, pay or receive a finder's fee or other compensation in connection with the procurement of a new automobile where the finder's fee or other compensation plus the purchase price for the new automobile exceeds the permitted maximum price.

(l) *Enforcement.* Persons violating any provision of this section are subject to the criminal penalties, civil enforcement actions, proceedings for suspension of licenses and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(m) *Definitions.* The terms and definitions thereof contained in section 23 of Maximum Price Regulation 594 are adopted and made a part of this section by reference except that all references in paragraph (d) of section 23, defining reasonable value of a used car traded in on a new automobile, to provisions and sections of Maximum Price Regulation 540 shall be deemed to be references to the pertinent and applicable provisions of section 57 of Revised Maximum Price Regulation 373.

This amendment shall become effective as of February 27, 1946.

NOTE: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of March, 1946.

Administrator.

PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Amdt. 5 to Supp. Service Reg. 49]

AUTOMOTIVE SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 1499.682 of Supp. Service Regulation No. 49 to RMPR 165 is amended in the following respect:

A new paragraph (i) is added to read as follows:

(i) The Office of Price Administration may by special order authorize sellers of automotive services to establish their maximum prices on the basis of a particular flat-rate manual or labor schedule privately published for the trade. No such order will be issued, however, unless it has been shown that there will be no increase in the general level of maximum prices, and that the use of the manual or schedule will result in more effective price control.

All orders issued pursuant to this section will provide in detail by whom and under what conditions the manual or schedule may be used and will further provide for adequate notice in a prominent place in the manual or schedule, stating the limitations upon its use in calculating maximum prices.

This amendment shall become effective April 1, 1946.

Issued this 26th day of March 1946.

PAUL A. PORTER,
Administrator.

[Rev. SO 119, Order 127]

ESMCO AUTO PRODUCTS CORP.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Esmco Auto Products Corporation, 33 34th Street, Brooklyn 32, New York, may compute its adjusted ceiling prices for all articles of its metal outdoor tables, metal bedside tables and metal ventilators which it manufactures, as follows:

(1) For its metal outdoor tables, metal bedside tables and metal ventilators in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 16 6 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188 and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590 shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under Maximum Price Regulation No. 188, or Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188, as the case may be.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 4800 under Maximum Price Regulation No. 188, or Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188, as the case may be.

If his supplier's invoice does not state an unadjusted maximum price, the seller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. If the maximum resale price cannot be determined under the above, the seller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Invoices to purchasers for resale.* Any person making a sale of an article covered by this order to a purchaser for resale at a maximum price adjusted under this order must furnish such purchaser with an invoice containing the information required by section 14 of Order No. 4800 under Maximum Price Regulation No. 188, or section 10 of Order No. 5 under § 1499.159e of Maximum Price Regulation No. 188, as the case may be.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective March 25, 1946.

Issued this 25th day of March, 1946.

PAUL A. PORTER,
Administrator.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 31 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) The maximum prices for sales by manufacturers of the product lines covered by this order shall be the maximum price in effect just prior to the issuance of this order increased by 4%.

(b) The provisions of this order apply to product lines which meet one of the following tests to show that the cost of steel for the line of products is normally in excess of 40% of the average selling prices for the line:

Test 1. Use the latest available profit and Loss Statement to cover at least a three months period for the division of the business producing the line of products. Determine the cost of steel covered by Amendment 15 to Revised Price Schedule No. 6 included in the cost of "direct material" and divide this figure by net sales. If the resulting percentage exceeds 40%, this test is met.

Test 2. Select the most representative item of the product line for which unit cost data is available (if accurate unit cost data is not available, this test may not be used), determine the cost of steel covered by Revised Price Schedule No. 6 included in the cost of "direct material" and divide the figure by the average net realized price of the item. If the resulting percentage exceeds 40%, this test is met.

(c) The maximum prices for sales by resellers of the products listed in paragraph (a) of this order shall be the maximum prices in effect just prior to the issuance of this order increased by the same percentage by which their net increased cost has been increased by reason of the provisions of this order.

[MPR 188, Order 2 Under Order 7]

TORO MANUFACTURING CORP.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph b of Order No. 7 under § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's ceiling prices.* Toro Manufacturing Corp., 3042 Snelling Avenue, Minneapolis 6, Minnesota, may compute its adjusted ceiling prices for all articles of Power lawn mowers which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 18.38 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

Whereas on April 18, 1942, title to the vessel "Coventry" (ex-Wilhelmina, ex-Hwah Jang, ex-Skarass) (including all spare parts, appurtenances and equipment) was requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended; and

Whereas section 3 (b) of the act approved March 24, 1943 (Public Law 17, 78th Congress), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, or just compensation therefor, that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, or the act of June 6, 1941 (Public Law 101, Seventy-seventh Congress)), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking: *Provided however*, That no such determination shall be made with respect to any vessel after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner. • • •

and

Whereas no portion of just compensation for the said vessel has been paid or deposited with the Treasurer of the United States; and

Whereas the ownership of the said vessel, spare parts, appurtenances and equipment is not required by the United States; and

Whereas the former owner of the vessel has consented to this determination and to the return of the vessel and the conversion of the requisition of title therein to a requisition of use thereof in accordance with the above-quoted provision of law;

Now therefore, I, Granville Conway, Acting Administrator, War Shipping Administration, acting pursuant to the above-quoted provisions of law, do hereby determine that the ownership of said vessel, spare parts, appurtenances and equipment is not required by the United States, and that, from and after the date of publication hereof in the FEDERAL REGISTER, the use rather than title thereto shall be deemed to have been requisitioned, for all purposes, as of the date of the original taking.

PART 295—DISPOSAL OF SURPLUS AGRICULTURAL COMMODITIES FOR EXPORT

SUPPLEMENTAL ANNOUNCEMENT TO TERMS AND CONDITIONS OF COTTON SALES FOR EXPORT PROGRAM

Commodity Credit Corporation is amending its Cotton Sales for Export Program to make certain changes in the method of handling freight bills and in the paragraph on consignments. Accordingly, the "Terms and Conditions of Cotton Sales for Export Program" is amended in the following respects:

1. Section 295.25 is amended to read as follows:

§ 295.5 *Freight bills.* The exporter shall, within six months after receipt of warehouse receipts representing cotton purchased from Commodity Credit Corporation's stocks:

(a) Purchase the freight bills held by the Corporation covering the bales of such cotton which were shipped by rail to the warehouses issuing the warehouse receipts at their refund value based on reshipment of such bales to Greenville, South Carolina, as representative of Group B points, or, if such cotton is stored at Group A or Group B points and is reshipped, based on the destination to which such cotton is actually reshipped; or

(b) If such cotton is not stored at a port when sold to the exporter, furnish the Corporation with outbound bills of lading, acquired in the shipping of such cotton via the railroad line designated by the Corporation; or

(c) If such cotton is stored at a port when sold to the exporter, furnish the Corporation with a copy of the ocean bill of lading (or if the cotton is exported from another port, a copy of the railroad bill of lading, a copy of the tag list, and a copy of the ocean bill of lading) evidencing exportation of the identical cotton;

otherwise, the exporter shall purchase the freight bills by honoring a three-day sight draft, with the freight bills held by the Corporation attached, for the amount specified in paragraph (a) of this section.

This amended § 295.25 is applicable to freight bills on all cotton purchased from Commodity Credit Corporation on and after the date of publication of this announcement in the FEDERAL REGISTER.

2. Section 295.26 is amended by the addition of the following paragraph (g):

(g) *Purchase and resale of exporter's cotton.* If the Corporation so elects, it may refuse to sell to the exporter a quantity of cotton equal to that listed on the approved declaration, and, in such case, the exporter shall be eligible to sell to the Corporation and immediately repurchase from it that quantity of the cotton exported in fulfillment of the declaration which is in excess of the cotton purchased from the Corporation's stocks against the declaration (in lieu of purchasing an equal quantity of cotton from the Corporation's stocks), subject to the following terms and conditions:

(1) Such purchase and resale shall be deemed to have been made immediately prior to the exportation of such quantity of cotton.

(2) The price at which such quantity of cotton is purchased by the Corporation shall exceed the resale price to the exporter by an amount per pound equal to the export differential announced by the Corporation and in effect at the time the Corporation approves the declaration.

(3) The exporter must have submitted to the Corporation satisfactory evidence that such quantity of cotton was exported by the exporter prior to January 1, 1947, and not later than 90 days after the date the Corporation approved the declaration.

(4) The purchase and resale shall be based on the unpatched gross weight of such quantity of cotton.

(5) The exporter must have filed Purchase Orders or Purchase Requests with respect to such quantity of cotton with the Corporation not later than 90 days after the date the Corporation approved the declaration.

(6) The exporter must have submitted to the Corporation, within 90 days after the date of exportation of such quantity of cotton, an application for such payment on the voucher form specified by the Corporation.

(a) "Chief" means the Chief of the Forest Service.

(b) "Regional Forester" means a Regional Forester of the Forest Service.

(c) "Administration" means the Public Roads Administration of the Federal Works Agency.

(d) "Forest development roads and trails" means those roads and trails wholly or partly within or adjacent to and serving the national forests of primary importance for the protection, administration and utilization of the national forests, or when necessary for the use and development of the resources upon which communities within or adjacent to the national forests are dependent, which are known and designated as forest development roads and trails in the Forest Development Transportation Plan.

(e) "Forest road development fund" means those funds authorized or appropriated for the purpose of carrying out the provisions of section 23 of the Federal Highway Act (42 Stat. 218, 23 U.S.C. 23) with respect to forest development roads and trails.

(g) "Maintenance" means ordinary repairs and the preserving of a reasonably smooth surface, considering the type of road.

§ 201.2 *Apportionment.* The Chief shall, on or before January 1 of each year, have prepared a tabulation for the distribution of the Forest Road Development Fund authorized for the next succeeding fiscal year for expenditure within the several States, Alaska and Puerto Rico, according to the relative needs of the various national forests, taking into consideration the existing transportation facilities, value of timber or other resources served, relative fire danger and comparative difficulties of road and train construction. This tabulation, when approved by the Secretary of Agriculture, shall constitute the apportionment of the Forest Road Development Fund.

§ 201.3 *Forest road development systems and programs.* (a) The forest road development system, as now approved for each State, shall be added to or revised as the Chief shall prescribe.

§ 201.5 *Surveys, construction and maintenance.* (a) The survey, construction and maintenance of all forest development roads and trails shall be performed by the Forest Service or let to contract unless otherwise approved by the Chief. The contract method will be employed as provided by paragraph (d), section 23, of the Federal Highway Act (42 Stat. 218; 23 U.S.C. 23) and in all other cases where advantageous in the interest of the Government. The Chief may request the assistance of the Administration whenever he considers it desirable and will request the Administration to supervise work of such difficulty as to require the services of a technical highway engineering organization.

(b) Construction work on a project to be prosecuted under the supervision of the Administration shall not be commenced until a location survey, plans, specifications and cost estimates have been made or approved by the Administration and have been approved by the Regional Forester and the cooperator, if any. No construction obligations are to be incurred or construction started until the necessary right-of-way has been secured and a cooperative agreement, if one is to be approved, has been executed.

(d) As soon as practicable after the end of each fiscal year the Regional Foresters shall submit a report to the Chief showing the work accomplished in each State on forest development roads and trails and the disbursements made therefor. For the purpose of this report the Administration shall be requested to furnish to the Forest Service information regarding the work accomplished on all forest development roads under the direction of the Administration.

(e) The Chief shall be responsible for maintaining an accurate fiscal record of the status of the Forest Road Development Fund and all expenditures and allotments thereunder.

(f) Cooperative funds contributed by cooperators shall be deposited in the United States Treasury to the credit of the Forest Service Cooperative Fund authorized by the act of June 30, 1914 (38 Stat. 430; 16 U.S.C. 498), which deposits will be made available for expenditure from the appropriation "Cooperative Work, Forest Service" and shall be audited, disbursed and recorded in the same manner as funds under the Federal Highway Act. Cooperative expenditures made by cooperators shall be audited and disbursed as provided in the cooperative agreements.

(g) For work to be accomplished by the Administration payable from the appropriation "Cooperative Work, Forest Service", funds will be transferred to the Administration as a working fund under the provisions of section 601 of the act of June 30, 1932 (47 Stat. 417; 31 U.S.C. 686).

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-47, as Amended Mar. 26, 1946]

BURLAP AND OTHER JUTE GOODS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of burlap for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.256 *Conservation Order M-47*—(a) *What this order does.* This order contains restrictions on the sale, purchase and use of burlap produced in India. The order states the quantities of burlap which may be obtained for the manufacture of bags and for other purposes. It does not restrict the purchase or receipts of burlap by importers, and Order M-63 no longer controls such purchases or receipts, but this order requires that importers of burlap and other jute goods file reports. Other orders and regulations of the Civilian Production Administration contain provisions affecting burlap, in particular M-221 which restricts the manufacture and use of new burlap bags.

(b) *Kind of burlap covered by this order.* The restrictions of this order apply only to burlap cloth produced in India, plain woven of single yarns of jute, 32 inches or more wide and weighing more than 6 and not more than 16 ounces a yard of cloth 40 inches wide, but not including brattice cloth, linoleum cloth, damaged burlap which is not suitable for the purposes for which it was intended or processed items made from burlap cloth. Whenever the word "burlap" is used in this order, it means only this kind of cloth. This order places no restrictions on buying, selling or using processed items made from burlap cloth.

(c) *Buying and selling burlap.* No person shall buy or sell burlap unless the purchase order bears the certificate specified in paragraph (i).

(d) *Disposition of stockpiled burlap.* The Reconstruction Finance Corporation may sell burlap only to fill orders from bag manufacturers as provided in paragraph (c) except that the Civilian Production Administration may from time to time allocate the supply of stockpiled burlap and specifically direct the quantities, time and manner in which the Reconstruction Finance Corporation may make deliveries. The Civilian Production Administration may also direct or prohibit particular uses of burlap.

(e) *Burlap for the manufacture of bags*—(1) *Purchases of burlap other than stockpiled burlap.* Bag manufacturers may buy any quantity of burlap for use in making bags from persons other than the Reconstruction Finance Corporation or its authorized representatives on orders bearing the certificate specified in paragraph (i).

(2) *Purchase of stockpiled burlap by holders of burlap allocation certificates or other CPA burlap authorizations.* A bag manufacturer may buy burlap from the Reconstruction Finance Corporation to be used in the manufacture of bags in accordance with the following rules:

(i) If he received a sequence 17 burlap allocation certificate, he may buy for delivery in the first quarter of 1946 up to 122.5% of the quantity specified in his sequence 17 certificate, or 100 bales, whichever is greater, and for delivery in any subsequent calendar quarter up to 20% of the quantity specified in his sequence 17 certificate, or one carload, whichever is greater.

(ii) If he received a sequence 18 burlap allocation certificate, but no sequence 17 certificate, he may buy for delivery in the first quarter of 1946 up to 122.5% of the quantity specified in his sequence 18 certificate, or 100 bales, whichever is greater, and for delivery in any subsequent calendar quarter up to 20% of the quantity specified in his sequence 18 certificate, or one carload, whichever is greater.

(iii) If he received a specific authorization from CPA for delivery in the first quarter of 1946, he may buy up to the amount specified. He may buy for delivery in any subsequent calendar quarter up to 20% of the amount specified in his authorization, or one carload, whichever is greater.

(3) *Bag manufacturers without certificates or other CPA burlap authorizations.* A manufacturer who did not receive a burlap allocation certificate or who has not received a CPA authorization under this order, may apply to the Civilian Production Administration for authorization to purchase from the Reconstruction Finance Corporation burlap for making bags. The application may be filed by letter stating the amount of burlap desired and should include a statement of the facilities available for the manufacture of textile bags, under the provisions of Order M-221. Authorizations will be granted on an equitable basis in view of the allocations given to other manufacturers.

(4) [Deleted Mar. 26, 1946.]

(5) [Deleted Mar. 26, 1946.]

(f) *Burlap for purposes other than the manufacture of bags*—(1) *Former users.* Any person, including a bag manufacturer, wanting burlap to use for a purpose other than to make bags (including a manufacturer of processed items other than bags which he will sell to others) may buy for delivery in any calendar month up to one-fortieth of the total quantity of burlap in bales used by him for all manufacturing purposes other than bag-making, in 1939 and 1940 or 5 bales whichever is greater.

(2) *New users.* Any person, including a bag manufacturer, wanting burlap to use for manufacturing purposes other than bag-making, but who did not use burlap for non-bag-making purposes in both 1939 and 1940, may buy not more than 5 bales of burlap a month for such purposes; if he wants to buy more than 5 bales of burlap a month, he may apply for an authorization by sending a letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: M-47. The letter should state the amount of burlap needed, the purpose for which it will be used, and the number of yards of burlap that the applicant is equipped to use in a month. Authorizations will be granted on an equitable basis in view of the allocations given to other manufacturers.

(3) *Acceptance of carload deliveries.* If a person is authorized under this paragraph (f) to buy in one month half a carload of burlap or more, but less than a full carload, he may buy a full carload, if his inventory before the delivery does not exceed a 30-day supply at his current or scheduled method and rate of operation.

(4) [Deleted Mar. 26, 1946.]

(g) *Dealers*—(1) *Purchases to fill orders already received.* Any person may buy burlap to fill orders already placed with him for bag making and other manufacturing purposes and bearing the certificate specified in paragraph (i), in addition to the quantities which he may buy under paragraphs (e) and (f).

(2) *Purchases of burlap to be held for resale.* Any person may buy burlap to be held for resale for bag making and other manufacturing purposes if the purchaser places on his purchase order the certificate specified in paragraph (i). Burlap may be bought under this paragraph in addition to the quantities which may be bought under paragraphs (e) and (f). However, no person may take delivery of burlap to be held for resale which will cause his inventory of burlap for resale to exceed 5 bales.

(3) [Deleted Mar. 26, 1946.]

(h) *Frozen burlap.* A person holding intact bales of burlap on December 11, 1945, which were not acquired under a burlap allocation certificate or an order bearing a preference rating may not sell or use the burlap except as permitted below:

(1) He may sell it to fill purchase orders bearing the certificate specified in paragraph (i) below.

(2) He may use it only in the quantity and for a purpose for which he is authorized to buy burlap under this order. If he does so, he must reduce the amount he may buy for delivery in any period by the amount of frozen burlap he uses in that period.

(i) *Certificate.* (1) Any person who places a purchase order for burlap must place on the purchase order the following certificate, signed manually or as provided in Priorities Regulation 7:

The undersigned purchaser hereby certifies that he is familiar with Conservation Order M-47 as amended and that the burlap covered by this purchase order is being acquired in accordance with paragraph ( ) ( ) of Order M-47 and that the burlap so acquired will be used as provided in that paragraph.

Name of purchaser

By ---
(Duly authorized officer)

The purchaser should insert after the word "paragraph" in the certificate the identifying letter and number of the paragraph under which he is authorized to buy the burlap he is ordering. The standard certificate set forth in Priorities Regulation 7 may not be used instead of this certificate.

(2) A person who has placed the certificate given above on a purchase order must not use the burlap received under the purchase order except for the purpose indicated in the paragraph stated.

(j) *Inventory restrictions.* No person may accept delivery of burlap if his inventory of burlap is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation.

NOTE: Paragraphs (k) to (p), inclusive, formerly (j) to (o), inclusive, redesignated Mar. 26, 1946.

(k) *Reports.* (1) Any person importing any type of jute goods from India other than surplus sand-bags or sheets shall report monthly on Form CPA-4388, beginning with February 1946.

(2) The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(l) *Saving clause.* Quotas, certificates, directions, allocations and authorizations issued under this order before any amendment of it remain in effect after the amendment unless specifically revoked or amended.

(m) *Appeals.* An appeal from the provisions of this order may be made by sending a letter in triplicate to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: M-47, referring to the specific provisions from which relief is requested and stating fully the reasons for the appeal.

(n) *Applicability of regulations.* This order and all transactions affected by it are subject to all applicable regulations of the Civilian Production Administration.

(o) *Communications.* All communications concerning this order should be addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref: M-47.

(p) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 1305—ADMINISTRATION

[SO 153]

ADJUSTMENTS AT WHOLESALE AND RETAIL WHERE SUPPLIERS HAVE RECEIVED INDIVIDUAL ADJUSTMENTS

A statement of the considerations involved in the issuance of this Order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

SECTION 1. *Scope of this order.* (a) This order tells retailers and wholesalers when and how they may increase their ceiling prices for an article resold by them when OPA has allowed an individual adjustment, increasing the ceiling price of the particular manufacturer who made the article. Before you are authorized to increase your price under this order you must obtain a statement from your supplier showing that the manufacturer has received an individual increase and giving the percentage of the increase. (The word "you" in this order refers to any wholesaler or retailer affected by it.)

This order deals only with individual adjustments.[1] It does not allow you to increase your price when OPA has permitted a general price increase for the manufacturers of a particular product (even though the general increase may result in varying amounts of increases as between manufacturers).

For example: This order does not allow you to increase your ceiling price because of an adjustment allowed manufacturers of cotton products under the so-called "Bankhead Amendment," or because of an industry-wide increase allowed manufacturers of aluminum utensils under OPA reconversion price policy.

Even though manufacturers may have been allowed an individual adjustment, OPA may specifically provide that this order is not to apply to your sales of that manufacturer's product. This will be done in several kinds of cases. For example, the individual adjustment may be part of a general program to increase all manufacturers' ceiling prices for a particular product because such increases are required by law. Again, wholesale and retail margins may be already so expanded or so large in dollars-and-cents terms that an increase under the provisions of this order is not warranted. In such a case the order allowing the manufacturer the individual adjustment will specifically provide that this supplementary order is not to apply to your sales of the article and will make appropriate provisions for notifying you what change, if any, you may make in your ceiling prices.

(b) This order applies only to adjustments allowed after April 1, 1946.

SEC. 2. *Commodities and adjustment provisions not covered by this supplementary order.* This supplementary order does not cover any article of food, grains and cereals, seeds, feeds, tobacco, and tobacco products, beverages, agricultural chemicals and insecticides, petroleum and petroleum products, or solid fuels or any building materials. It does not apply to any adjustments allowed under Supplementary Order 128 (lumber) or Supplementary Order 142 (machinery).

SEC. 3. *What manufacturer adjustments may be used as a basis for increasing your ceiling prices and how you may increase your ceiling price under this order.* (a) Under certain regulations and orders manufacturers may apply for and receive individual adjustments in their ceiling prices. If you are a wholesaler or a retailer you may increase your own ceiling price for an article by the percentage of the individual adjustments given to the manufacturer, *Provided:*

(1) You have received from your supplier a notice stating that the OPA has allowed the manufacturer an individual increase and giving the percentage of the manufacturer's individual increase: *and provided*

(2) Your ceiling price at the time the manufacturer receives an individual adjustment is fixed under the General Maximum Price Regulation, Maximum Price Regulation 210 (Retail and Wholesale prices for fall and winter seasonal commodities), or Maximum Price Regulation 142 (Retail prices for summer seasonal commodities).

Example: A manufacturer's price for an article used to be $1.00. He was allowed to increase his ceiling price by 10% to $1.10. The manufacturer's notice states that his allowable individual increase is 10%. A wholesaler whose ceiling price for that article when bought from that manufacturer was $1.33 under the General Maximum Price Regulation may now increase his price by 10% to $1.46 ($1.33×.10=$.13; $1.33+.13=$1.46). A retailer, whose ceiling price for the same article was $1.80 under the General Maximum Price Regulation may increase his ceiling price by 10% to $1.98 ($1.80×.10=$.18; $1.80+$.18=$1.98).

(b) *Exceptions.* (1) You may increase your ceiling price under this section for an individual adjustment granted your supplier only if you have not included that individual adjustment in a recalculation of your price under the expense rate formula contained in Supplementary Order 145.

(2) No increase may be made in a dollar-and-cents maximum price fixed in any of these regulations or the supplements thereto (or where the OPA has required the ceiling prices to be preticketed).

SEC. 4. *Records.* In addition to the records which each wholesaler and retailer is required to keep under the regulations governing his sales, he must have and keep for inspection for so long as the Emergency Price Control Act of 1942, as amended, remains in effect (a) all invoices or notices showing any individual increases allowed his suppliers on the basis of which he increased his own ceiling prices and (b) a record showing how he computed the increase in his ceiling prices.

This order shall become effective April 1, 1946.

NOTE: The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Issued this 27th day of March, 1946.

Administrator.

[1] The rules governing adjustments to offset general increases granted manufacturers will be contained in other OPA orders (such as Supplementary Order 145).

SECTION 1. *Maximum prices for paperboard.* Regardless of the terms of any contract of sale or purchase, or other commitment:

(a) No producer and no agent or representative of a producer, shall sell, offer to sell, deliver, or transfer any grade of paperboard at prices higher than the appropriate maximum prices established by Appendices A, B, C and D. Transfers of paperboard by an integrated or combined operator to a converting plant owned, controlled or operated by such operator shall be made at prices not in excess of the maximum prices established herein.

(b) No person shall buy, offer to buy, or accept delivery of any grade of paperboard from a producer, or agent or representative of a producer at prices higher than the appropriate maximum prices established by Appendices A, B, C and D.

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 2. *Less than maximum prices.* Lower prices than those set forth in Appendices A, B, C and D may, however, be charged, demanded, paid, or offered.

SEC. 3. *Evasion.* The price limitations set forth in this regulation shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of paperboard, alone or in conjunction with any other material or by way of any commission, service, transportation or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

SEC. 4. *Prohibited practices.* (a) No person who purchases paperboard for which maximum prices are established by this price schedule shall pay or offer to pay any person a broker's commission, finder's fee or any other charge for any service rendered in obtaining or acquiring paperboard.

(b) Nothing in this regulation shall prohibit any person from purchasing raw materials and having them converted into paperboard. However, in no case may the total payment for raw materials and conversion exceed the maximum price established in this regulation for the finished paperboard.

SEC. 5. *Records and reports.* (a) Every person making sales aggregating 10 tons or more of any or all grades of paperboard in any one month shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, accurate records of each sale of paperboard made during such month and each month thereafter, showing the date thereof, the name and address of the purchaser, the prices received, and the quantity and grade or grades so sold.

(b) Such persons shall submit such reports to the Office of Price Administration and shall keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(c) Every producer selling paperboard for which maximum prices are established by this price schedule shall preserve for examination by the Office of Price Administration for so long as the Price Control Act of 1942, as amended, shall remain in effect all his existing records relating to the prices which he charged for such paperboard and specialty paperboard as he sold or contracted to be sold at a definite price during the period of October 1, 1940 to October 15, 1941, inclusive.

(d) Every seller of paperboard subject to this regulation shall (within 10 days of shipment) render an invoice to the purchaser thereof and shall retain a copy. Each such invoice shall state: the name and address of the seller, the buyer and the consignee if other than the buyer; the f. o. b. point; the price charged per unit of sale; the quantity sold; detailed specifications of the commodity including the name of the item as specified in this regulation or its trade name if sold under Appendices A, B, C or D; count or ream weight, basis weight, caliper and test. Any transportation charge or allowance shall be separately stated.

SEC. 6. *Application to import transactions and sales for export*—(a) *Imports.* This regulation applies to transactions in commodities to be imported into the United States.

(b) *Sales for export.* The maximum price at which a producer may sell or deliver paperboard for export shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued by the Office of Price Administration.

SEC. 7. *Applicability.* The provisions of this regulation shall be applicable within the continental limits of the United States and the District of Columbia.

SEC. 8. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 9. *Licensing.* The provisions of Licensing Order No. 1,[1] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A sellers license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 10. *Petitions for amendment and applications for adjustment.* (a) Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[2] issued by the Office of Price Administration.

(b) (1) The Office of Price Administration may adjust the maximum price established herein for a seller of a com-

modity, if it finds that such maximum price subjects him to substantial hardship, and that either (i) the particular commodity is essential to the civilian economy, or (ii) loss of the seller's production of the commodity will force his customers to resort to higher priced or inadequate sources of supply. The amount of adjustment which may be granted will in no case exceed an amount deemed reasonably necessary to insure the applicant's continued production of the commodity in question, in the light of the applicant's costs of production and his overall financial condition.

(2) *Form of application for adjustment.* Applications for adjustment shall be filed in accordance with Article III of Revised Procedural Regulation No. 1, with the Office of Price Administration, Washington 25, D. C. In addition the applicant shall set forth the following data:

(i) Statement of the applicant's maximum price, the section of this regulation under which such price is determined, and the proposed adjusted maximum price.

(ii) Statement as to the length of time the applicant has been producing the commodity, and the actual production in tons per month for the last six months, preceding the date of filing of the application.

(iii) Where the applicant has been producing the commodity, a record of the applicant's actual costs involved in the manufacture and sale of the commodity is to be given in full detail on Form 6084–2730 in accordance with the instructions on that form. These costs are to be given for the total production during each of the last two quarterly accounting periods, by which is meant the average actual costs for all the tons of the commodity produced during each period. Costs on only one of several runs during each period will not be sufficient for this purpose.

If the applicant has not been producing the commodity during the preceding six months, an estimate of costs for the month following the date of the application is to be given on forms to be supplied by the Office of Price Administration.

A sample of the commodity (size 8½" x 11") is to be filed with these forms, which may be obtained from the Office of Price Administration, Washington 25, D. C.

(iv) Statement of the seller's over-all financial condition, including the information required by OPA Form A (Annual Financial Report) for the fiscal year next preceding the filing of the application, and the information required by OPA Form B (Interim Financial Report) for each quarterly period subsequent to the period covered by the A report: *Provided*, That for cause shown this latter requirement may be waived in whole or in part at the discretion of the Administrator. OPA Forms A and B need not be submitted with the application if they or comparable data for the required periods have already been submitted.

(v) A complete statement of the reasons why the applicant believes that he will be unable to maintain his production of the commodity at his established maximum price.

SEC. 11. *Adjustable pricing.* Any person may offer or agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery except as otherwise permitted in this regulation. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorizations has been delegated. The authorization will be given by order, telegram or letter.

SEC. 12. *Applicability of this regulation to the maximum prices of West Coast manufacturers formerly operating under the General Maximum Price Regulation.* Maximum prices for paperboard established by individual adjustments under the General Maximum Price Regulation shall not be reduced as a result of the extension of coverage of this regulation to the continental United States.

(d) *Additional differentials.* (1) Applying to paragraphs (a) or (b) only:

	Per ton[2]
Regular 35's to 39's	+$5.00
Regular 40's to 49's	+2.50

Pasting 15's and lighter	+7.50
Pasting 14's to ½" thick	+12.50

(e) *Exception to quantity differentials.* When a single purchaser places an order, for delivery at one time, for paperboard of one grade, color, type, weight, caliper and finish, and where the sizes ordered are combined to fill the trim of the seller's papermaking machine and can be made simultaneously without a change in the slitter or chopper knives as the paperboard leaves the machine, then the combined weight of such sizes shall be considered as the quantity of an item for the application of quantity differentials. A combination of sizes which when combined are within 3% of the full trim of the papermaking machine shall be considered an acceptable trim of such machine when applying this exception to quantity differentials.

(1) The quantity differentials established in Appendix A are designed to compensate, in whole or in part, for the extra costs involved in handling and manufacturing small orders of paperboard. These quantity differentials apply on the quantity ordered for delivery at one time (see definition of item, and exception to quantity differentials). While this regulation does not require any manufacturer to sell any person any specific quantity of paperboard, it is considered an indirect violation of this regulation for the manufacturer to demand (directly, or by threat of refusal to supply) that the customer place several orders of small quantities, rather than to accept one or more orders of larger quantities, solely for the purpose of receiving the additional income from these quantity differentials—that is, six 2 ton orders, or four 3 ton orders, rather than one 12 ton order as the customer desires to place.

(f) *Trimming.* For trimming sheets, to secure clean edges and or more accurate measurements, add $1.00 per ton for each side trimmed. (This charge does not apply when merely cutting two or more sheets from one larger sheet.)

(g) *Special size, special white, special color, special sizing, special test, or other special characteristics or requirements.* The prices and differentials set forth in paragraphs (a), (b), (c) and (d) of this section cover the types of paperboard described therein, or slight variations from these specified qualities. For special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, involving a difference in cost, the maximum price shall be determined by adding to, or subtracting from, the maximum price, as established by paragraphs (a), (b), (c) and (d) of this section for the particular type of paperboard involved, a differential therefor as follows:

(1) For items sold or contracted to be sold at a definite price by the producer during the period of October 1, 1940 to October 15, 1941, inclusive, the differential shall be the differential applied during such period to the base price of such paperboard of comparable quality and quantity, for the special sizes, special whites, special colors, special sizing, special tests, or other special characteristics or requirements, if not otherwise specifically provided for in this section.

(2) For items not sold or contracted to be sold at a definite price by the producer during such period, the differential shall be the list or written offering price effective during such period for such differential. If no list or written offering price for such differential was in effect during such period, an application for approval of a differential shall be made to the Price Administrator, Washington 25, D. C. on OPA forms within 10 days after the item has been produced. When submitting such differential to the Price Administrator for approval, the application shall contain complete price and cost data in the manner and form required by the Price Administrator on one or more comparable items described in this section and sold or contracted to be sold at a definite price by the producer during such period: *Provided, however,* That orders may be accepted and invoices issued at the proposed differential subject to approval, disapproval or adjustment by letter. A notation to the effect that the proposed differential is subject to adjustment or modification by the Office of Price Administration and that any excess monies will be refunded must be made on all quotations, orders and invoices of the particular quality involved until the differential is approved or adjusted. For special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, involving a difference in cost, the maximum price shall be determined by adding to, or subtracting from, the maximum price, as established by paragraphs (a), (b), (c), (d), (e) and (f) of this section for the particular type of paperboard involved, a differential therefore as follows:

(1) For items sold or contracted to be sold at a definite price by the producer during the period of October 1, 1940 to October 15, 1941, inclusive, the differential shall be the differential applied during such period to the base price of such paperboard of comparable quality and quantity, for the special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, if not otherwise specifically provided for in this section.

(2) For items not sold or contracted to be sold at a definite price by the producer during such period, the differential shall be the list or written offering price effective during such period for such differential. If no list or written offering price for such differential was in effect during such period, an application for approval of a differential shall be made to the Price Administrator, Washington 25, D. C. on OPA forms within 10 days after the item has been produced. When submitting such differential to the Price Administrator for approval, the application shall contain complete price and cost data in the manner and form required by the Price Administrator on one or more comparable items described in this section and sold or contracted to be sold at a definite price by the producer during such period: *Provided, however,* That orders may be accepted and invoices issued at the proposed differential subject to approval, disapproval, or adjustment by letter. A notation to the effect that the proposed differential is subject to adjustment or modification by the Office of Price Administration and that any excess monies will be refunded must be made on all quotations, orders and invoices of the particular quality involved until the differential is approved or adjusted. The differentials established by a producer under the provisions of this paragraph shall apply only to that producer and may not be used by any other producer without the specific authorization of the Price Administrator.

(h) *Delivered prices.* All of the above maximum prices are for the respective grades or tonnages delivered to the purchaser's plant actually using the paperboard. The maximum prices set forth in this Appendix shall include all transportation costs involved except as provided in paragraph (i) below, regardless of whether such transportation costs are paid by the seller, by the purchaser, or prorated between purchaser and seller. Billing may be f. o. b. point of shipment with freight allowed.

(i) *Added freight adjustments for long hauls.* (1) If the total transportation cost involved in the shipment of Fourdrinier Kraft liners, Cylinder Kraft liners, and Kraft corrugating material, provided such liner or corrugating material is made in the United States from at least 70% virgin Kraft coniferous wood pulp, exceeds $10.00 per ton, the maximum prices set forth in this Appendix may be increased by a sum per ton not in excess of the difference between $10.00 and the total transportation cost involved per ton.

(2) If the total transportation cost involved in the shipment of corrugating material or liners listed in this appendix imported from Canada or Newfoundland exceeds $12.00 per ton, the maximum prices set forth in this appendix may be increased by a sum per ton not in excess of the difference between $12.00 and the total transportation cost involved per ton.

(3) If the total transportation cost involved in the shipment of all other types of paperboard listed in this Appendix, except those provided for in subparagraphs (1) and (2) hereof, exceeds $6.00 per ton, the maximum prices set forth in this Appendix may be increased by a sum per ton not in excess of the difference between $6.00 and the total transportation cost involved per ton. Total transportation cost as used in this subparagraph (3) means transportation cost involved in shipment within the United States.

(j) A maximum variation of 5% is allowed in the specified basis weights of Fourdrinier Kraft Linerboards specifically listed in this section.

(k) Where the maximum price of paperboard is on a per M square foot basis, the square footage to be invoiced is to be determined by one of the following procedures:

NOTE: Paperboard on which the maximum price, as covered by this Appendix, is on a per M square foot basis may not be invoiced at a price per ton.

(1) The paperboard in each roll is measured mechanically as it is wound to secure the lineal footage in such roll. This figure multiplied by the width of the roll (in decimals of a foot-to-two-places, e. g., 50 inch width equals 4.17 foot) results in the square footage to be invoiced.

(2) A sample is taken from each roll and cut accurately to size 12" x 12" square (1 square foot). The accurate weight of this sample (secured by weighing on a balance scale) multiplied by 1,000 results in the weight per thousand square feet for that roll. The simple arithmetical average of these weights, from the samples of the rolls in the shipment, divided into the total weight of the shipment results in the square footage to be invoiced. Each truckload or carload of paperboard is to be considered individually as a shipment when determining the square footage to be invoiced.

C., not later than 30 days after the item has been produced. FEDERAL POWER COMMISSION.

[Docket No. G-701]

TENNESSEE GAS AND TRANSMISSION CO.

NOTICE OF AMENDMENT TO APPLICATION

MARCH 25, 1946.

Notice is hereby given that Tennessee Gas and Transmission Company (hereinafter referred to as the "Applicant" or "Tennessee Company"), a Tennessee corporation with its principal place of business at Houston, Texas, filed on March 18, 1946, an amendment to its application, filed February 11, 1946, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, seeking by the amended application authorization to construct and operate certain main pipe line looping, certain lateral gas feeder lines from its main line to the producing fields, and additional compressor station facilities, hereinafter more particularly described, which, if constructed, are estimated to increase the designed capacity of Applicant's existing pipe line system from approximately 264,000 Mcf to a total designed delivery capacity of approximately 381,000 Mcf per day.

Notice of the filing by the Tennessee Company, on February 11, 1946, of the original application in this matter was published in the FEDERAL REGISTER on February 26, 1946, Volume 11, page 1994, providing for the filing of any protest or petition to intervene in opposition to the application by not later than March 15, 1946.

Applicant's existing natural gas transportation system and the facilities which the Tennessee Company seeks authorization to construct and operate, as proposed in the original application, were described in the original notice published on February 26, 1946. In addition to the facilities there proposed and described, the Tennessee Company, in its amendment of March 18, 1946, proposes to construct at least two lateral gas feeder lines from its main line to the producing fields, the first such lateral being 6.3 miles of 10¾-inch O. D. by ¼-inch gathering line from Applicant's main line to Tom O'Connor field, Refugio County, Texas, and the second lateral being 7.95 mile of 12¾-inch O. D. by ¼-inch gathering line from Applicant's main line to Heyser field, Victoria County, Texas.

The Tennessee Company, in its amended application, says it expects to supply a portion of the proposed additional market from additional and newly dedicated reserves of The Chicago Corporation in fields other than the Stratton-Agua Dulce, Carthage and San Salvador fields in the State of Texas. Applicant has notified The Chicago Corporation of the proposed increase in its requirements for gas and is now negotiating with The Chicago Corporation with respect to supplying a portion of such increased requirements. Applicant expects to obtain such portion of the additional gas required as is not supplied by The Chicago Corporation from reserves available to Applicant under existing contracts with other producers, and also from reserves under contracts which are now being negotiated and which may be negotiated with such other producers.

Applicant has entered into other new gas purchase contracts, and now has dedicated gas reserves in the Agua Dulce, Riverside-O'Neil, Ragsdale, Placedo, Nada, Orange Hill, Lissie, East Bernard, Josey Ranch and Sarco Creek fields. These agreements involve small gas fields, but in the aggregate make available a new source of supply to Applicant's system.

In addition to the above-mentioned sources, Applicant is now negotiating for casinghead gas or waste gas which is being produced in the Seelingson, Tom O'Connor, Heyser and Katy fields to the total extent of approximately 87,000 Mcf per day, which is 74 per cent of the increase in capacity to Applicant's system herein proposed. Tennessee Gas and Transmission Company believes that the utilization of casinghead gas now being wasted is definitely in the public interest and a benefit to sound conservation practices in the gas-producing areas.

Any interested State commission is requested to notify the Federal Power Commission whether it considers the application, as amended, one which should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application, as amended, of the Tennessee Company should, on or before the 5th day of April 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

(e) This order shall not apply to services subject to the jurisdiction of the Interstate Commerce Commission or the Public Service Commission of the State of New York and for which maximum rates have been established or are otherwise directly regulated by those Commissions.

The new Common Shares are to have full voting rights and pre-emptive rights.

The Association will offer for simultaneous sale at competitive bidding the following:

(a) $22,500,000 principal amount of its new 20 year Sinking Fund Collateral Trust Bonds, plus

(b) Sufficient shares of new Common out of the original issue of 2,300,000 shares to supply $11,500,000,

and will apply the proceeds of such sale (other than any premium on the new Bonds) together with funds in its treasury to the retirement, at par and accrued interest, of the Debentures of the Association now outstanding.

Eighty-four and one-half per cent of the Common Shares remaining after the sale of the number necessary to provide $11,500,000 are to be allocated to the holders of the presently outstanding 95,847 $5.50 Dividend Series Preferred Shares (including the 23,744 shares held by NY PA NJ Utilities Company and Associated Utilities Corporation), subject to the limitation that the maximum number of new Common Shares which may be distributed with respect to each $5.50 Dividend Series Preferred Share will be limited to that number of shares, calculated to the nearest one-tenth of a share, which taken at the public offering price of the new Common Shares as approved by the Commission would have a full value of $100 per $5.50 Dividend Series Preferred Share plus accrued dividends thereon by quarters to the effective date of the Plan.

The balance of the new Common Shares, consisting of 15½% of the Common Shares remaining after sale of the number necessary to provide $11,500,000 and also any unused portion of the 84½% available by reason of the above-mentioned limitation, is to be offered for sale at competitive bidding by the Association, and an amount in cash equal to the price received by the Association for such shares is to be paid to Utilities Investing Trust and the Trustees of the Estate of Associated Gas and Electric Corporation, Debtor. In consideration therefor, Utilities Investing Trust, the owner of all the presently outstanding $7.00 Second Preferred and Common Shares, will consent to the cancellation of such shares, and mutual releases of all claims, as indicated below, will be executed.

The Association on its own behalf and as successor to Electric Associates, Inc., on the one hand, and the Trustee of the Estate of Associated Gas and Electric Company, Debtor, the Trustee of the Estate of Associated Gas and Electric Corporation, Debtor (Associated Trustees), NY PA NJ Utilities Company, Associated Utilities Corporation, Gas and Electric Asscciates, and Utilities Investing Trust on the other, will exchange mutual releases (including releases from any and all liability by reason of any judgments or decrees theretofore rendered in any pending litigation) and all pending litigation among them will be dismissed. NY PA NJ Utilities Company, Associated Utilities Corporation, Gas and Electric Associates, and Utilities Investing Trust are, as noted above, subsidiaries of General Public Utilities Corporation, the successor in interest to Associated Gas and Electric Company and Associated Gas and Electric Corporation pursuant to the reorganization plan of those companies.

It is a condition of this Amended Plan that until the receipt on or before July 1, 1947 of payments for the securities to be publicly offered under the Amended Plan or any earlier disapproval of the Amended Plan by the Commission or any Court no further action will be taken by any of the parties referred to in any pending litigation among them (except such action, if any, as may be necessary to continue the pendency of such litigation) and no new litigation will be instituted between such parties.

Pursuant to the terms of the Amended Plan, all the new bonds and such new Common Shares as are to be offered for sale by the Association, and all the new Common Shares to be allocated to Associated Utilities Corporation and to NY PA NJ Utilities Company on account of their holdings of 23,744 $5.50 Dividend Series Preferred Shares, will be offered for public sale by competitive bidding at the same time. The invitation for bids will provide that if the price bid for the new Common Shares be less than $11.00 per share then all bids received, both for Bonds and Stock, shall at the election of General Public Utilities Corporation be rejected and a further invitation for bids in that event shall be made at such later date as may thereafter be specified by General Public Utilities Corporation within a period of not more than six months from the date of opening of the rejected bids, but in no event later than July 1, 1947.

The Amended Plan provides that the Association will pay such fees and expenses, not including allowances or reim-

bursements for services rendered in prosecution of claims by the Associated Trustees or their affiliates and subsidiaries prior to June 1, 1944, in connection with the proceedings on the original Plan and the Amended Plan as may be approved, allocated or awarded by this Commission.

The consummation of the Amended Plan, according to its terms, is subject to the prior satisfaction of all of the following conditions:

(a) Entry of an order by this Commission, pursuant to section 11 (e) of the act, approving the Amended Plan.

(b) The final approval by the Court, upon application therefor by this Commission in accordance with the provisions of section 11 (e) and 18 (f) of the act.

(c) Receipt on or before July 1, 1947 of payment of at least $10 per share for the new Common Shares to be publicly offered under the Amended Plan.

(d) The right to issue the new Common Shares without other restriction on the payment of dividends than is required by the Commission to be included in the Indenture relating to the proposed new Bonds.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the proposed Amended Plan of Recapitalization and that the Amended Plan should not be effectuated except pursuant to further order of the Commission; and

The Commission having heretofore instituted proceedings under section 11 (b) (1) (File No. 59-56) and section 11 (b) (2) (File No. 59-34) of the act, with respect to the Association and such proceedings having been consolidated with proceedings with respect to the original Plan of Recapitalization filed by the Association under section 11 (e) of the act; and certain hearings having been held with respect to such consolidated proceedings and said hearings having been continued subject to further order of the Commission:

It is ordered, That the hearing in such consolidated proceedings and with respect to the Amended Recapitalization Plan be reconvened on April 23, 1946 at 10:30 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, before the same Trial Examiner heretofore designated. On such date the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in such proceedings should notify the Commission in the manner provided by Rule XVII of the rules of practice on or before April 18, 1946.

It is further ordered, That, without limiting the scope of the issues presented in said consolidated proceedings, particular attention will be directed at the reconvened hearing to the following matters and questions:

1. Whether the Amended Plan, as submitted or as it may be modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby.

2. Whether, and, if so, in what manner, the proposed Amended Plan should be modified to insure adequate protection of the public interest and the interests of investors or consumers and compliance with all applicable provisions of the act and rules thereunder.

3. The propriety of the proposed accounting treatment on the books of the Association.

4. Whether the Amended Plan, as submitted or as it may be modified, makes appropriate provision for the payment of fees, expenses, and remuneration in connection with the Amended Plan, in what amounts such fees, expenses and remuneration should be paid, and the fair and equitable allocation thereof.

5. Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors or consumers and consistent with all applicable requirements of the act and of the rules thereunder.

It is further ordered, That notice of this hearing be given to New England Gas and Electric Association and all other interested persons; said notice to be given by registered mail to New England Gas and Electric Association and to all other parties in the proceedings consolidated herein, and to all other interested persons by a general release of this Commission distributed to the press and mailed to persons on the mailing list for releases under the act, and by publication in the FEDERAL REGISTER.

It is further ordered, That New England Gas and Electric Association give notice of this hearing to each of the holders of its outstanding debentures, preferred and common shares (insofar as the identity of such security holders is available or known to the Association), by mailing to each such security holder, to his last known address, a copy of this notice and order and a copy of the Amended Plan of Recapitalization at least 15 days prior to the date of this hearing.

By the Commission.

GEO. V. ROONEY

FINDINGS AND ORDER REVOKING REGISTRATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 15th day of March 1946.

In the matter of Geo. V. Rooney, 728 Vance Building, Seattle 1, Washington.

1. Geo. V. Rooney, a sole proprietor, is registered as a broker and dealer pursuant to section 15 of the Securities Exchange Act of 1934.

2. The Commission, on the basis of facts reported to it, instituted this proceeding under section 15 (b) of the Securities Exchange Act to determine whether Geo. V. Rooney willfully violated certain provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934 and, if so, whether it is in the public interest to revoke his registration.

3. After appropriate notice, a hearing was held at which there was introduced in evidence an "answer and consent to revocation" in which Geo. V. Rooney acknowledged receipt and service of adequate notice of the proceedings, waived his opportunity to be heard, admitted and acknowledged, for the purpose of the proceeding, the existence of the cause of action set forth in the Commission's order for proceedings, and consented to the entry of any order by the Commission revoking his registration as a broker and dealer.

4. On the basis of the evidence introduced, including the admission of respondent, the Commission finds:

(a) During the period from approximately April 1936 to August 1945, respondent solicited the accounts of certain persons who, for the most part, were uninformed and inexperienced with regard to oil royalties, and by his representations to, and his conduct toward, such persons, induced and intended them to believe that he would act, and was acting, for said persons in their best interests and induced and intended them to repose trust and confidence in his advice with respect to the purchase of oil royalties, when, in fact, said respondent did not intend to act for said persons in their best interests, but intended to act, and acted, in his own interest, and induced said persons to purchase, and sold to such persons, various oil royalties without disclosing to such persons (1) that there was no reasonable ground for believing, on the basis of any reasonable estimates of the value of recoverable oil underlying the tracts upon which such oil royalties were based, that such oil royalties would return to such customers either the original amount of their investments or any income on such investments, and (2) that the prices paid by such persons were far in excess of the prices which respondent, at or about the time of such sales, paid for such oil royalties.

(b) During the period mentioned in paragraph 4 (a) hereof, respondent, in inducing various persons to purchase oil royalties, made false and misleading statements to such persons:

(1) Concerning the returns which said persons would receive on their investments in such oil royalties purchased from respondent;

(2) Concerning the investment and speculative character of said oil royalties;

(3) Concerning earnings realized by others who had previously purchased oil royalties from respondent;

(4) Concerning the profits which would be realized by such persons from their investments in such oil royalties;

(5) Concerning respondent's experience with, and knowledge of, oil royalties and his ability to select good oil royalties for his customers;

(6) Concerning the approval by the Government and the Securities and Exchange Commission of the oil royalties being offered for sale; and

(7) Concerning the marketability of such oil royalties.

(c) Respondent used the mails and the means and instrumentalities of interstate commerce in effecting the above mentioned transactions.

(d) Respondent effected the above mentioned transactions otherwise than on a national securities exchange.

5. The Commission finds that respondent, in acting in the manner described in paragraph 4 (a), (b), (c), and (d), willfully violated the provisions of section 17 (a) of the Securities Act of 1933, and sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934, together with Rules X-10B-5 and X-15C1-2 (a) and (b) prescribed by the Commission under said sections.

6. The Commission further finds that it is in the public interest to revoke respondent's registration as a broker and dealer.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of Geo. V. Rooney be, and the same hereby is, revoked effective March 16, 1946.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

They will, however, inform all such persons of the classification of the projects, works, and developments.

§ 105.12 *Responsibility of Army representatives or inspectors.* (a) The Army representatives or inspectors of the technical service are the local representatives of the War Department and will take the necessary measures to insure the safeguarding of classified information or projects in the hands of the contractors or subcontractors or in process of manufacture in their plants.

(b) Army representatives or inspectors will advise contractors or subcontractors as to their responsibilities and the practical measures to be taken to safeguard top secret, secret, confidential, or restricted matters, and will act favorably,

if practicable, on any suggestion or request of the company tending to preserve secrecy. If at any time conditions at any plant, or any action of a company or its employees, jeopardize the security of classified matter pertaining to the War Department or violate the provisions of the Espionage Act, the Army representative or inspector will request the contractor or subcontractor to take prompt remedial action. If adequate precautionary measures are not taken immediately, he will report promptly to the chief of the technical service concerned and, if the situation requires, to the commanding general of the service command in which the item is in process of manufacture.

(c) When Army and Navy inspectors are on duty at the same plant, the Army inspector will coordinate all security measures with the Navy inspector in order to avoid conflicting demands upon contractors.

§ 105.13 *Responsibility of Government contractors.* (a) A private individual, firm, or corporation which enters into a contract to engage in technical work for the War Department becomes responsible in matters within his or its control for the safeguarding of all top secret, secret, confidential, or restricted matters that may be disclosed or that may be developed in connection therewith. A clause to this effect will be included in such a contract, but its omission will not release the contractor from his responsibility under the Espionage Act and other pertinent laws.

(b) Contractors are responsible that all classified projects allotted to subcontractors or agents are fully protected by a similar agreement.

(c) Whenever for any reason a contract agreement or subcontract has been made which does not include a security clause but later is found to involve top secret, secret, confidential, or restricted matter, the technical service concerned will take the necessary steps to insure that the project or work is properly classified and that the contractor, agent, or subcontractor is informed of the classification and of his responsibility in the matter.

§ 105.14 *Public display of classified matériel.* (a) Commanding officers are responsible that all classified parts, components, or features of matériel are properly safeguarded during maneuvers, drills, parades, ceremonies, assemblages, demonstrations, or exhibitions, or exhibitions open to the general public.

(b) (1) Photographs of equipment while in process of development or those revealing processes of manufacture are prohibited unless authorized by the chief of technical service concerned. After an article of equipment has been issued to combat units, release of photographs is permissible unless specifically prohibited by the instructions issued therewith.

(2) Requests for permission to take photographs of classified matériel, projects, or processes of manufacture will be referred to the War Department through the proper chief of technical service. If authority is granted, it will be with the understanding that the resulting photographs will be submitted to the War Department for review prior to release.

§ 105.15 *Release of information or sale of matériel.* Domestic sale, divulging information in connection with negotiations for foreign sale, and foreign manufacture of items of Army and Navy matériel and equipment are not permitted unless the War and Navy Departments are agreed that military secrecy is not compromised thereby.

§ 105.16 *Classification of visitors*—(a) *Foreign nationals.* For the purpose of §§ 105.1 to 105.21, inclusive, the term "foreign nationals" includes all persons not citizens of the United States, and citizens of the United States while a representative, official, or employee of a foreign government, firm, corporation, or individual.

(b) *United States citizens.* All citizens of the United States not included in paragraph (a) of this section.

§ 105.17 *Authority for admission of visitors*—(a) *General.* Correspondence and communications relating to visits will be routed direct between the various offices concerned.

(b) *Foreign nationals.* (See § 105.16 (a))

(1) Subject to the approval of the facility concerned, foreign nationals may be authorized by local authority to visit commercial facilities provided no classified work or project is shown or discussed.

(2) Foreign nationals may be admitted to military installations for social purposes, for activities open to the general public, and in connection with emergency landings, by authority of the commanding officer provided no classified features are shown or discussed.

(3) Foreign nationals may be admitted to Government facilities; military installations except as provided in subparagraph (2) of this paragraph; and commercial facilities where classified work, projects or features will be shown or discussed, only on written authority of the Assistant Chief of Staff, G–2, War Department General Staff.

(4) Application for visits which require War Department authorization will be made through the appropriate diplomatic representatives except in the case of foreign nationals employed by citizens of the United States or by firms or corporations owned or controlled by citizens of the United States, for whom applications will be submitted by their employers, approved by the commanding officer or management of the facility to be visited, and forwarded with the recommendation of the chief of the technical service or appropriate commanding general of the service command concerned to the Assistant Chief of Staff, G–2, War Department General Staff, who will secure the recommendation of the Navy Department. Applications submitted through either of the channels described above will include the following information:

(i) Name in full.

(ii) Official title or position.

(iii) Name of plant or plants, posts, camps, or airfields to which admission is desired.

(iv) Date of visit or dates between which visits are desired.

(v) Purpose of visit.

For foreign nationals employed by citizens of the United States or by firms or corporations owned or controlled by citizens of the United States the following additional information will be required:

(vi) Nationality.

(vii) Length of service with present employer.

(5) Prior to authorizing a visit to a War Department installation or to a commercial facility where classified work, projects, or features will be shown or discussed, the Assistant Chief of Staff, G–2, War Department General Staff, will secure the recommendations of the Navy Department and the chief of the technical service concerned.

(c) *United States citizens.* Subject to the approval of the commanding officer or the contractor, United States citizens, except those representing a foreign government, firm, or corporation, may be admitted to War Department or commercial manufacturing establishments engaged on classified work or projects under the following conditions:

(1) Casual visitors may be admitted provided no classified work or project is shown or discussed.

(2) Representatives of other United States agencies, manufacturers, or their representatives, engineers, and inventors cooperating in War Department work and having a legitimate interest therein may be shown such works or projects as are considered necessary and desirable by the responsible chief of technical service. Authority for admission will be in writing.

(3) Accredited reporters, photographers, and other representatives of publicity agencies may be admitted to War Department installations or manufacturing establishments engaged on work for the War Department, provided classified matter, projects, or processes of manufacture are not shown or discussed with them.

§ 105.18 *Responsibility of commanding officer, Army representative, or inspector regarding admission of visitors.* The commanding officers of a military establishment or the Army representative or inspector at a commercial establishment is the local representative of the War Department in all matters regarding the admission of visitors. If, in his opinion, the situation at the time makes the admission of a visitor inadvisable, he is empowered to postpone the visit and request instructions from the office which authorized it.

§ 105.19 *Responsibility of Government contractors regarding admission of persons and visitors.* (a) Contractors or subcontractors engaged in work for the War Department must place such restrictions on the movements of persons employed or entering their plants or offices as will give adequate security to top secret, secret, confidential, or restricted matters in their possession. In view of the wide differences in organization, arrangement, and physical makeup of individual plants, no specific rules are practicable. Therefore, local conditions at the plant and the classification of the project will determine the security measures to be adopted.

(b) The following general procedure in regard to visitors at establishments or plants engaged in classified projects for the War Department is prescribed:

(1) Visitors will be accompanied during their stay at the plant by the inspector or Army representative, a member of his office, or some responsible person who is specifically informed as to the necessary limitations or restrictions, the scope of the visit, and the information which may be furnished.

(2) Unless specifically authorized by the authorities mentioned in § 105.17, visitors will not be allowed in any shop, laboratory, drafting room, section of a plant where top secret, secret, confidential, or restricted matériel is located or where classified work is in progress, nor will they be permitted to take photographs.

(c) War Department contractors will submit to the commanding general of the service command or chief of technical service, whichever is appropriate, immediately upon completion of the visit, a report of all visitors, except United States citizens, who have gained information concerning the classified work or projects. The reports will include the following information:

(1) Name, official position, and nationality.

(2) Authority for visit.

(3) Matters in which the visitors showed the greatest interest.

(4) General nature of questions asked.

(5) Expressed object of the visit.

(6) Estimate of the real object of the visit.

(7) General estimate of ability, intelligence, and technical knowledge of the visitor and his proficiency in the English language.

(8) A brief list of what was shown and explained.

§ 105.20 *Restricted areas*—(a) *Designation.* The commanding officer of a military reservation, post, camp, station, or installation is responsible for the designation and proper safeguarding of restricted areas in his military reservation, post, camp, station, or installation. If local conditions dictate, he will mark all ordinary entrances or approaches to such areas with a sign reading as follows:

WARNING

RESTICTED AREA

It is unlawful to enter within this ------ without written permission of ------

(Area, building, etc.)

(Authority)

(b) *Procedure in case of violation.* (1) The commanding officer of a military reservation, post, camp, station, or installation will cause any person not subject to military law who enters a restricted area or building to be detained, warned of his rights, and interrogated by proper authority. If it is a first offense and there is no evidence of deliberate intent, the offender may be warned against repetition and released upon the surrender of any unlawful photograph, sketch, picture, drawing, map, or graphic representation in his possession. Otherwise the offender will be delivered without unnecessary delay to the nearest United States marshal with a written statement of the facts, the names and addresses of the witnesses, and such pertinent exhibits as may be available.

(2) When an investigation reveals that a person not subject to military law has entered such a restricted area or building, custody of the individual not having been effected, the commanding officer will promptly forward in writing to the nearest United States district attorney a report of all the facts, including the names and addresses of the witnesses.

(3) A report will be made through military channels to the commanding general of the service command of each case brought to the attention of civil authority and will include a brief of all the facts and copies of all pertinent communications.

§ 105.21 *Reserved areas; establishment.* Areas reserved for military or national defense purposes, admittance to which is either restricted or prohibited, are set apart by Executive order of the President of the United States or by order of the Secretary of the Interior.

PART 1334—SUGAR

[MPR 60,[1] Amdt. 2]

DIRECT CONSUMPTION SUGAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 60 is amended in the following respects:

1. Section 2 (e) (6) is added to read as follows:

(6) *Election by primary distributors who produce fine granulated cane sugar and who also produce other direct consumption sugars from mainland sugar cane.* Any person who produces fine granulated cane sugar and also produces other direct consumption sugars from mainland sugar cane may, under subparagraphs 3, 4 and 5 of this section 2 (e), file separate affidavits and make separate elections for his fine granulated cane sugars and for his other direct consumption sugars which he produces from mainland sugar cane.

2. Section 11 (a) (5) is added to read as follows:

(5) With respect to the purchase of direct consumption sugars, the Commodity Credit Corporation and sellers to it are exempted from the provisions of this regulation.

3. Section 10 (c) is amended by deleting therefrom the words "off-shore areas" and substituting therefor the words "outside continental United States."

This amendment shall become effective March 27, 1946, except that section 2 (e) (6) shall be effective as of February 10, 1946.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 169,[1] Amdt. 68]

BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneouly herewith and filed with the Division of the Federal Register.

Section 1364.405 (b) is amended to read as follows:

(b) *Adjustment for transportation to critical areas.* Upon a finding that a critical shortage of meat has occurred in a specific area either because of the unavailability of customary sources of supply and because the established maximum prices do not contain a sufficient allowance to cover the cost of transporting meat to that area from other sources of supply, or because the local delivery allowances provided by the regulation are insufficient to cover the cost of transporting meat within the area, the Administrator may by order designate such area as a critical area for such period as he may prescribe. Subject to such conditions as may be prescribed in the order of the Administrator, the Regional Administrator for the area or any District Director designated by the appropriate Regional Administrator, may in writing authorize named sellers to charge and receive, for beef and veal carcasses and wholesale cuts sold to buyers in that area the added cost of transportation, or the added cost of local delivery, whichever the case may be, in addition to the applicable maximum price.

This amendment shall become effective as of March 25, 1946.

PART 8302—DISPOSAL OF SURPLUS PERSONAL PROPERTY TO GOVERNMENT AGENCIES AND STATE AND LOCAL GOVERNMENTS

(iv) A compressor station to be located in Syracuse with a total initial installed horsepower of 1,200 (active and reserve) and an initial capacity of approximately 600,000 cubic feet per hour.

(d) The proposed facilities of Central New York would be connected with existing facilities to enable the substitution of straight natural gas service in Central New York's "Syracuse-Oswego Division" in which a mixed gas is now served to consumers in Oswego, Onondaga, and Madison Counties, New York, and in "Utica and Watertown Divisions" in which a manufactured gas is now served to consumers in Jefferson, Oneida, Madison, Herkimer, and Fulton Counties, New York.

(e) On February 8, 1946, New York State Natural Gas Corporation, Docket No. G-508, filed with the Commission a petition requesting modification of the limitation imposed by paragraph (C) of the aforesaid order of April 26, 1944, by eliminating all limitation of volumes to permit sale and delivery of natural gas to Central New York in accordance with a contract dated November 13, 1945, wherein New York State Corporation agrees to supply natural gas in quantities necessary to enable Central New York to effect the substitution of straight natural gas service as mentioned in paragraph (d) above. New York State Corporation is presently selling and delivering natural gas to Central New York pursuant to the provisions of New York State Natural Gas Corporation Rate Schedule FPC No. 20, as limited by said order of April 26, 1944.

(f) On October 30, 1945, Hope Natural Gas Company, Docket No. G-507, filed with the Commission a petition requesting, among other things, a modification of the limitation imposed by paragraph (C) of the aforesaid order of April 26, 1944, in such a manner as to permit Hope to supply the natural gas requirements of New York State Corporation in accordance with the terms and provisions of an agreement of November 1, 1943, Hope Natural Gas Company Rate Schedule FPC No. 9, and up to the maximum quantity therein specified, 14,000,000 Mcf per year. Hearing upon such petition has been held, but no decision thereon has been rendered by the Commission.

The Commission finds that:

(1) It is necessary and appropriate in the public interest that the record in the proceedings In the Matters of Hope Natural Gas Company, et al., Docket Nos. G-507, G-508, G-510, G-516, and G-519 be reopened for the purpose of taking evidence with respect to the matters involved and the issues presented by the petition of New York State Natural Gas Corporation, Docket No. G-508, filed February 8, 1946, requesting modification of paragraph (C) of the Commission's aforesaid order of April 26, 1944.

(2) The reopened proceedings referred to in paragraph (1) hereof may present issues and facts substantially similar to those presented in connection with the application of Central New York Power Corporation, Docket No. G-702, filed February 11, 1946, and referred to in paragraphs (c) and (d) hereof, and good cause exists for consolidating the proceedings for purpose of hearing thereof.

The Commission orders that:

G-507, G-508, G-510, G-516, and G-519 be and it is hereby reopened for the purpose of taking evidence with respect to the matters involved and the issues presented by the petition of New York State Natural Gas Corporation, Docket No. G-508, filed February 8, 1946, requesting modification of paragraph (C) of the Commission's aforesaid order of April 26, 1944.

(B) The reopened proceedings be consolidated for purpose of hearing with the

VOSS BROS. MFG. CO.

ADJUSTMENT OF CEILING PRICES

Order No. 60 under Revised Supplementary Order No. 119 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed

with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, *It is ordered:*

(a) This order establishes ceiling prices for sales by the manufacturer of the line of washing machines manufactured by Voss Bros. Manufacturing Company, 1355 W. 2nd Street, Davenport, Iowa, and for resales of the five models of washing machines listed in subparagraph (3) below.

(1) The manufacturer shall determine his ceiling prices for each model of washing machine he produces in accordance with the provisions of sections 3 and 5 of Maximum Price Regulation No. 86, except that he shall increase his ceiling prices for each model by 12.4 percent instead of 7.7 percent as provided in section 5.

The additional adjustment charge in excess of the industry reconversion adjustment of 7.7 percent may be made and collected only if it is separately stated by the manufacturer on each invoice to each purchaser for resale at wholesale on or after the effective date of this revised order, as follows:

Additional OPA adjustment under RSO No. 119—$-------.

(2) (i) Distributors who sold washing machines manufactured by the same manufacturer during the period October 1–15, 1941 shall determine their ceiling prices for sales to dealers of each of the five models of washing machines manufactured by Voss Bros. Manufacturing Company and listed in subparagraph (3) below as follows:

A distributor's ceiling price for sales in each zone of each model to each class of purchasing dealer shall be the sum of (1) the "additional OPA adjustment under RSO 119" which is separately stated on his purchase invoice, and (2) the price which will yield the distributor the same percentage of the total dollar margin between the manufacturer's price to him, (exclusive of the separately stated adjustment under this order) and the dealer's price to ultimate consumers in that zone (less the manufacturer's separately stated adjustment under this order) as the distributor received during the period October 1–15, 1941 in connection with the sale of the most comparable model produced by the same manufacturer and sold by the distributor to the same class of purchasing dealer.

(ii) A distributor who did not during the period October 1–15, 1941 sell any washing machines produced by the same manufacturer shall determine his ceiling price for sales of a particular model to a particular class of dealer by taking the ceiling price established under subparagraph (i) above for the same sale by the "closest seller of the same class" who has so determined a ceiling price. A distributor's "closest seller of the same class" is a distributor who (a) had established a ceiling price for sales of the identical model of washing machine to the same class of purchaser, and (b) is the same general class of seller, and (c) is located nearer to the distributor than any other seller who meets requirements (a) and (b) of this rule.

(iii) These ceiling prices are f. o. b. seller's city. When, however, shipment is made directly from the factory to the dealer pursuant to the distributor's order, the above prices are f. o. b. the dealer's city. In all other respects, these ceiling prices are subject to each distributor's customary terms, discounts, allowances and other conditions of sale applied by him on sales of similar articles during the period October 1–15, 1941 inclusive.

(3) The ceiling prices for sales by dealers in each zone for the models of washing machines listed below are as follows:

Wringer-type washing machines	Dealers' ceiling prices to consumers		
	Zone 1	Zone 2	Zone 3
	Each	*Each*	*Each*
Model No.:			
41–A	$60.95	$65.95	$70.95
41–H	71.15	76.15	81.15
41–C	81.35	86.35	91.35
41–CP	91.50	96.50	101.50
41–CG	107.20	112.20	117.20

These ceiling prices are subject to each dealer's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

(b) For purposes of this order Zones 1, 2 and 3 are as follows:

Zone 1—Illinois, Iowa, Indiana, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin.

Zone 2—Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Georgia, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia.

Zone 3—Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington, Wyoming, and Florida.

(c) At the time of, or prior to, the first invoice to each distributor, the manufacturer shall notify him of the method of determining ceiling prices established by this order for resales by the distributor. This notice may be given in any convenient form.

(d) All the provisions of Maximum Price Regulation No. 86 continue to apply to all sales and deliveries of machines covered by this order, except to the extent that those provisions are modified by this order. The ceiling prices established by this order supersede those established by Order No. 14 under Maximum Price Regulation No. 86 and Order No. 60 under Revised Supplementary Order No. 119.

(e) Unless the context requires otherwise, the definitions set forth in the various sections of Maximum Price Regulation No. 86 shall apply to the terms used herein.

(f) This order may be revoked or amended by the Price Administrator at any time.

[Rev. SO 119, Order 129]

WEBER SHOWCASE & FIXTURE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Weber Showcase and Fixture Company, Inc., 5700 Avalon Boulevard, Los Angeles 54, California, may compute its adjusted ceiling prices for all Soda Fountains which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 4 per cent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he had paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that Section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 28th day of March 1946.

Issued this 27th day of March 1946.

PAUL A. PORTER,
Administrator.

[SO 133, Order 25]

WYANDOTTE OPTICAL CO., INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 4 and 6 of Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's ceiling prices.* Wyandotte Optical Company, Inc. of 804–6 Grand Avenue, Kansas City 13, Missouri, may increase its maximum prices established under Maximum Price Regulation No. 188, to each class of purchaser, which were in effect prior to the effective date of this order, for its sales of single vision and bifocal spectacle lenses which it manufactures, by 4.5 percent.

(b) *Ceiling prices of purchasers for resale.* Purchasers for resale of such articles which the manufacturer has sold at ceiling prices adjusted under this order shall determine their resale ceiling prices, as follows:

(1) A purchaser for resale who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his resale ceiling price by adding to his invoice cost the same mark-up which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a resale ceiling price in this way need not be reported to the Office of Price Administration. Each seller, however, must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his resale ceiling price for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If the purchaser for resale cannot determine his resale ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Resale ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Notification.* At the time of or before the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the manufacturer shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(d) *Statement to be submitted to the Office of Price Administration.* The manufacturer shall file a report with the Office of Price Administration, Washington, D. C., as required by section 5 of Supplementary Order No. 133.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 28th day of March 1946.

Issued this 27th day of March 1946.

Administrator.

ARIZONA

DESIGNATION AS CRITICAL SHORTAGE AREA WITH RESPECT TO BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

Order No. 28 to Revised Maximum Price Regulation No. 169 is amended in the following respects:

1. All references to "District Manager" are amended to read: "District Director".

2. The following paragraph is added to read as follows:

Pursuant to § 1364.405 (b), as amended, of Revised Maximum Price Regulation No. 169, I find that a critical shortage of meat has occurred in the State of Arizona because the local delivery allowances provided by the regulation are insufficient to cover the cost of transporting meat within that area. For this reason, in addition to the reasons set forth in the first paragraph, the State of Arizona is hereby designated a critical shortage area and the Regional Administrator for the VIIIth region, or any District Director authorized by him, may in writing authorize named sellers located in the State of Arizona to charge and receive for beef and veal carcasses and wholesale cuts and processed products sold to buyers in the State of Arizona, the actual added cost of local delivery in addition to the applicable maximum price.. The "actual added cost of local delivery" is the difference between the seller's actual cost of delivery and the local delivery allowance specified in the regulation.

This amendment will become effective as of March 25, 1946.

Issued this 27th day of March 1946.

In either case, the seller must have records available to substantiate the charging of such price and such price must be filed with the District Office of the Office of Price Administration pursuant to section 9 of this order. If a seller commences the use of special equipment after the effective date of this order he shall establish his maximum hourly price therefor under the applicable maximum price regulation and file such price with the District Office within ten days.

This item shall be explained to the purchaser prior to commencing the job and shall be invoiced separately. Travel expenses and subsistence may not be collected unless the seller actually pays the employee therefor.

[Region I Order G-2 Under Gen. Order 68]

HARD BUILDING MATERIALS IN MASSACHUSETTS

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, as amended, it is ordered:

SECTION 1. *What this order covers.* This order covers all "retail sales" of the hard building materials listed in the Appendices (hereinafter set forth and made part hereof) by any seller in the Commonwealth of Massachusetts except Dukes and Nantucket Counties. For the purposes of this order a "retail sale" means a sale to an ultimate user, or a sale to a purchaser for resale on an installed basis.

SEC. 2. *Maximum prices, discounts and allowances, etc.* (a) The prices for the hard building materials set forth in the price table or tables of each appendix shall be the maximum prices for "retail sales" of such materials made in the area covered by that appendix.

(b) Maximum prices established by this order shall be reduced by 2% whenever cash payment is made to the seller within 10 days of the date of invoice. In addition to the 2% discount required in the preceding sentence, the seller shall continue to grant such further discounts, allowances, differentials, and terms as were in effect for such seller during March, 1942.

(c) Maximum prices established by this order may be modified for sales by "mail order" firms in the manner provided for in subparagraph (f) of General Order 68, as amended.

SEC. 3. *Delivery.* The maximum prices fixed in the appendices of this order include free delivery by the seller within the radius specified in each appendix. However, where a seller's free delivery zone during March, 1942, extended a greater distance than specified in the applicable appendix, he shall continue to maintain his March, 1942 free delivery zone. Transportation charges may be added for deliveries beyond the free delivery radius or zone, as the case may be, at the rates, or computed by the methods, customarily charged or used by the seller during March, 1942. In case of an isolated sale of a small quantity of an item listed in an appendix, the seller may maintain his customary delivery practices relating to such sales which he used in March, 1942.

SEC. 4. *Posting of maximum prices.* Every seller making sales covered by this order shall post in his customary place of business, in a manner plainly visible to all purchasers, a copy of the appendix applicable to the area in which that place of business is located. The term "customary place of business" means the location where the materials are generally stored and available for delivery.

SEC. 5. *New sellers.* In addition to the requirements for delivery as set forth in section 3 and in addition to the requirement to grant the 2% discount provided for in section 2 (b), a seller who was not engaged in the retail sale of hard building materials during March, 1942, must (a) grant the further discounts, allowances, differentials, and terms as were in effect during March, 1942, for his most closely competitive seller of the same class, (b) use the same delivery practices, delivery rates and methods of computing such rates as were in effect for such competitor during that period.

SEC. 6. *Sales slips and records.* (a) For any sale of $50.00 or more, each seller (regardless of previous custom) must keep records so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following:

1. Name and address of buyer;
2. Date of transaction;
3. Place of delivery;
4. Complete description of each item sold and price charged.

(b) Every seller covered by this order shall give to the purchaser a sales slip, receipt or other evidence of purchase showing the name and address of the seller, the date of purchase, a description, quantity and the price of each item sold; the said description to be in detail sufficient to determine whether the price charged has been properly computed under this order. However, in the case of sales amounting to less than a total of $5.00 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare the sales slips, receipts, or other evidence of purchase, hereinbefore described, in duplicate, and he must keep a duplicate copy for at least one year after delivery.

(c) Records or other satisfactory evidence of each seller's delivery practices, delivery rates, methods of computing such rates, further discounts, allowances, differentials and terms as were in effect during March 1942 for each seller shall be kept and made available for inspection by representatives of the Office of Price Administration. A new seller shall obtain such records or other satisfactory evidence from his most closely competitive seller of the same class and shall also keep them and make them available for inspection by representatives of the Office of Price Administration. If a new seller is unable to ascertain or obtain from his most closely competitive seller such records or evidence, he may apply to his nearest Price Control Board or to the Regional Office of Price Administration, 55 Tremont Street, Boston, Massachusetts, for assistance to obtain the required information.

SEC. 7. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices or pricing methods previously fixed by any other order or regulation issued by the Office of Price Administration. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation shall apply to sales covered by this order.

SEC. 8. *Evasion.* The price limitations of this order shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodities covered by this regulation or by way of commissions, services, transportation, or other charges, or by tying agreement or other trade understanding, or by making the terms and conditions of the sale more onerous to buyers than they were in March, 1942.

SEC. 9. *Enforcement.* Persons violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided by the Emergency Price Control Act of 1942 as amended.

SEC. 10. *Amendment.* This order may be modified, amended, revised or revoked at any time by the Office of Price Administration.

This order shall become effective March 30, 1946.

Issued this 15th day of March 1946.

ELDON C. SHOUP,
Regional Administrator.

Approved:

C. L. FOOTE,
Regional Price Executive.

SCRANTON-SPRING BROOK WATER SERVICE CO. ET AL.

SUPPLEMENTAL FINDINGS AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 26th day of March A. D. 1946.

In the matters of Scranton-Spring Brook Water Service Company, Pennsylvania Water Service Company, Federal Water and Gas Corporation, File No. 54-116; Federal Water and Gas Corporation and Subsidiary Companies, File No. 54-66; Federal Water and Gas Corporation and Subsidiary Companies (Respondents), File No. 59-61.

On March 7, 1946, this Commission entered its findings and opinion and order approving an amended plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 by Scranton-Spring Brook Water Service Company ("Scranton"), Pennsylvania Water Service Company ("Pennsylvania") and Federal Water and Gas Corporation ("Federal"), providing for the recapitalization of Scranton and the liquidation and dissolution of Pennsylvania. See "Scranton-Spring Brook Water Service Company, et al., ___ S. E. C. ___ (1946), Holding Company Act Release No. 6458. Scranton is a direct subsidiary of Pennsylvania and an indirect subsidiary of Federal, and Pennsylvania is a subsidiary of Federal. Pursuant to the request of the applicants, the Commission filed an application, pursuant to sections 11 (e) and 18 (f) of the act, with the District Court of the United States for the Middle District of Pennsylvania, in Scranton, Pennsylvania, for an order approving and enforcing the amended plan. The court set April 4, 1946, as the date for a hearing on the Commission's application.

As indicated in the above findings, Scranton's gross property account, at December 31, 1945, amounted to $58,028,453, of which $51,298,937 represented water property; the carrying value of the water property included approximately $20,000,000 of excesses over amounts as recorded by predecessors. In this connection, the following statements were made:

The company states that the Pennsylvania Public Utility Commission does not require the determination of original cost of water properties, and no such determination has been made.

• • • • • •

No provision is being made by Scranton for the disposition of excesses in the water property accounts. It appears that jurisdiction in respect of this matter is vested primarily in the Pennsylvania Public Utility Commission and that no disposition of such excesses has been required by that Commission. Our recital of the above facts in respect of Scranton's property account should not be construed as indicating our approval of the company's carrying value of its water property.

It was further indicated in the findings that Scranton provides for retirement accruals in respect of its water property; that the Pennsylvania Public Utility Commission has not required depreciation accounting for water properties; and that no depreciation study has been made in respect of Scranton's water property.

Since the date of the entry of the findings and opinion and order in these proceedings, the Commission has been informed by the applicants that the Pennsylvania Public Utility Commission has furnished Scranton with a tentative draft of a new uniform system of accounts which that Commission contemplates prescribing for water companies having annual gross operating revenues of more than $100,000. In its letter transmitting the tentative system of accounts, the Pennsylvania Commission stated, in part, as follows:

The Commission has authorized its Bureau of Accounts to confer informally with the water companies to be affected by these regulations to the end that the companies may be given ample opportunity to submit criticisms and suggestions on the proposed regulations, following which the matter will be set down for formal hearing. Comments of the industry should be filed not later than June 1, 1946. It is the desire of the Commission to prescribe the new system to become effective January 1, 1947.

The new system of accounts proposed by the Pennsylvania Commission would require that companies subject thereto shall determine the original cost of their properties within two years following the adoption of the new uniform system of accounts. The tentative system of accounts provides for Account 100.5 ("Utility Plant Acquisition Adjustments") reading, in part, as follows:

A. This account shall include the difference between (a) the arm's-length cost to the accounting utility of utility plant acquired by purchase, merger, consolidation, liquidation or otherwise and (b) the original cost, estimated if not known, of such property, less the amount or amounts which may be credited to the depreciation and amortization reserves of the accounting utility at the time of acquisition with respect to such property.

• • • • • •

C. The amounts recorded in this account with respect to each property acquisition, shall be depreciated, amortized or otherwise disposed of as the Commission may approve or direct.

The tentative system of accounts also provides for Account 107 ("Utility Plant Adjustments"), which reads, in part, as follows:

A. This account shall include the difference between the original cost, estimated if not known, and the book cost of utility plant, at the effective date of this system of accounts, to the extent that such difference is not properly includible in account 100-5, Utility Plant Acquisition Adjustments.

ucts Corporation, common stock, $1.00 33⅓¢ par value, file No. 7-866, Radio-

Write-ups of utility plant prior to the effective date of this system of accounts shall be recorded herein.

B. The amounts included in this account shall be classified in such manner as to show the nature of each amount included herein and shall be disposed of as the Commission may approve or direct.

The Pennsylvania Commission's tentative system of accounts would require that reporting companies submit not later than two years after the effective date of the uniform system of accounts, among other things a statement "showing suggested plan for depreciating, amortizing or otherwise disposing, in whole or in part, of the amounts as of the effective date of said system of accounts includible in account 100.5 Utility Plant Acquisition Adjustments, and account 107, Utility Plant Adjustments."

In addition, the tentative system of accounts provides for depreciation accounting.

If the proposed system of accounts is adopted, the amount of the excess of Scranton's recorded cost of water properties over original cost thereof would have to be determined and the Pennsylvania Commission approve or direct what treatment should be accorded such excess. Consequently, and in the light of the tentative nature of the Pennsylvania Commission's proposal of a uniform system of accounts, the effect, if any, of the adoption of a uniform system of accounts on Scranton's earnings cannot at this time be foretold.

Our previously expressed opinion that the Amended Plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby is not modified by our recitation of the above facts. However, we feel that security holders of Scranton and Pennsylvania, and other interested persons, should be apprised of the foregoing facts.

Accordingly, *It is ordered*, That Scranton-Spring Brook Water Service Company and Pennsylvania Water Service Company shall mail to each of their stockholders of record as of the close of business March 11, 1946, a copy of the Commission's supplemental findings herein, and that such mailing shall be effected not later than March 29, 1946.

By the Commission.

Pen Ed will thereupon be dissolved.

Applicants or declarants (or both) have designated sections 6 (a), 6 (b), 9 (a), 10, 12 (c) and 12 (f) of the act, and Rules U-42, U-43 and U-50 as applicable to the proposed transactions and state that they believe that the proposed transactions are necessary or appropriate to effectuate the provisions of section 11 (b) (1) of the act and, accordingly, request the Commission to enter an order so finding which will conform to the provisions of sections 371 (f) and 1808 (f) of the Internal Revenue Code, as amended.

II. The Commission having examined the corporate structure of Pen Ed, a subsidiary of Aelec, a registered holding company, and the files and records of the Commission relating thereto, and such examination having disclosed data establishing, or tending to establish, that:

The net utility plant, per books, amounted to $44,607,744, and the estimated net original cost of utility plant amounted to $31,388,222.

[1] The stated amounts of the preferred stocks have been increased by $784,891 to reflect their respective liquidation values, and the common stock equity has been reduced by a like amount.
( ) Denotes red figure.

10. On the basis of the adjustment indicated in paragraph 9 above, the common stock equity represents an interest of $6,084,959, or 12.76% of the total capitalization and surplus. No adjustment has been made with respect to elimination of any portion of the $13,459,522 of amounts in the utility plant account tentatively estimated by the company to be in excess of original cost, which excess is stated by the company to include Electric and Gas Plant Adjustments (Account 107) in undetermined amounts.

11. Other than the differences in the amount of annual cumulative dividends, redemption prices, and liquidation amounts, the $5 series cumulative preferred stock and the $2.80 series cumu-

lative preferred stock are alike, and both have a preference over the common stock, on an equal and ratable basis, to cumulative dividends at the contract rates. The $5 series cumulative preferred stock is entitled to annual cumulative dividends of $5 per share, and is redeemable, in whole or in part, at $80 per share, plus all accumulated dividends. The $2.80 cumulative preferred stock is entitled to annual cumulative dividends of $2.80 per share and is redeemable, in whole or in part, at $52.50 per share, plus all accumulated dividends. "In the event of any liquidation or dissolution or winding up of the corporation, whether voluntary or otherwise, or in the event of a sale of all or substantially all of the assets of the corporation or upon any distribution of its capital," the holders of the $5 series preferred stock are entitled to receive $75 per share, plus all accumulated dividends, and the holders of the $2.80 series preferred stock are entitled to receive $50 per share, plus all accumulated dividends.

12. Voting power for the election of directors in Pen Ed is normally lodged exclusively in the common stockholders who are entitled to one vote per share for each of the numbers of persons to be voted for as directors and each stockholder may cast the whole number of his votes for one candidate, or distribute them upon two or more candidates, as he may prefer. If at any time dividends on the preferred stocks aggregating one year's annual dividends are in arrears, the holders of the preferred stocks are entitled to vote at all elections for directors, and such right to vote in the election of directors continues until all dividends in arrears are paid in full, whereupon such voting power is again vested exclusively in the common stockholders until a similar arrearage occurs. When the preferred stockholders are entitled to vote for directors, each such stockholder is entitled to the vote per preferred share for each of the numbers of persons to be voted as directors and he may cast the whole number of his votes for one candidate, or distribute them upon two or more candidates, as he may prefer.

III. It appears to the Commission on the basis of the facts set forth in Part I hereof and the allegations contained in Part II hereof that there are reasonable grounds to believe that voting power is unfairly and inequitably distributed among the security holders of Pen Ed in contravention of the provisions of section 11 (b) (2) of the act.

IV. It appearing to the Commission in the light of the allegations stated in Part II and Part III hereof that it is appropriate in the public interest and in the interest of investors and consumers to institute proceedings with respect to Aelec and Pen Ed under sections 11 (b) (2), 12 (c), 12 (f), 15 (f) and 20 (a) of the act in order to determine whether an appropriate order or orders should be entered pursuant to said sections; and

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the applications or declarations (or both) jointly filed by Aelec, Penelec, and Pen Ed and that such applications or declarations (or both) should not be approved or permitted to become effective except pursuant to further order of the Commission, and that a hearing should be held with respect to the proceedings instituted herein by the Commission under sections 11 (b) (2), 12 (c), 12 (f), 15 (f) and 20 (a) of the act; and

It further appearing to the Commission that the said proceedings involve common questions of law and fact and that evidence adduced in one proceeding may have a bearing upon the issues presented in the other proceedings; and that a substantial saving of time and expense will result if the proceedings are consolidated;

It is hereby ordered, That proceedings be, and the same hereby are, instituted under sections 11 (b) (2), 12 (c), 12 (f), 15 (f), and 20 (a) of the act directed to Aelec and Pen Ed and that such proceedings be consolidated with the proceedings with respect to the applications or declarations (or both) filed by Aelec, Penelec, and Pen Ed and that a hearing on such consolidated proceedings under the applicable provisions of the said act and rules and regulations promulgated thereunder be held on the 23d day of April, 1946, at 10:30 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate therein shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's Rules of Practice on or before April 22, 1946.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of the issues presented by the consolidated proceedings, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed transactions should be considered as a plan under section 11 (e) of the act and whether, if so considered, such plan is fair and equitable to the persons affected thereby.

2. Whether, if not so considered, the treatment to be accorded the various persons affected by the proposed transactions, particularly the holders of the first mortgage bonds and preferred stocks of Pen Ed, is proper in all respects.

3. Whether the various proposed acquisitions will serve the public interest by tending towards the economical and efficient development of an integrated public utility system or systems.

4. Whether the considerations to be paid and received in connection with the various transactions, including all fees, commissions, and other remunerations, are fair and reasonable.

5. Whether the proposed issue and sale by Penelec of its first mortgage bonds, cumulative preferred stock, serial notes, and common stock are solely for the purpose of financing its business, and whether it is appropriate in the public interest or for the protection of investors or consumers to impose any terms or conditions in connection therewith.

6. The propriety of the proposed accounting treatment of the several transactions on the books of the respective applicants or declarants.

7. Generally, whether the proposed transactions comply with all applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, and, if not, whether and what terms and conditions should be imposed to satisfy the statutory standards.

8. Whether the allegations contained in Parts II and III hereof are true and correct.

9. If voting power is unfairly and inequitably distributed among the security holders of Pen Ed in contravention of section 11 (b) (2) of the act, what steps should be required of Aelec and Pen Ed to distribute fairly and equitably voting power among such security holders.

10. Whether it is necessary or appropriate to enter any order pursuant to sections 12 (c) and 12 (f) of the act prohibiting or restricting the payment of dividends on the common and preferred stocks of Pen Ed in order to protect its financial integrity or to prevent the payment of dividends out of capital surplus or to prevent the circumvention of the provisions of the act or any rules, regulations, or order thereunder or otherwise.

11. Whether it is necessary or appropriate in the public interest or for the protection of investors to require Pen Ed to restate its utility plant account, surplus, capital or other accounts pursuant to sections 15 (f) and 20 (a) of the act and the rules and regulations promulgated thereunder so as to segregate, dispose of and eliminate write-ups and intangibles in the plant account, set up adequate reserves for depreciation or utility plant account, and make other adjustments in conformance with the standards of the act and the rules and regulations thereunder.

It is further ordered, That notice of said hearing be given to Pen Ed, to Penelec, to Aelec, to the Pennsylvania Public Utility Commission, to the Federal Power Commission, and to all other interested persons, said notice to be given to Pen Ed, to Penelec, to Aelec, to the Pennsylvania Public Utility Commission, and to the Federal Power Commission by registered mail and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER; and

It is further ordered, That Pen Ed give notice of said hearing to each of its holders of record of its bonds and of its common and preferred stocks (insofar as the identity of such security holders is available or known to Pen Ed), by mailing, postage prepaid, to such security holders to their last known addresses, a copy of this notice and order, at least fifteen (15) days prior to the date of said hearing.

It is further ordered, That jurisdiction be and is hereby reserved to separate either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues or questions which may arise in these proceedings, and to take such other action as may appear necessary to the orderly and economical disposition of the issues involved.

By the Commission.

(h) "Instalment payment" includes that deposit to an account or fund which represents the partial repayment of a loan.

(i) "Mortgage" includes a note, bond, deed of trust, or other evidence of indebtedness or security instrument taken in connection with a Class 3 Loan.

(j) "Class 3 structure" means a structure, the construction of which is financed with the proceeds of an eligible Class 3 loan.

§ 502.3 *Eligible borrowers.* A borrower in order to be eligible for a Class 3 loan:

(a) *Eligible owners or lessees.* Shall be (1) the fee simple owner of unencumbered land upon which the new structure is to be built or (2) the lessee of such unencumbered land under a lease from the United States Government for a term of at least six months beyond the maturity of the loan or (3) the lessee of such unencumbered land under a lease having a term of at least forty years to run from the date of the mortgage and providing for annual rental not in excess of 6% of the valuation placed upon the unimproved land by the insured and containing a provision which will entitle the lessee to obtain the fee simple title to such land upon payment at any time after one month's written notice of a sum not in excess of the amount of such annual rental multiplied by $16\frac{2}{3}$, or (4) the lessee of such unencumbered land under a lease for not less than 99 years which is renewable.

(b) *Borrower's equity.* Shall establish to the satisfaction of the insured by certification on the Credit Application provided for in § 502.5 that after the mortgage, deed of trust, or similar instrument has been recorded, the property will be free and clear of all liens other than such mortgage, deed of trust, or similar instrument, except taxes and ground rents not due and payable and special assessments not in arrears, and that in addition to the loan he has an investment in the property in cash, in land, or an interest in the land in an amount equal to 5% of the appraised value of the completed property as determined under § 502.7 (a).

§ 502.4 *Eligible improvements*—(a) *Purpose.* A loan must be for the purpose of financing the construction of a Class 3 structure and appurtenances thereto which conforms with the minimum construction requirements and property standards prescribed by the Commissioner and which is approved by the Commissioner as to architectural design, physical characteristics, and location, which is within the United States, its territories and possessions, and which is commenced on or after March 28, 1946, in reliance upon the credit facilities afforded by Title I of the National Housing Act as amended.

(b) *Unfinished structures.* The proceeds of a loan shall not be used to finance the cost of completing an unfinished structure, unless the unfinished structure was begun under a Class 3 loan, in which case the total of all such loans shall not exceed $3,000.

(c) *Architectural services.* The proceeds of a loan may be used to pay for architectural and engineering services and builders' profit in connection with the building of new structures financed in accordance with this part.

(d) *Refinancing existing obligations prohibited.* The proceeds of a loan shall not be used for the purpose of refinancing existing obligations not previously made or reported for insurance pursuant to this part.

§ 502.5 *Credits*—(a) *Credit application.* Prior to making a loan the insured shall obtain a dated Credit Application executed by the borrower on a form approved by the Commissioner. A separate Credit Application is required for each loan made or mortgage purchased.

(b) *Credit investigation.* The Credit Application, supplemented by such other information as the insured deems necessary, must, in the judgment of the insured, clearly show the borrower to be solvent, with reasonable ability to pay the obligation and in other respects a reasonable credit risk. If, after the loan is made, an insured who acted in good faith discovers any material misstatements or misuse of the proceeds of the loan by the borrower, dealer, or others, the eligibility of the mortgage for insurance will not be affected. However, the insured shall promptly report such discovery to the Commissioner.

(c) *Reliance on credit application.* An insured acting in good faith may, in the absence of information to the contrary, rely upon all statements of fact made by the borrower which are called for by the borrower's Credit Application.

(d) *Outstanding FHA and direct Federal obligations.* A loan shall not be made if the insured has knowledge that the borrower is past due as to either principal or interest with respect to an obligation owing to, or insured by, any department or agency of the Federal Government: *Provided,* That nothing contained herein shall prevent the making of a loan otherwise eligible, even though the borrower is in default under such an obligation by reason of his military service and the approval of the Commissioner is obtained.

(e) *Past due Title I mortgages at time of purchase.* A mortgage shall not be purchased when any instalment thereon is past due more than fifteen days at the date of purchase except purchases of mortgages under the provisions of § 502.11.

§ 502.6 *Eligible mortgages*—(a) *Mortgage provisions.* In order to be eligible for insurance a loan shall be secured by collateral security in the form of a duly recorded first mortgage, first deed of trust, or similar instrument which constitutes a first lien upon a fee simple or lease-hold interest in the land and buildings, appurtenances, and improvements thereon and which:

(1) Is in a form approved by the Commissioner for use in the jurisdiction in which the property covered by the mortgage, deed of trust, or similar instrument is situated and involves a principal amount not in excess of $3,000.

(2) Shall provide for interest at such rate as may be agreed upon between the borrower and the insured but in no case shall such interest be in excess of $4\frac{1}{2}$% per annum on the outstanding principal. Interest and principal shall be payable in monthly instalments (or other periodic instalments as provided in subparagraph (11) of this paragraph. In the event interest is payable in instalments corresponding to the income periods shown on the Credit Application, such interest payments may be required in advance for each such instalment period).

(3) May provide for payments by the borrower to the insured on each instalment payment date of an amount equal to the annual insurance charge payable by the insured to the Commissioner, divided by the number of instalment payment dates to elapse prior to the date such charge is due and payable to the Commissioner.

(4) Shall provide for such equal payments by the borrower to the insured on each instalment payment date as will amortize the ground rents, if any, and the estimated amount of all taxes, special assessments, if any, and fire and other hazard insurance premiums, within a period ending one month prior to the date on which same become delinquent. Such payments shall be held by the insured in a manner satisfactory to the Commissioner for the purpose of paying such ground rents, taxes, assessments, and insurance premiums before the same become delinquent for the benefit and account of the borrower. The mortgage shall also make provision for adjustments in case the estimated amount of such taxes, assessments, and insurance premiums should prove to be more or less than the actual amount thereof so paid by the insured.

(5) Shall contain a privilege of prepayment in full or in amounts equal to one or more instalment payments on the principal that are next due on the mortgage at any interest payment date upon thirty days' prior notice and without premium or penalty.

(6) Shall provide that all instalment payments to be made by the borrower to the insured shall be added together and the aggregate amount thereof shall be applied to the following items in the order set forth.

(i) Insurance charges due the Federal Housing Commissioner.

(ii) Ground rents, taxes, special assessments, and fire and other hazard insurance premiums.

(iii) Interest on the loan.

(iv) Amortization of the principal of the loan.

(7) May provide for a late charge to be paid by the borrower, not to exceed two cents (2¢) for each dollar for each instalment payment more than fifteen days in arrears. No late charge may be accrued in excess of $5.00. The borrower must be billed for the penalties collected as such, and evidence of such billing must be in the file if claim is made under the Contract of Insurance.

(8) Shall contain a provision for acceleration of maturity at the option of the holder in the event of default.

(9) Shall not have a final maturity in excess of twenty years and five calendar months.

(10) Shall provide for not more than two hundred and forty monthly payments which shall fall due on the first day of a month and the first such payment shall fall due not less than six days nor more than six calendar months from the date of the mortgage, except as provided in subparagraph (11) of this paragraph.

(11) In instances in which the Credit Application of the borrower indicates that not less than 51% of the income of the borrower is derived directly from the sale of agricultural crops, commodities or livestock produced by him, the mortgage may provide, in lieu of monthly instalments, for substantially equal instalment payments corresponding to the income periods shown on the Credit Application, *Provided, however,* That the first payment must be within twelve months of the date of the mortgage and that at least one payment must be made during each calendar year thereafter.

(b) *Borrowers payments.* The borrower must pay to the insured, upon the execution of the mortgage, a sum that will be sufficient to pay premiums on fire and other insurance required by the insured pursuant to the terms of the mortgage, and ground rents, if any, and estimated taxes, special assessments, drainage, and irrigation charges applicable to the period beginning on the date to which such ground rents, taxes, assessments, and charges were last paid and ending on the date of the first periodic payment under the mortgage. The borrower, at such time, may also be required to pay a sum equal to the first annual insurance charge plus an amount equal to one-twelfth ($\frac{1}{12}$) of the annual insurance charge multiplied by the number of months to elapse from the date of the closing of the loan to the date of the first periodic payment, and if the mortgage provides for payment of interest in advance, interest to the due date of the first periodic payment thereunder. The insured may charge the borrower any fees paid to the Administration and an initial service charge in an amount sufficient to reimburse the insured for the cost of closing the transaction, including appraisal fees but in no case shall the amount of such service charge be in excess of 1% of the original principal amount of the loan.

(c) *Recording fees and title costs.* In addition to the charges hereinbefore mentioned the insured may collect from the borrower only recording fees and such costs of title search as are customary in the community.

§ 502.7 *Loan procedure*—(a) *Appraisal.* Prior to beginning construction and to the disbursement of any portion of the proceeds of the loan, the insured shall make an estimate of the value of the property, assuming completion of the proposed improvements, and shall certify to the local insuring office the amount of such appraisal and that the requirements of § 502.3 (b) will be complied with. However, if the insured is an approved mortgagee under the provisions of another title of the act and requests the Commissioner to determine the eligibility of the property for insurance of a mortgage loan under another title of the act, it may accept the value estimate of the Commissioner as its own in the event it subsequently decides to make a loan under the provisions of this part.

(b) *Property approval.* Prior to beginning construction and to the disbursement of any portion of the proceeds of the loan, the insured shall submit to the Commissioner an Application for Property Approval on a form prescribed by the Commissioner. Such application shall be accompanied by the certificate provided for in paragraph (a) of this section, the plans or drawings and specifications, and the insured's check made payable to the Federal Housing Administration in the sum of $10.00.

(c) *Progress payments.* After obtaining the approval of the application by the Commissioner and prior to disbursing the proceeds of the loan or any portion thereof to the borrower or to a creditor for his account, the insured shall satisfy itself that the value of the work done and materials on the site at the time of any progress payment is equal to at least 110% of such payment, plus all such progress payments theretofore made. The insured shall not make a disbursement or progress payment to the borrower or to a creditor for his account which would increase the total amount disbursed to a sum in excess of 80 per centum of the proceeds of the loan until it has been notified that the final inspection by the Commissioner has been made and the work approved. No disbursement of any portion of the proceeds shall be made subsequent to receipt of written notice from the Commissioner by the insured to the effect that the structure has not been constructed in accordance with the plans or drawings and specifications and conditions as approved by the Commissioner. Whenever it appears to the satisfaction of the insured that completion of the work will be temporarily delayed due to inclement weather, non-availability of material, or other reason beyond the control of the builder, it may disburse the entire balance remaining of the loan proceeds after deducting and retaining therefrom twice the amount deemed necessary to complete the work. This retained balance shall not be disbursed until after the work has been inspected and approved by the Commissioner.

(d) *Compliance with regulations.* The approval of the Commissioner provided for in this section shall not relieve the insured from compliance with any regulation.

(e) *Substitution of borrowers.* In the event that property covered by a loan is sold to an eligible borrower who assumes and agrees to pay the debt and whose credit is satisfactory to the insured, the seller may be released by the insured from his obligation upon notice thereof to the Commissioner: *Provided,* That if the loan was secured by a first lien upon a fee simple estate, the loan, after the assumption, shall be secured by a first lien on a fee simple interest in the land and building appurtenances and improvements thereon.

(f) *Loan reports.* Loans shall be reported on the proper form to the Federal Housing Administration at Washington, D. C., within thirty-one days of the first disbursement of any of the proceeds of the loan or the date upon which it was purchased. Any loan refinanced in accordance with § 502.8 shall be reported on the proper form within thirty-one days from the date of refinancing. In any case, the Commissioner may in his discretion accept a late report.

§ 502.8 *Refinancing.* New obligations to liquidate loans previously reported for insurance pursuant to Title I of the act made after March 28, 1946, which may or may not include an additional amount advanced will be covered by insurance, *Provided,* That:

(a) They meet the requirements of all applicable regulations;

(b) They are reported to the Commissioner on the proper form within 31 days from date of execution;

(c) They have a maturity not in excess of the maximum permitted under this part from the date of the refinancing

obligation, but not to exceed thirty years from the date of the original mortgage.

(d) If the refinanced obligation was secured by a first lien upon a fee simple estate, the new obligation shall be secured by a first lien upon a fee simple interest in the land and building, appurtenances and improvements thereon.

§ 502.9 *Claims.* Claim for reimbursement for loss on a qualified loan shall be made as provided in this section.

(a) *Default reports.* If the borrower fails to make any payment or to perform any other covenant or obligation under the mortgage and such failure continues for a period of thirty (30) days, the mortgage shall be considered in default and the insured shall within sixty (60) days thereafter give notice in writing to the Commissioner of such default, and similar notices each sixty (60) days until such default is cured and notice thereof is given to the Commissioner.

(b) *Foreclosure or acquisition.* At any time within one year from the date of default the insured, at its election, shall either:

(1) Acquire by means other than foreclosure of the mortgage, possession of, and title to, the mortgaged property; or

(2) Commence foreclosure of the mortgage: *Provided*, That if the laws of the State in which the mortgaged property is situated do not permit the commencement of such foreclosure within such period of time, the insured shall commence such foreclosure within sixty (60) days after the expiration of the time during which such foreclosure is prohibited by such laws.

(3) Nothing herein contained shall be construed so as to prevent the insured, with the written consent of the Commissioner, from taking action at a later date than herein specified.

(4) If at any time during default the borrower is a "person in military service", as such term is defined in the Soldiers' and Sailors' Civil Relief Act of 1940, the period during which he is in such service shall be excluded in computing the one year period within which the insured shall commence foreclosure or acquire the property by other means as provided in this section.

(5) If the borrower is a person in military service as defined in such act, the insured may, by written agreement with the borrower, postpone for the period of military service, and three months thereafter, that part of the monthly payment, or any part thereof which represents amortization of principal, provided such agreement contains a provision for the resumption of monthly payments thereafter in amounts which will completely amortize the mortgage debt within its original maturity. Such agreement, however, will in no way affect the amount of the annual insurance charge which will continue to be calculated in accordance with the provisions of § 502.10. (For the purpose of this section, the date of default shall be considered as thirty (30) days after (a) the first uncorrected failure to perform a covenant or obligation, or (b) the first failure to make a monthly payment which subsequent payments by the borrower are insufficient to cover when applied to the overdue monthly payments in the order in which they became due.)

(c) *Reinstatement.* If after default and prior to the completion of foreclosure proceedings the borrower shall pay to the insured all monthly payments in default and such expenses as the insured shall have incurred in connection with the foreclosure proceedings, no claim for reimbursement under the Contract of Insurance can be made and the insurance shall continue, as if such default had not occurred.

(d) *Filing claim.* If the default is not cured as aforesaid, and if the insured has otherwise complied with the provisions of this section, it may at any time within seven months or such further time as may be approved by the Commissioner, after acquiring title to and possession of the mortgaged property, tender to the Commissioner possession thereof, and a deed containing a covenant which warrants against the acts of the insured and all claiming by, through, or under it, conveying good merchantable title to such property undamaged by fire, earthquake, flood, or tornado. The Commissioner shall promptly accept conveyance of such property and, subject to § 502.11, make payment of loss sustained by the insured as follows:

(1) The net unpaid balance of advance actually made;

(2) Uncollected earned interest to the date of default and interest at the rate of 3% per annum from the date of default to the date the claim is approved for payment.

(3) An amount on account of the cost of foreclosure or of acquiring the property by other means actually paid by the insured and approved by the Commissioner not in excess of two-thirds of such cost or seventy-five ($75) dollars, whichever is the greater.

(4) The amount of all payments which have been made by the insured for taxes, ground rents, special assessments, and water rates which are liens prior to the mortgage, and fire and hazard insurance premiums.

Any amount received by the insured from any source relating to the property on account of rent or other income, after deducting reasonable expenses incurred in handling the property, shall be deducted from the sum of the foregoing.

(e) *Evidence of title.* Evidence of title of the following types will be satisfactory to the Commissioner.

(1) A fee or owner's policy of title insurance, a guaranty or guarantee of title, or a certificate of title, issued by a title company, duly authorized by law and qualified by experience to issue such; or

(2) An abstract of title prepared by an abstract company or individual engaged in the business of preparing abstracts of title and accompanied by a legal opinion as to the quality of such title signed by an attorney at law experienced in examination of titles; or

(3) A Torrens or similar title certificate; or

(4) Evidence of title conforming to the standards of a supervising branch of the Government of the United States or of any State or Territory thereof.

Such evidence of title shall be furnished without cost to the Commissioner and shall be executed as of a date to include the recordation of the deed to the Commissioner, and shall show that, according to the public records, there are not, at such date, any outstanding prior liens, except for ground rents and taxes not due and payable and special assessments not in arrears. If the title and title evidence are such as to be acceptable to prudent lending institutions and leading attorneys generally in the community in which the property is situated, such title and title evidence will be satisfactory to the Commissioner and will be considered by him as good and merchantable.

(f) *Waiver of title objections.* The Commissioner will not object to the title by reason of the following matters: *Provided*, They are not such as to impair the value of the property for residence purposes:

(1) Customary easements for public utilities, party walls, driveways and other purposes; customary building or use restrictions for breach of which there is no reversion and which have not been violated to a material extent;

(2) Such restrictions when coupled with a reversionary clause, provided there has been no violation prior to the date of the deed to the Commissioner;

(3) Slight encroachments by adjoining improvements;

(4) Outstanding oil, water, or mineral rights, which do not impair the value of the property for residence purposes, or which are customarily waived by prudent lending institutions and leading attorneys generally in the community.

(g) *Sale and claim for deficiency.* In lieu of the procedure provided for in paragraphs (d) and (e) of this section, the insured, after acquiring title to the property as provided in this part, may, at its option and with the approval of the Commissioner, sell the same in the open market to a bona fide third party at any time within six months from the date of such acquisition of the property, or within such further time as may be approved by the Commissioner. The net amount received at such sale, whether in cash or deferred payments, shall be credited on the obligation and claim may be filed with the Commissioner for the balance. Payment of loss sustained by the insured shall be made as follows:

(1) The net unpaid balance of the advance actually made. In calculating the net unpaid amount, the net sale price must be included as a credit.

(2) Uncollected earned interest to the date of default and interest at the rate of 3% per annum from the date of default to the date the claim is approved for payment.

(3) An amount on account of the cost of foreclosure or of acquiring the property by other means actually paid by the insured and approved by the Commissioner not in excess of two-thirds of such cost or seventy-five ($75) dollars, whichever is the greater.

(4) The amount of all payments which have been made by the insured for taxes, ground rents, special assessments, water rates which are liens prior to the mortgage, fire and hazard insurance premiums, and cost of maintenance and repair of the property. (Claim for cost of maintenance and repair shall not exceed 10% of the net unpaid balance of the advance actually made unless prior approval of the Commissioner has been obtained.)

Any amount received by the insured from any source relating to the property on account of rent or other income shall be deducted from the sum of the items referred to in this paragraph.

§ 502.10 *Insurance charge*—(a) *Rate.* The insured shall pay to the Administration an annual insurance charge equal to one-half of one per centum of the original principal amount of any loans reported for insurance.

(b) *When payable.* The first annual insurance charge so calculated shall be paid by check or draft to the order of the Federal Housing Administration within 25 days after the date the Administration acknowledges receipt to the insured of the report of any such loan and the next and each succeeding annual insurance charge shall be paid in advance upon the anniversary of the first day of the month following the date of the mortgage until the loan is paid in full or claim is filed with the Commissioner under the Contract of Insurance.

(c) *Mortgages paid in full.* In the event the loan is paid in full prior to maturity or is foreclosed or the possession of and title to the property is otherwise acquired by the insured, the insured shall within 30 days thereafter notify the Commissioner of the date of prepayment, foreclosure, or acquisition, after which its obligation to pay future annual insurance charges in connection therewith shall cease but it shall not be entitled to a refund of any portion of an annual insurance charge previously paid or a reduction in the amount of any insurance charge, which fell due prior to such prepayment, foreclosure, or acquisition of the property.

(d) *Refinancing.* When the proceeds of any loan are used to liquidate a loan previously reported for insurance, there shall be deducted from the amount of the insurance charge payable the first year the pro rata share of the annual insurance charge paid on the original obligation.

(e) *Transfer of mortgages.* An insured who purchases a mortgage previously reported for insurance shall pay each succeeding annual insurance charge as provided in paragraph (b) of this section. Any adjustment of the insurance charge paid in advance by the seller shall be made between the purchaser and the seller.

(f) *Payment of insurance charge.* Subject to the other provisions of this part, the insurance granted under Title I of the National Housing Act, as amended, shall be effective with respect to any loan from the date of the report thereof to the Commissioner: *Provided*, That the insurance charge with respect to such loan is paid as required by this section.

§ 502.11 *Insurance reserve*—(a) *Legal limit.* Subject to the limitation on the total liability which may be outstanding at any time as stipulated in section 2 of Title I of the act, the Commissioner, in accordance with § 502.9 (d) and (g), will reimburse any insured for losses sustained by it up to a total aggregate amount equal to 10% of the total amount advanced on all eligible loans made by it after July 1, 1944, and reported for insurance during the time its Contract of Insurance is in force.

(b) *General insurance reserve.* There shall be established for each insured a general insurance reserve equal to 10% of the aggregate amount advanced on all loans originated by it on and after July 1, 1944, pursuant to the provisions of both Part 501 of this subchapter and this part.

(c) *Transfer of loans reported for insurance.* The insured shall not assign or otherwise transfer any loan reported for insurance to a transferee not holding a Contract of Insurance under Title I of the National Housing Act, *Provided*, That nothing contained herein shall be construed to prevent the pledging of such loans as collateral security under a trust agreement, or otherwise, in connection with a bona fide loan transaction.

(d) *Transfer of insurance reserve.* Except in cases involving the transfer of loans sold with recourse or under a guaranty, guarantee or repurchase agreement, the reports required by § 502.7 (f) shall be submitted, indicating the intent of the parties with respect to the transfer of the insurance reserve and unless the approval of the Commissioner is obtained, the insurance reserve shall be transferred as follows:

(1) In cases involving the transfer of notes purchased without recourse, guaranty, guarantee or repurchase agreement, provided no instalment payment is past due more than one calendar month at the time of purchase, the insurance reserve shall be transferred to the general insurance reserve of the purchasing institution on the basis of 10% of the actual purchase price or net unpaid original advance, whichever is the lesser.

(2) In cases involving the transfer of notes sold with recourse or under a guaranty, guarantee or repurchase agreement, no insurance reserve will be transferred and no reports will be required.

(e) *FHA recovery shall not affect reserve.* Amounts which may be salvaged by the Commissioner with respect to a loan in connection with which an insured has been reimbursed under its Contract of Insurance shall not be added to the insurance reserve remaining to the credit of such insured.

(f) *Conversion of mortgages.* If at any time a Class 3 loan previously reported for insurance is converted into an insured mortgage under the provisions of another title of the act, upon report of the conversion to the Commissioner, there shall be deducted from the insurance reserve outstanding to the credit of the insured an amount equal to ten per cent of the net unpaid principal of the loan as of the date of the conversion.

§ 502.12 *Administrative reports and examination.* The Commissioner, in his discretion, may at any time or from time to time call for a report from any institution on the delinquency status of the obligations held by such institution and reported for insurance, or call for such reports as he may deem to be necessary in connection with this part, or he or his authorized representative may inspect the books or accounts of the lending institution as they pertain to the loans reported for insurance.

The amendments contained herein are effective as to all loans made on or after March 28, 1946, and shall have the same force and effect as if included in and made a part of each Contract of Insurance.

Issued at Washington, D. C., March 28, 1946.

RAYMOND M. FOLEY,
Federal Housing Commissioner.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

PART 602—GENERAL ORDERS AND DIRECTIVES

DELIVERIES OF BITUMINOUS COAL BY RETAIL DEALERS, LAKE AND TIDEWATER DOCK OPERATORS

The failure of the mine workers and mine operators to negotiate a contract threatens a work stoppage at the bituminous coal mines. To restrict the use of existing limited supplies of bituminous coal to essential industrial and civilian requirements, it is necessary to place emergency restrictions upon the amount of bituminous coal that retail dealers, lake and tidewater dock operators may deliver. Accordingly, pursuant to SFAW Regulation No. 1, as amended, the following direction is issuted:

1. Every retail dealer and every lake and tidewater dock operator is prohibited from delivering any bituminous coal, other than coal produced in Districts 5 and 16, except to (a) a gas plant which certifies in writing that it has less than a 10-days' supply; (b) a hospital that certifies in writing that it has less than a 10-days' supply; (c) any domestic consumer who certifies in writing that he has less than a 10-days' supply; (d) an industrial consumer that certifies in writing that it has less than a 5-days' supply; and (e) any person upon specific written direction of the appropriate SFAW Area Distribution Manager.

2. Each retail dealer and each lake and tidewater dock operator making deliveries of bituminous coal to a consumer in accordance with paragraph 1 above is prohibited from delivering an amount of bituminous coal in excess of one ton or that amount which will enable the consumer to meet his minimum requirements for the number of days specified in paragraph 1, whichever amount is larger. "Days' supply" is that amount of coal which a consumer reasonably expects to consume in each day over a period of 10 days from the date of delivery of coal pursuant to this direction. The certifications required by paragraph 1 shall be made to and kept by the retail dealer or dock operator supplying the coal and may be inspected by any authorized representative of SFAW.

3. Every consumer is prohibited from receiving any bituminous coal which a retail dealer or lake or tidewater dock operator is not permitted to deliver to him pursuant to paragraphs 1 or 2 above.

4. Each SFAW Area Distribution Manager or Regional Representative is authorized to modify the limitations imposed by this direction within the area of his jurisdiction. Mr. W. G. Caperton, Solid Fuels Administration for War, Washington 25, D. C., is authorized to modify the limitations imposed by this direction with respect to any retail dealer or dock operator located west of the Mississippi River.

This direction shall become effective 12:01 a. m. April 1, 1946 and remain in effect until further notice.

Issued this 28th day of March 1946.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 42, as Amended Mar. 27, 1946]

VETERANS' EMERGENCY HOUSING PROGRAM

§ 903.155 *Directive 42*—(a) *Purpose of this directive.* This directive delegates to the National Housing Agency authority to approve applications for priorities assistance under Priorities Regulation 33 (HH ratings and the right to place certified orders, generally referred to as "HH ratings") or for authorization under Veterans' Housing Program Order 1. It describes the kinds of action which the National Housing Agency will take with respect to these applications and requires certain information and reports from the National Housing Agency. Under Civilian Production Administration Veterans' Housing Program Order 1, approval of a Form CPA-4386 constitutes authorization under that order for the construction, alterations or repairs covered by the CPA-4386.

(b) *Delegation of authority.* The National Housing Agency is hereby authorized to take the following actions in its own name on behalf of the Civilian Production Administration:

(1) To approve under Priorities Regulation 33 applications on Form CPA-4386 which it determines qualify under that regulation, and to assign the HH rating for the dwellings covered by the application as approved.

(2) To approve under Priorities Regulation 33 supplemental applications on Form CPA-4387 which it determines qualify under that regulation, and to assign the HH rating to the dwellings covered by the application as approved.

(3) To grant requests for amendments of approved applications in the following respects:

(i) As to the plans and specifications of the proposed dwellings.

(ii) As to the time by which construction of the proposed dwellings is to be started (such an amendment may be approved even if requested after the expiration date of the original application).

(iii) As to the location of the proposed dwellings.

(iv) As to the sales price, cost or rents for the dwellings.

(v) As to the number of units covered by an application.

(4) To approve under Priorities Regulation 33 to the extent permitted by paragraph (b) (1) above, applications on Form CPA-4386 superseding previous approvals where the former builder wishes to have the new applicant replace him as builder.

(5) To deny applications under Priorities Regulation 33 which it determines do not meet the requirements of that regulation.

(6) To require builders to whom HH ratings have been assigned and owners of housing accommodations built or converted under the Veterans' Emergency Housing Program to give information and file reports concerning the use of HH ratings and other facts necessary to determine the status of the program and the effect of it upon the supply of and demand for building materials and the enforcement of the program (subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942).

(7) To investigate any alleged violations of Priorities Regulation 33 with respect to preferences for veterans or the sales price, cost, rent, occupancy or disposition of dwellings, and to refer violations to the Civilian Production Administration for appropriate administrative or criminal action.

(c) *Appeals and exceptions.* The National Housing Agency may, in its discretion, grant appeals from the provisions of Priorities Regulation 33, except appeals from the provisions of paragraph (d), Schedule A and the directions to the regulation. The National Housing Agency may also, in its discretion, grant priorities assistance under the regulation or authorization under Veterans' Housing Program Order 1 for housing accommodations covered by the regulation, even though the application fails in some respect to satisfy the requirements of the regulation.

(d) *Instructions and procedures.* In exercising the authority given by this directive the National Housing Agency shall be governed by Priorities Regulation 33 as amended from time to time and by any written instructions which may be given by the Administrator, Deputy Administrator or Director of the Bureau of Reconversion Priorities of the Civilian Production Administration. All general instructions governing the assignment of preference ratings and other actions taken under this delegation of authority issued by the National Housing Agency or by the Federal Housing Administration shall be submitted to the Civilian Production Administration for prior approval.

(e) *Reports to the Civilian Production Administration.* The National Housing Agency shall furnish the Civilian Production Administration with copies of approved applications and with such reports and other information as may be requested by the Civilian Production Administration for the purpose of determining the status of the program and the effect of it upon the supply of and demand for critical building materials, and the allocation thereof.

(f) *Redelegations.* The authority delegated by this directive to the National Housing Agency may be redelegated by it to its authorized officials or to any constituent unit of the National Housing Agency which may in turn redelegate to its authorized officials or to any department of the United States Government which may in turn redelegate to its authorized officials.

Issued this 27th day of March 1946.

J. D. SMALL,
Civilian Production Administrator.

Chapter XI—Office of Price Administration

PART 1499—COMMODITIES AND SERVICES

[MPR 590, Amdt. 2]

WHOLESALE PRICES FOR SPECIFIED CONSUMER GOODS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 590 is amended in the following respects:

1. The first sentence of section 3a is amended to read as follows: "Regardless of any contrary provision contained in this regulation, or any other regulation, or in any order issued under this regulation or any other regulation, a wholesaler of any article covered by this regulation may adopt as his own the manufacturer's ceiling prices (including all permitted adjustments) for sales to the same classes of purchasers."

2. Section 4 (a) (2) is amended to read as follows:

(2) For sales on and after December 28, 1945, the price found by applying to your "net cost" your "category markup" for sales to that class of purchaser. "Category markup" is the percentage markup factor which you compute on the markup chart described in section 12 and filed with the Office of Price Administration, and "net cost" for this purpose is defined below in section 9.

3. Section 7 (a) (2) is amended to read as follows:

(2) For sales on and after December 28, 1945, the price found by applying to your "net cost" your "category markup" for sales to that class of purchaser. "Category markup" is the percentage markup factor which you compute on the markup chart described in section 12 and filed with the Office of Price Administration, and "net cost", for this purpose is defined below in section 9.

4. A new section 13 (c) is added to read as follows:

(c) If a particular category markup was erroneously computed on the markup chart filed with the Office of Price Administration, the maximum prices for all sales and deliveries on and after September 18, 1945 are those determined by the use of the category markup correctly computed on the markup chart. Where there has been an error in the computation of a category markup and the wholesaler although notified of the error, fails or refuses to file a revised markup chart on which the category markup is correctly computed, the Office of Price Administration may upon its own motion issue an order under this section establishing the category markup applicable to all of the wholesaler's sales and deliv-

eries on and after September 18, 1945 of the articles in the particular category.

5. Section 23 is amended to read as follows:

SEC. 23. *Delegation of authority.* Any Regional Administrator may issue orders fixing ceiling prices or a method of determining ceiling prices upon the receipt of applications under section 6 of this regulation; adjusting or establishing category markups in accordance with section 13 of this regulation; and establishing, correcting, revising, or revoking ceiling prices or category markups in accordance with sections 19 (b), 19 (c), and 19 (d) of this regulation.

6. The effective date provision of amendment No. 1 to Maximum Price Regulations No. 590 is amended to read as follows:

This amendment shall become effective February 18, 1946, except that the revocation of section 27 (a) (1) shall be effective as of December 28, 1945.

This amendment shall become effective April 2, 1946.

Issued this 28th day of March 1946.

PAUL A. PORTER,
Administrator.

PART 1305—ADMINISTRATION

[SO 154]

ADJUSTED MAXIMUM PRICES FOR CERTAIN KNITTED GARMENTS

A statement of the considerations involved in the issuance of this supplementary order issued simultaneously herewith has been filed with the Division of the Federal Register.

SECTION 1. *What this order does.* This supplementary order provides a method for the adjustment of manufacturers' ceiling prices for specified knitted commodities subject to base period "freeze" prices by the addition of certain labor and material costs increases to such ceiling prices.

SEC. 2. *Scope of this order*—(a) *What commodities are covered.* This order applies to the commodities listed in Column 1 of Appendix A whose ceiling prices under the appropriate individual price regulations do not exceed the net "cut-off" price listed for each commodity in Column 2 of Appendix A provided that the commodity for which an adjustment is being sought is "the same" as one of the manufacturer's base period commodities. (Section 6 (a) of this order explains when two commodities are "the same.") A "base period commodity" is one for which the ceiling price is established under either § 1499.2 (a) (1) of the General Maximum Price Regulation [1] or § 1389.302 (a) of Maximum Price Regulation 221.[2]

Example 1: During March 1942 a manufacturer delivered Style 476 athletic shirt at $3.25 per dozen. He now produces Style 497 athletic shirt which cannot be priced under section 1499.2 (a) (1) of the General Maximum Price Regulation but can be priced under § 1499.2 (a) (2) since it is similar to his March 1942 Style 476. Therefore, although he may establish a ceiling price of $3.25 per dozen for his Style 497 under § 1499.2 (a) (2) of the General Maximum Price Regulation, since it is similar to his Style 476 delivered during March 1942, he may not adjust his $3.25 ceiling price for Style 497 under this order, since it is not "the same" (as defined in this order) as one of his base period commodities.

Example 2: A manufacturer delivered men's lightweight knit union suits (covered by the General Maximum Price Regulation) during March 1942, but neither delivered nor offered for delivery men's athletic shirts during that month. He now produces men's athletic shirts whose ceiling price he establishes under § 1499.2 (b) of the General Maximum Price Regulation, by reference to a similar athletic shirt delivered during March 1942 by his most closely competitive seller of the same class. He may not adjust his ceiling price for these athletic shirts under this order since they are not "the same" as one of his base period commodities.

Example 3: A manufacturer of men's "winterweight" knitted drawers (covered by Maximum Price Regulation 221) sold Style 576 for $4.75 per dozen pursuant to a written contract on January 4, 1942. He now wishes to sell drawers identical to his Style 576. Under this order he may adjust his ceiling price of $4.75 per dozen since the drawers are "the same" as one of his base period commodities.

(b) *What sales are covered.* This order covers all manufacturers' sales of the commodities described in (a).

A "manufacturer's sale" is any sale of a commodity by the person who fabricated or processed the commodity or for whom it was fabricated or processed by a contractor or agent from basic materials owned or otherwise furnished by the principal. Manufacturers' sales includes sales to ultimate consumers as well as to resellers.

SEC. 3. *Adjustment of maximum prices.* On and after April 3, 1946, any commodity covered by this order may be sold or delivered at the adjusted maximum price described in this section. The adjusted maximum price under this section is found as follows:

Step 1. Determine the maximum price of the commodity under the appropriate maximum price regulation.

Step 2. Determine the type of yarn ("type of yarn" is defined in section 6 (b) below) and number of pounds of such yarn consumed in the commodity being priced ("number of pounds consumed" is defined in section 6 (c) below).

Step 3. Multiply the number of pounds of yarn found in Step 2 by the cost increase (in dollars and cents) listed in Column 2 of Appendix B for the appropriate type of yarn.

Step 4. Determine the amount (in dollars and cents) by which the cost of direct labor (at legal wage rates as defined in section 6 (d) below) on the commodity has increased since January 1, 1942. "Direct labor" includes only operations performed directly on the commodity and necessary to make it into a finished product. It does not include supervisory or administrative labor or other overhead. This increase in direct labor cost may be found as follows:

(a) Where labor is paid on a "piecework" basis, subtract the piece rate paid by the seller in January 1942 for each direct labor operation on the commodity from the current legal piece rate for such operation. The sum of the amounts so found for all operations on the commodity being priced is the increase in piece rate direct labor on the commodity.

(b) Where labor is paid on a "time" basis (hourly, daily, weekly or monthly rate), find the length of time consumed in performance of each direct labor operation on the commodity and subtract the amount paid by the seller in January 1942 for such period of time from the current legal wage paid for the same period of time. The sum of the amounts found for all operations on the commodity being priced is the increase in time rate direct labor on the commodity.

Step 5. Add the amounts found in Step 3 and Step 4 to the maximum price found in Step 1.

Step 6. The adjusted maximum price of the commodity is the total found in Step 5 or the price listed for the commodity in Column 2 of Appendix A, whichever price is lower.

NOTE: In figuring his adjusted maximum price under this section, a seller may not use, as the maximum price found under Step 1, any adjusted ceiling price established under Amendments 5 or 6 to Maximum Price Regulation 221 or SO 137 [3] or SO 139.[4]

SEC. 4. *Records and reports*—(a) *Records.* The records required by this section must be maintained for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

Every person who makes a sale covered by this order must prepare and maintain the records required by the maximum price regulation under which his ceiling prices were established prior to the effective date of this order, except that the adjusted maximum price established under this order shall be substituted for the original maximum price in all records of deliveries made or maximum prices established after the effective date of this order.

In addition, he must keep a copy of the report filed under (b) below.

(b) *Reports.* No person may deliver any commodity at an adjusted maximum price established under this order until he has either received written approval of his adjusted maximum price from the Office of Price Administration or until the twentieth day after he has mailed to the Apparel Price Branch, Office of Price Administration, Washington 25, D. C., the report required by this paragraph and all additional information which may be requested by the Office of Price Administration, whichever date is earlier. Under this paragraph the seller must file two copies of a report signed by an owner, officer or principal and containing the following information:

(1) Date of report.

(2) Seller's name and business address.

(3) A list of the commodities whose maximum prices he wishes to adjust under this order, showing each style of each commodity separately.

(4) A description of each commodity listed in (3), including type of yarn and number of pounds of yarn consumed in each style.

(5) A description, including type of yarn and number of pounds of yarn consumed, and an identification (by style number, if possible) of the seller's base period commodity which was the same as each style listed in (3).

(6) The maximum price of each style listed in (3) in effect immediately prior to the effective date of this order and without adjustment of such maximum price under Amendment 5 or 6 to Maximum Price Regulation 221 or SO 137 or SO 139. State also the regulation or order under which such maximum price is established.

(7) The amount (in dollars and cents) by which the cost of direct labor (at legal wage rates) on each style listed in (3) has increased between January 1, 1942 and the date of the report.

(8) The amount of yarn cost increase permitted by this order for each style listed in (3) (amount shown in Column 2 of Appendix B for the appropriate type of yarn multiplied by the number of pounds of yarn listed for the style in (3)).

(9) Adjusted maximum price under this order of each style listed in (3) (either the maximum price shown in (6) plus amount shown in (7) plus amount shown in (8) or the price listed for the commodity in Column 2 of Appendix A, whichever price is lower).

(10) A list of all legal wage increases made by the seller to his employees between January 1, 1942 and the date of the report, and, as to each such increase, the date such increase went into effect and the authority under which it was made (e. g., Order of National or Regional War Labor Board or Wage Stabilization Board, arbitration award, etc.).

(c) *Form of report.* The report required by this section must be made in the following form.[5]

Report under section 4 (b) of SO 154

(d) *Approval or modification of reported adjusted maximum prices*—(1) *Approval.* The adjusted maximum prices reported under this section may be expressly approved in writing by the Office of Price Administration, or, if no order disapproving or modifying such adjusted prices has been issued within 20 days after the mailing of the report required by (b), above, and all additional information which may be requested by the Office of Price Administration, adjusted maximum prices reported are deemed to have been approved until issuance of an order disapproving or modifying them.

(2) *Modification or disapproval.* The Office of Price Administration may, at any time, disapprove or modify the adjusted maximum prices reported under (b) above if the adjustment has not been properly made in accordance with the provisions of this order.

SEC. 5. *Relation to other maximum price regulations*—(a) *Regulations supplemented.* This order supplements the provisions of the following regulations only:

(1) General Maximum Price Regulation
(2) Maximum Price Regulation 221

(b) *Regulations not affected.* Although the ceiling prices of commodities eligible for adjustment under Amendments 5 and 6 of Maximum Price Regulation 221, SO 137 and SO 139 may be adjusted under this order, maximum prices as adjusted under those regulations or orders may not be further adjusted under this order. That is, a commodity may be sold or delivered at an adjusted maximum price established under one of those orders or under this order, whichever price is higher, but the adjustment permitted by this order may not be added to the adjusted maximum price under Amendments 5 or 6 of Maximum Price Regulation 221, SO 137 or SO 139.

SEC. 6. *Definitions.* Unless the context otherwise requires or unless specifically provided herein, the definitions set forth in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(a) *"The same commodity".* For purposes of this order a commodity currently being sold is considered "the same" as a base period commodity only if it is identical with the base period commodity in all respects except that it may differ from the base period commodity to the following extent:

(1) The current commodity may have a finished weight of not less than 97% of the finished weight of the base period commodity.

(2) The current commodity may be made with a substantially equal number of courses and needles per inch and with trimmings of substantially equal quality and serviceability to the base period commodity.

(3) The current commodity may be made of yarn which varies from that of the base period commodity by not more than two counts. For example, a current commodity made of 26 count yarn may be considered the same as a base period commodity made of 24 or 28 count yarn. Note, however, that the amount of permitted yarn cost increase must be based on the actual count of yarn used in the current commodity.

(b) *"Type of yarn".* For the purposes of this order yarns are classified as follows:

(1) As to the fiber of which it is made (such as cotton, wool or synthetic);

(2) As to whether it is combed or carded;

(3) As to count of yarn, such as 26's, 30's, etc.;

(4) As to whether singles or plied.

Where a garment is knitted of yarn which is a blend of one or more different fibers, or of a combination yarn (that is yarns of different fibers plied together) each fiber is treated separately for the purpose of calculating the permitted yarn cost increase, as described in (c) below.

(c) *"Number of pounds of yarn consumed".* For purposes of this order the "number of pounds of yarn consumed" in a commodity is the number of pounds required to knit the base size of the commodity, that is the gross knitting weight. In calculating the yarn cost increase permitted for a commodity made of a blended yarn or of more than one type of yarn, the number of pounds of each type of cotton yarn consumed in the commodity must be multiplied separately by the increase factor listed for that type of yarn in Appendix B.

(d) *"Legal wage rates".* For purposes of this order "legal wage rates" are wage rates put into effect before September 16, 1942, or, if put into effect after that date, authorized by express order of the National or Regional War Labor Boards, or the Wage Stabilization Board, or permissible under any general order or directive issued by one of such boards, or wage rates deemed "approved" under Executive Order 9697, issued February 14, 1946.

SEC. 7. *Amendment.* Any person seeking an amendment, which must have general applicability, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[6] issued by the Office of Price Administration.

This supplementary order shall become effective April 3, 1946.

NOTE: All record keeping and reporting requirements of this supplementary order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 29th day of March 1946.

PART 1381—SOFTWOOD LUMBER

[RMPR 26, Amdt. 22]

DOUGLAS FIR AND OTHER WEST COAST LUMBER

Correction

In paragraph 9 of Federal Register Document 46-3254, appearing at page 2181 of the issue for Saturday, March 2, 1946, section 23 (b) (3) should read as follows:

(3) Cargo mills granted special authorizations under former section 7 (d) (1) may continue to charge for prerail truck hauls in accordance with such authorization.

PART 1305—ADMINISTRATION

[SO 155]

TRANSPORTATION ADJUSTMENT FOR MARTHA'S VINEYARD AND NANTUCKET, MASS.

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

SEC. 1. *Purpose of this supplementary order.* Transportation from the mainland to the islands of Martha's Vineyard and Nantucket, both of which are parts of Massachusetts, was discontinued on February 28, 1946, by the company previously furnishing the bulk of such service, and on March 1, 1946, a new company began to supply the service. The initial rates filed by the new company, which are now in effect, are higher than the old rates for most commodities. The increased cost results in a reduction of the margins of sellers on the islands as to commodities which are governed by a variety of price regulations, and the purpose of this order is to afford relief from this "squeeze", on a temporary basis and only as to certain groups of commodities, until such time as a final determination of rates has been made and the effect of such rates on resellers on the islands has been determined.

SEC. 2. *Commodities affected by this supplementary order.* This supplementary order may be used in the pricing of any commodity which is bought and resold in substantially the same form and which is governed, for sales at wholesale or sales at retail, by a price schedule, maximum price regulation or supplementary order, or by any regulation supplementary to a maximum price regulation, which:

(a) Establishes maximum prices by reference to the price charged by the seller during some past period of time (a so-called "base-period freeze" regulation, such as the General Maximum Price Regulation); or

(b) Establishes maximum prices by the use of the seller's own margin over cost during some past period of time, where the cost to which the margin is applied does not include incoming transportation cost or where the inclusion of incoming transportation cost in the cost which was used to determine the margin was optional or depended on the seller's own customary practice and the seller did not in fact include such transportation in the cost and so must now calculate prices by applying said margin to a cost exclusive of transportation costs (for example, Maximum Price Regulation No. 580; and Revised Maximum Price Regulation No. 330 in those cases in which the costs listed on the seller's chart do not include incoming transportation cost); or

(c) Establishes maximum prices by prescribing a specific percentage markup over a cost which is so defined as to exclude incoming transportation cost (for example, General Retail Order No. 3 under Maximum Price Regulation No. 580); or

(d) Establishes maximum prices by prescribing a specific percentage markup over a cost which, although it includes incoming transportation cost incurred in connection with a purchase made during some preceding period, may not include increases in incoming transportation cost incurred on subsequent purchases of the same commodity (for example, Maximum Price Regulations 421, 422 and 423).

This supplementary order may not be used in any case where the OPA has fixed the same dollar-and-cents ceiling price for all of the sellers of a class or geographical area or where a retail ceiling price has been required by the OPA to be preticketed. (Examples are 2d Revised Maximum Price Regulation No. 578, Maximum Price Regulation No. 602, Revised Order No. 1 under § 1499.159e of Maximum Price Regulation No. 188 and Maximum Price Regulation No. 355). No action to afford any relief is, of course, required in those cases where the seller may include actual transportation charges paid in the cost to which a margin is applied, or may add to the determined price the actual inbound transportation expense (for an example of the latter type, see Supplementary Order No. 151).

SEC. 3. *Adjustment.* Any seller located on Martha's Vineyard or Nantucket Islands, Massachusetts, who brings to the islands for resale a commodity described in section 2 and for the resale of which section 2 permits this order to be used may, if he observes the invoicing and record-keeping requirements of section 4 of this supplementary order, add to his otherwise properly determined maximum price the difference between the transportation cost actually incurred in bringing the commodity from the mainland to the island and the cost which would have been incurred for an identical shipment from the mainland to the island immediately prior to March 1, 1946. No additional cost incurred over and above the cost incurred at any prior time due to a change in the method of transportation from the point of origin to the point where the commodity is loaded on board vessel for carriage to the island may be so added.

Any seller located on Martha's Vineyard or Nantucket Islands, Massachusetts, who buys such a commodity from a reseller on the island for resale may add to his otherwise properly determined maximum price the amount of the additional charge actually paid by him to his supplier hereunder, if separately stated on his supplier's invoice and if he in turn observes the requirements of section 4.

SEC. 4. *Record-keeping and invoicing*—(a) *Records.* Every seller located on Martha's Vineyard or Nantucket Islands, Massachusetts, who brings to the islands for resale a commodity eligible for adjustment hereunder (including any commodity which may be the subject of a Special Order under section 5 hereof) shall keep clear and accurate records of the transportation cost actually incurred in bringing the commodity from the mainland to the island, and shall preserve all of his existing records as to the costs of bringing similar and identical shipments from the mainland to the island prior to March 1, 1946. Every seller located on said islands who buys such a commodity from a reseller on the island for resale shall preserve the invoice or similar document rendered by his supplier, showing the transportation adjustment charged to him.

(b) *Invoices.* Any reseller on the islands who sells to a purchaser who buys for resale a commodity eligible for adjustment hereunder shall furnish to the purchaser an invoice or similar document which shall separately set forth, in addition to the information which may be required by the regulation otherwise governing the maximum price of the commodity, the amount of the adjustment charge, if any, under section 3 hereof, identified by the words "OPA Transportation Adjustment under S. O. ____".

SEC. 5. *Special orders.* The Regional Administrator for Region I of the Office of Price Administration may, by special orders under this section, modify the provisions of this order as applied to certain commodities or classes of sellers, including the power to provide for an adjustment consistent with the general purpose of this order for commodities which are not eligible for an adjustment under section 2 hereof.

SEC. 6. *Revocation and amendment.* This supplementary order may be revoked or amended at any time.

NOTE: The invoicing and record-keeping requirements of this supplementary order have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942, as amended.

This supplementary order shall become effective March 28, 1946.

Issued this 28th day of March 1946.

Administrator.

[2d Rev. MPR 319, Amdt. 3]

CERTAIN BAKERY PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new section 25 is added to Second Revised Maximum Price Regulation 319 to read as follows:

SEC. 25. *Emergency decreases in weight.* Notwithstanding any provision in this regulation to the contrary, any producer desiring to decrease the weight of a product pursuant to the recommendations of the Famine Emergency Committee may do so in the following manner:

(a) Prior to his April, 1946, recalculation and filing, he may decrease the weight of such product by not more than 10 percent without any decrease in his maximum price for such product if his saving in cost of ingredients by reason of such decrease is less than 1 cent. Where such saving amounts to a cent or more, his maximum price for the product must be decreased by the amount of whole cents included in such saving.

(b) Any producer recalculating his maximum price during April, 1946, for any product the weight of which is being or has been decreased shall do so as follows: He shall first recalculate his maximum price for the product in the manner provided in sections 10 and 11 of this regulation without giving any consideration to such decrease in weight. Such change may then be reflected in the manner provided in section 12. He may then decrease the weight of such product by not more than 10 percent without any decrease in his maximum price for such product if his saving in cost of ingredients by reason of such decrease is less than 1 cent. Where such saving amounts to a cent or more his maximum price for the product must be decreased by the amount of whole cents included in such saving.

This amendment shall become effective March 28, 1946.

PART 1401—SYNTHETIC TEXTILE PRODUCTS

[MPR 602,[1] Amdt. 2]

WOMEN'S NYLON HOSIERY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 602 is amended in the following respects:

1. Section 2 (c) (3) is amended to read as follows:

(3) *Limitation of distribution by manufacturers to persons other than sellers-at-retail and ultimate consumers.* No manufacturer shall deliver to persons other than sellers-at-retail and ultimate consumers, in any calendar quarter year, a larger percentage of his total deliveries of women's nylon hosiery (including finished and greige goods) than his "wholesaler percentage." A manufacturer's "wholesaler percentage" is the percentage that his deliveries in 1941, of women's full length hosiery of all fibers (including finished and greige goods) to persons other than sellers-at-retail and ultimate consumers bore to his total deliveries in 1941 of women's full length hosiery of all fibers (including finished and greige goods). If a manufacturer did not deliver any women's full length hosiery in 1941, his wholesaler percentage will be based on the deliveries of women's full length hosiery made during the first calendar year after 1941 in which he delivered this hosiery. In the case of a manufacturer who first delivered women's full length hosiery in 1945, his wholesaler percentage will be based on deliveries of women's full length hosiery made between January 1, 1945 and November 1, 1945. Deliveries by a manufacturer's agent or selling representative are to be considered as deliveries by the manufacturer. Deliveries to retailers' buying agencies, such as buying syndicates and central buying offices are to be considered as deliveries to sellers-at-retail. Export sales are included in the term "deliveries" as used in this subparagraph.

2. Section 2 (c) (4) is amended to read as follows:

(4) *Requirement to report on distribution by manufacturers*—(i) *Initial report.* All manufacturers are required to file a "wholesaler percentage" initial report before making deliveries to persons other than sellers-at-retail and ultimate consumers with the Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C. (Manufacturers who have properly filed their "wholesaler percentage" initial reports prior to March 29, 1946, need not refile.)

This report must contain the following information:

(*a*) Total quantity (in dozens of pairs) of women's full length hosiery of all fibers (finished and greige goods) delivered by the manufacturer, his agents and representatives, in the year 1941 (or, if no deliveries were made in that year, the first calendar year after 1941 (or the period January 1, 1945 to November 1, 1945) in which deliveries are made.)

(*b*) Of the total amount set forth under (*a*) above, state separately the number of dozens of pairs delivered to each of the following classes of customers:

(*i*) Sellers-at-retail (who purchased the hosiery for resale directly to ultimate consumers). Include in this quantity hosiery delivered to retailers' buying agencies, such as buying syndicates and central buying offices.

(*ii*) *Ultimate consumers.* (Include deliveries made to individual ultimate consumers.)

(*iii*) *Wholesalers.*

(*iv*) *Other manufacturers.*

(*v*) *Other classes of customers* (specify).

(*c*) Your "wholesaler percentage" (this is the percentage which is secured by dividing the sum of the amounts set forth in (*iii*), (*iv*), and (*v*) of (*b*) above, by the amount set forth in (*a*)).

For example: Manufacturer X delivered in 1941 a total of 100,000 dozen pairs of women's full length hosiery of all kinds. Of this total he delivered 35,000 dozen pairs to retailers, 500 dozen pairs directly to ultimate consumers, 50,000 dozen pairs to wholesalers, 2,000 dozen pairs to other manufacturers and 12,500 dozen pairs to exporters. His "wholesaler percentage" therefore is 64.5% (50,000 + 2,000 + 12,500 − 64,500 which, when divided by 100,000, is 64.5%).

(ii) *Quarterly reports.* On or before April 20, 1946 and on or before the 20th day of July, October, January and April thereafter every manufacturer is required to file with the Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., a report showing the manufacturer's "wholesaler percentage," the total quantity (in dozens of pairs) of women's full length nylon hosiery (finished and in the greige) which the manufacturer delivered in the preceding calendar quarter year and, separately stated, the quantities (in dozens of pairs) of women's full length nylon hosiery delivered during that calendar quarter year to each of the classes of customers listed in (i) above.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective March 29, 1946.

Issued this 29th day of March 1946.

NOTICE OF APPLICATION

MARCH 29, 1946.

1. Notice is hereby given that on March 21, 1946, an application was filed with the Federal Power Commission by Panhandle Eastern Pipe Line Company (hereinafter referred to as "Applicant" or "Panhandle"), a Delaware corporation with its principal offices at Kansas City, Missouri, and Chicago, Illinois, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the applicant to construct and operate certain pipe line looping, additional compressor facilities and certain general construction and installation changes, hereinafter more particularly described, which, if constructed, are estimated to increase the designed capacity of Applicant's existing pipe line system from approximately 353,000 Mcf to a total designed delivery capacity of approximately 473,000 Mcf per day.

2. Panhandle presently owns and operates (under certificates of public convenience and necessity heretofore issued by the Commission) an integrated natural gas pipe line system, situated in the States of Texas, Oklahoma, Kansas, Missouri, Illinois, Indiana, Ohio and Michi-

gan. It produces natural gas from leasehold acreages located in the States of Texas and Kansas, purchases natural gas produced in the States of Texas, Oklahoma and Kansas, and is engaged in the transportation and sale of such gas in interstate commerce for resale for ultimate public consumption for domestic, commercial, industrial and other uses in the areas of the States of Texas, Kansas, Missouri, Illinois, Indiana, Ohio and Michigan.

3. The facilities which Panhandle seeks authorization to construct and operate are divided into two main groups, as follows:

(a) "Group A" comprises the facilities which applicant proposes to construct and place in operation during the year 1946. Applicant estimates these facilities will increase its system peak-day designed capacity from 383,000 Mcf to approximately 393,000 Mcf, and estimates such facilities will cost $6,216,000.

(b) "Group B" comprises the facilities proposed to be constructed and placed in operation during the year 1947. Applicant estimates these facilities will increase its system peak-day designed capacity from approximately 393,000 Mcf to approximately 473,000 Mcf, and estimates such facilities will cost $21,097,000.

4. The facilities which Applicant seeks authorization to construct and operate are described by groups, with estimated costs as follows:

GROUP A FACILITIES

This group consists of (a) field facilities to be located at points west of Applicant's Liberal (Kansas) compressor station, and (b) facilities to be located at Liberal compressor station and at points on Applicant's system east of said station.

(a) *West of Liberal (Kansas) Compressor Station.* (1) Sunray Compressor Station, a new field compressor station to be located near Sunray, Moore County, Texas, with 3,000-horsepower capacity estimated to cost $731,000.

(2) Hansford Compressor Station, installation at this station in Hansford County, Texas, 2,400-horsepower additional capacity at an estimated cost of $500,000.

Summary

Estimated total cost of "Group A" facilities	$6,216,000
Estimated total cost of "Group B" facilities	21,097,000
Total estimated cost of construction of "Group A" and "Group B" facilities	$27,313,000

5. Applicant proposes to finance the cost of the construction of "Group A" facilities from current funds. As to the cost of "Group B" facilities, Applicant states that it proposes to finance such cost by methods satisfactory to the Commission but that the particular method thereof has not yet been fully determined. A full report of the method finally determined upon, Panhandle says, will be made at the hearing.

6. Applicant says it owns and controls reserves of gas adequate to supply its present market requirements and the increased market requirements contemplated by this application for a period of more than 25 years.

7. The facilities covered by this application, Applicant says, will constitute an integral part of its general pipe line system and will be supervised and operated with such system. Due to that fact and the present situation with reference to fluctuating operating costs, Panhandle says, it is impractical at this time to allocate operating expenses and fixed charges specifically attributable to such facilities. However, Applicant states, it is estimated that the unit cost of producing and transporting the additional volumes of gas made available through the construction of the proposed facilities will not be in excess of the unit cost of gas produced and transported under existing facilities.

8. The facilities proposed, Panhandle states, comprise a construction program based upon its estimated requirements for expansion within a reasonable future period. Upon the completion and operation of these facilities, according to the Applicant, continuous flow of gas will be available at all delivery points on its system sufficient to deliver an additional 90,000,000 cubic feet of gas per day to the markets on said system—providing additional volumes of gas available for market requirements, particularly on the eastern end of its system.

9. Panhandle says in its application that a situation is presented which justifies, and requires, the granting of a temporary certificate authorizing it to construct and place in operation the facilities embraced in "Group A", in order to prevent the occurrence, during the winter of 1946–1947, of such an emergency as might arise if normal winter temperatures prevail and increased peak demands occur on its system.

10. Panhandle then asks that a temporary certificate of public convenience and necessity be issued by the Commission to authorize the construction and operation of the "Group A" facilities and further, that the application be set for hearing at an early date, and that thereafter a permanent certificate be issued to cover the construction and operation of said "Group A" facilities and also the "Group B" facilities.

11. Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the Provisional Rules of Practice and Regulations under the Natural Gas Act, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

12. Any person desiring to be heard or to make any protest with reference to the application of the Panhandle Company should, on or before the 15th day of April, 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's Provisional Rules of Practice and Regulations under the Natural Gas Act.

[MPR 188, Order 3 Under Order 7]

YARD-MAN, INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph (b) of Order No. 7 under § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's ceiling prices.* Yard-Man, Incorporated, 1410 West Ganson Street, Jackson, Michigan, may compute its adjusted ceiling prices for all articles of power lawn mowers which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 12.2 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly established or determined in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, and approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that sec-

tion will reflect the supplier's prices as adjusted in accordance with this order.
